THE BEAUTIFUL

VOL. XXXVIII

ASHLAND, OREGON, THURSDAY, NOVEMBER 13, 1913

NUMBER 49

## ENDERS' STORE BURGLARIZED

CLOTHING AND JEWELRY FOR  
TWO TAKEN.

### SIMPSON HEARS FROM KNIVES

Police at Marshfield Picked Up Two Hoboes Who Had Nearly Thirty of Simpson's Knives in Their Possession.

H. G. Enders & Son were the latest victims of the epidemic of burglary. Their store was entered last night and two overcoats, two suits, silk stockings, stickpins and other jewelry and several velvet neckties were taken. The burglars secured entrance through the rear window, tearing off the screen, breaking the glass and releasing the window fastening. The work appears to have been that of two men who wanted outfits.

Thos. H. Simpson received a telegram Monday night from the chief of police of Marshfield asking him if he had lost any cutlery. He replied in the affirmative and inquired if they had secured any. The chief of Marshfield reported two hoboes arrested there who had in their possession 26 or 27 knives bearing Mr. Simpson's brand. The officers there were notified by Chief Porter to hold the men and the local police sent Constable A. L. Irwin over after them. He left Tuesday evening and is expected tonight or tomorrow with them. It is not known whether or not any of the stolen money was recovered.

### Three Days Only.

I have just received from the famous Scotch Woolen Mills a large consignment of high-grade woolsens in the very newest patterns, regular \$22 to \$30 values. Suits and overcoats tailored to your measure. I will put these on sale for three days only, Saturday, Monday and Tuesday, your choice at only \$18. Remember, only three days. Leave your measure and save a few dollars. My personal guarantee goes with every order. See display window. Orres' Tailoring Shop, 71 North Main.

**P. W. Paulson Revisits Ashland.**  
Paul W. Paulson of Portland arrived on No. 13 yesterday and has been kept busy ever since greeting his many Ashland friends. He reports Mrs. Paulson well and says they are getting to like Portland very much, but that Ashland still looks good to him. He commented upon the beautiful new armory and the handsome improvement of the city hall as especially appealing to him. He will remain here several days.

**"Gophers" Invade Ashland.**  
Mrs. D. H. Hanscom of St. Cloud, Minn., and Miss Alice Abbott of Portland visited at the home of Mrs. James H. Doran last week. Mrs. Hanscom will spend the winter in Ashland, having spent several previous winters here. She left Minnesota clad in snow and was delighted to find roses blooming here.

**American Victim of Wreck.**  
Lelun, France, Nov. 12.—E. A. Magee, an American, was believed today to have been killed in the wreck here a week ago, when 16 persons met death. Seven of the unidentified victims were buried this morning.

**Two weeks' sale.** Twenty per cent reduction on all lines of millinery at Mrs. Simons'. Ask for Blue trading stamps. 48-4t

## Thanksgiving Offerings Asked

The Tidings is in receipt of a circular from the Boys' and Girls' Aid Society of Portland asking that it solicit Thanksgiving contributions of foodstuffs, clothes, etc., and stating that the railroad and express companies would transport stuff properly marked dead head. The Tidings has no doubt that the object is a worthy one and the society reliable, but there is a Sunshine Society in Ashland which can place all donations of this sort with worthy poor in our own city, and charity should begin at home. Nearly every family in Ashland could contribute something to one of these causes and enjoy their Thanksgiving dinner the better for having done so.

## REBUILT CITY HALL WILL LOOK FINE

STRUCTURE APPROACHING COMPLETION AND ITS BEAUTY ATTRACTS ATTENTION AND COMPELS ADMIRATION OF ALL

The new city hall in its appearance is exceeding the expectations of the friends of the project of rebuilding and is even converting many who thought it impossible to make a good looking structure out of the old building. Much credit is due F. H. Fitch, the architect, as well as to the city council for the great improvement. Mr. Lamb, the contractor, is

doing first-class work and making good progress, all things considered. It is uncertain as yet when the recorder's force can occupy their new quarters. The young lady clerks declare their hair is turning gray. Partly with the waiting, they say, but mainly with the mortar dust which has drifted into the office during the operations.

