

### An Object Lesson For Your Boy

Every father wants his boy and girl to learn the lesson of habitual saving.

Do you know, fathers, that one of the best ways to teach your children to save regularly is to have a savings account yourselves?

Let that boy of bring your savings deposit to the bank as "regular as clockwork" and he will get the habit himself—he can't help it.

Incidentally, a little nest egg will be good for father, too.

### GRANITE CITY SAVINGS BANK

Ashland, Oregon

### LOCAL AND PERSONAL

—Cliff Payne makes cupboards.

H. F. Pohlman was at Medford Tuesday transacting business.

L. F. Ferguson was transacting business at Medford between trains on Tuesday.

The Tidings is for sale at W. M. Poley's Drug Store, 17 East Main St.

J. C. Barnard was a Medford business visitor on Tuesday.

The Mexico Northwestern Railroad is said to have lost approximately \$3,000,000 in the Madero and Orozco revolutions.

Some men seem to think they are doing pretty well if they don't break more than five of the Ten Commandments.

Pittsburg claims to consume more fuel than any other city in the world.

department is entirely shut down. The sash and door factory is still in operation.

Tyson Smith of Chicago has opened offices in the Stephenson building for the practice of mechanotherapy. The Tidings wishes him success.

W. W. Dann has returned from his trip east, where he spent several months.

The school board at a special meeting on Tuesday afternoon purchased a piano for the West Side school, purchasing through Swenson & McRae of this city.

Mrs. S. W. Clute is confined to her home on Nursery street by a lame back caused by a fall.

W. D. Hodgson was transacting business in Medford Tuesday.

F. H. Adamson is back from an extended trip through California with his father, L. M. Adamson, where they have been looking for a location for mercantile business. Mr. Adamson, Sr., is still in the sunny southland.

J. W. Johnson came up from Medford today to assist his brother, Mayor Johnson, in their jewelry store. Mr. Johnson will move his family up from Medford in about two weeks, occupying Arthur Thompson's residence on Granite street.

In the Tidings mention of the Wagner Creek Nursery last issue a typographical error made the account say that the company would have 15,000 trees ready for market next year, when it should have read 150,000. The company is planning for a greater growth in the valley.

SUNSET MAGAZINE and Ashland Tidings one year \$2.75 to old or new subscribers. Regular price of Sunset Magazine is \$1.50 per year.

### ANSWERS MR. TOU VELLE

School Supervisor Henry Takes Exception to Statements of the County Judge.

The Tidings is in receipt of a communication from D. C. Henry, one of the Jackson county school supervisors, in which he states that the Medford Mail Tribune, while printing Superintendent Wells' reply to Judge Tou Velle in its daily edition, only published the Tou Velle attack in the weekly Mail Tribune, and asking the Tidings to give place to an answer from Mr. Henry which appeared in the Gold Hill News. As heretofore stated, the Tidings does not wish to take sides in the fight, but wishes that all sides may be given full opportunity to reach the people. The following is Mr. Henry's communication:

To the Taxpayer:

Although it is not likely that the article in the Medford Mail Tribune of January 14, by County Judge F. L. Tou Velle, will make the impression it might have done some years ago, yet any article coming from a county judge could not but be given some attention in the public mind. Whether the misstatements which appear in this article are made purposely or from lack of information, that a county judge should make them at all does not augur well for unbiased judgment on public questions for the next four years.

The first misleading statement appears in the headline, "Enforced Minimum Instead of Maximum." It is a fact which the judge should know that the schools of Jackson county now get the minimum in every item of which he makes complaint. The law provides at least \$8 per capita for the county for all children of school age, and in accordance with this provision the county court levied 1.6 mills, which is the very least the law permits.

The article further states: "The people of Jackson county are paying more for school than they are for state and county or municipal government." The county levies in each case 1.9 mills, with an additional 1.1 mill state levy, so it would appear that this is also a misstatement, and we wonder if the judge took into consideration when he made his cry of "excessive expense" and "graft" that for the year 1911-1912, 231 teachers were employed, while there were not more than 35 or 40 county officials. If this is the judge's real attitude toward the people's spending money for the support of their schools, we should not need to be surprised if he should come out some day with a very startling article condemning some of his constituents for spending more of their money for the support of their families than they pay for the support of the county and state governments. Certainly the public schools are second to nothing but the providing shelter and food for one's family.

Again the article says: "We have a superintendent at \$1,800 a year." It can be truthfully said that the county judge receives \$1,800 a year, but we have not seen where he has said his salary is "excessive."

Then it also says: "We have two supervisors at \$120 per month, besides their expenses." This is a misstatement. The supervisors are allowed only their postage, stationery, telephoning, etc., but not traveling expenses. The law provides that their salaries shall not be less than \$100 per month and expenses, and the county educational board fixed the salaries of the supervisors at this minimum, adding \$20 per month for traveling expenses, and the supervisors have traveled mostly on bicycles or on foot in order to keep their traveling expenses within the \$120.

The article again says: "We have the maximum number of supervisors." Again a misstatement, for this county has enough districts to entitle it to three, very nearly four, supervisors, but only two are appointed by the educational board.

The supervisory law was passed entirely in the interest of the rural schools on the grounds that the boy or girl in the country is entitled to just as good school advantages as those in the city. Though Medford accepts only experienced or specially trained teachers, and these have the responsibility of not more than one grade, Medford alone spends more for the supervision of her 45 teachers than is spent for the rural schools of the entire county.

It would be in accord with the judge's logic if he had mentioned that there is a less number of pupils in the country schools, hence they need less supervision.

The number of pupils in the rural schools is actually less at present than it was a number of years ago, and largely because the city and town schools have improved more rapidly and the people who could afford to do so and, in many cases, those who could not, have moved to

the towns so that their children might have the advantage of the more improved school systems.

The supervisory law has been endorsed by the State Grange, State Teachers' Association, and by every body of school officers in the state that has taken a vote on the question, but in the face of these existing conditions our county judge, it seems, would ask the people to support him in such an economic law which stands for progress and added efficiency in the rural schools.

### Annual Convention of Hoboes Postponed.

New York, Jan. 29.—Snowstorms, belated freight trains and southern vagrancy laws combined to postpone the annual convention of hoboes here.

"The police of the south," said Jefferson Davis, a delegate, "have interrupted the itinerary of many delegates."

The hoboes' organization is known as the Casual, Unskilled and Migratory Workers of America. James Eads Howe of St. Louis, called the "millionaire hobo," furnished funds to rent a convention hall.

### SPECIAL NOTICE.

All matter for the Tidings should be directed to the paper, rather than to any person connected therewith. When directed to a person, it is apt to be sent to the home address, thus delaying its insertion.

### Behind the Counter

Proper display is absolutely essential in making sales. Even a good salesman cannot get the results in a dark corner that he can in a well lighted department. People want to see the goods and see them in the light. Don't use an illuminant that gives wrong color values if you want to hold your trade. Custom goes to the store that gains confidence by using the right light—electric light.