## Is Fighting The Beef Trust

About a year or more ago, when the big packing interests had a strangle hold on the existing butcher shops in Medford, John Dunnington of Jacksonville, who had been supplying the county seat with home-grown meat raised on the ranges of the Applegate and Illinois rivers, opened a shop in Medford. As usual when a man goes athwart the "powers that be," he was given but a short lease of life in the opinion of his competitors. The people of Medford, however, saw fit to patronize him in preference to the other markets and today he has one of the leading markets of Medford. Mr. Dunnington has invaded Ashland and established a market at 86 North Main street. He says but little, but has "Fighting the Beef Trust" in big letters clear across the front window of his market, and that is not all. He is taking the public into his confidence by bulletining his prices in his windows and in the columns of the local press. He will without doubt repeat his Medford success in Ashland.

### McGuire Recants.

New York, Nov. 13.—George McGuire of Syracuse, who denied under oath Thursday he sent a telegram to John Hennessy, former Governor Sulzer's graft investigator, relative to the political contributions, has admitted he was author of the telegram. A threat of a perjury indictment was hanging over him when the admission was made and he left the stand almost in a collapse. McGuire was testifying for the second time in the John Doe inquiry into Hennessy's charges that contractors on state work has been sandbagged into making campaign contributions to Tammany.

### Dr. Cook at It Again.

Washington, Nov. 13.—Dr. Frederick A. Cook arrived here Tuesday to ask a congressional investigation into who got farthest north.

## Many Abstracts Are Being Made

Local attorneys report a decided improvement in real estate transactions as indicated by the examination of abstracts. E. D. Briggs informs the Tidings that he has examined more abstracts to be used in sales and trades during the past month than in the year previous. Mr. Trefren informs the Tidings that practically the same conditions prevail with him. He states that out of seven abstracts examined in his office the past week six were for sales and only one for a loan. A pretty good showing for quiet times.

## Thought It An Abandoned Auto

R. E. Allison says the Tidings was misinformed as to the circumstances of the accident Saturday night. Mr. Allison states that the motorcycles were running without lights and that he saw the reflection of his light on the headlight of Sayles' machine and thought that it was a machine abandoned at the right side of the road and so swerved to the left to avoid it, seeing too late that it was a moving motorcycle. Mrs. Allison says that he did not lose his head, but that the fact that Sayles was running without a light was the cause of the accident.

"Bloody" Sayles is improving from the result of the accident as rapidly as could be expected.

### Peach Tree Grows Ten Feet in Single Season.

A. W. Stone, who owns an orchard on the Jacksonville road, brought into the Medford Commercial Club Saturday a ten-foot shoot of a young peach tree, the entire growth being made this summer. He also brought in giant beets and carrots, weighing ten pounds apiece, grown between rows of young fruit trees—all of them produced without irrigation.

### Grants Pass Hostler Drinks Carbolic Acid.

Grants Pass, Nov. 13.—Hank Brown, an employe of a local livery stable, missing since Sunday morning, was found dead on the roof of the barn Tuesday morning, an empty bottle that had contained carbolic acid lying by his side. As it was plainly a case of suicide, no inquest was held. Despondency over drink was the cause.

### For Sale.

Household furniture, apples, 25 to 50 cents a box, pears, chickens. 242 Granite street. 1t

Whether a man is older or younger than he feels depends on how he has been treating himself.

## Railroad Officials Visit Ashland

General Superintendent Campbell and Division Superintendent Metcalf were in the city yesterday afternoon, coming in from the south on a freight train. Mr. Campbell having his private car Siskiyou and Mr. Metcalf with the Shasta. The gentlemen, piloted by Agent Kramer, spent the afternoon looking over the town and meeting the business men in their places of business.

Fresh sweet Ashland Creamery butter, special this week 70c per roll, at the Ideal Grocery.

## GEO. E. BOOS BOOSTS BIG MEETING

MOVEMENT ON FOOT TO HAVE THE PACIFIC HIGHWAY ASSOCIATION MEET WITH PACIFIC GOOD ROADS ASSOCIATION

Medford, Nov. 13.—"All along the line it's road building talk," says Secretary George E. Boos, who has just returned from Redding, Calif., where he attended a meeting of the officers of the Pacific Coast Good Roads Association. Fifty-two members were enrolled in two days, and the growth of membership in the association is phenomenal. Every member becomes a booster and advocate of good roads.

At this meeting the date of the 1914 convention which is to be held at Medford was discussed, and Secretary Boos will shortly call a meeting to get the sentiment of Medford's wishes as to the date.

A movement is on foot to have the Pacific Highway Association meet also in Medford in the same week selected for the Pacific Coast Good Roads Association. This would bring a large number of people from the three states, from the British border on the north, and the Mexican border on the south.

The success and attendance of this big meeting will shortly be up to Medford, in whose hands it will rest. Mr. Boos has his quarters with the Rogue River Valley Canal Company, corner Main and Bartlett streets, and is devoting all his time and energies to the interest of the Good Roads Association.

### Special Meetings.

There will be a series of special revival meetings at the Christian church, corner Second and B streets, the rest of this week and next week. The service will begin promptly at 7:30 each evening. Mrs. Clara G. Esson, formerly of this city, is to speak tonight concerning the Sunday school work in Oregon. Then Mr. Browning will do the preaching for the meetings each night thereafter. The congregation has pledged the pastor that it will be faithful in attendance. The people of the city are all cordially invited. Mr. Browning's sermons will be educational as well as evangelistic. Here are some of his subjects:

- "The New Testament Church."
- "What Name Shall We Wear?"
- "New Testament Baptism."
- "The Lord's Unanswered Prayer."
- "Seeking the Lost."
- "The Unpardonable Sin."
- "Christ's or Satan's?"
- "What Would Jesus Do?"
- "The Terms of Pardon."
- "The Handwriting on the Wall."

### \$25 REWARD

for the capture of persons who burglarized our store Wednesday night. They took two suits of clothes, two overcoats, half dozen pairs of silk stockings, two or three dozen velvet neckties, several stickpins and other jewelry.

H. G. ENDERS & SON.

## Threaten Arrest of President Sproule

San Francisco, Nov. 13.—Word received here Wednesday from Sacramento stated that John S. Blair, deputy state labor commissioner, contemplated obtaining warrants for the arrest of William Sproule, president of the Southern Pacific railroad, and other officials on charges of violating the state law, which provides that all discharged employes must be paid immediately on their dismissal.

Blair alleged that numerous complaints had reached his office from workmen who said they had been forced to wait for weeks for their checks.

Prices cut below bedrock at Boyd's Studio. Full sized cabinet folders for \$1.95 per dozen. 48-tf

## PASTOR GILLESPIE GIVES SECRET OF LONGEVITY

Preacher Delivers Powerful Sermon in Dreamland Theater—Says the Resurrection Day Is 1,000 Years Long

There was nothing slow about Pastor Gillespie's lecture here yesterday. He held his audience entranced while he carefully opened up the Scriptures on the subject, "Victory O'er the Grave." He appealed only to the Bible for support and his points were well made and clearly and conclusively proven. We give a brief report of his sermon for the benefit of our readers:

### Life on the Ebb.

We have reached the position which we now occupy by means of the many victories we have won along the pathway of our experiences. All mankind has advanced by overcoming difficulties, and each victory prepares the way for the succeeding one. Among our many achievements, however, there is one great and sad thing lacking—we have failed to gain any victory o'er the grave.

Man's greatest enemy is death. Instead of man conquering death, death has been conquering man. Man once had perfect life, and no such thing as death existed. When man disobeyed, he became amenable to the death penalty, and since then death has gradually been gaining the ascendancy. Before the flood the average man lived about 700 years before he became the complete victim of death; immediately after the flood the average fell down to 120 years, whereas now the average length of life is little above 30 years. Even the proverbial "three score and ten" years is already a thing of the past. If something is not done soon, what may we expect for our race in the course of a few centuries? Thank God, the Bible points out a relief, and assures us that it will come before it is too late!

### Our Only Hope.

Like so many tributaries flowing into one great river to swell its volume and ultimately to be merged into the great gulf below, so, century after century, have the lives of men flowed into the one great river of

## ASHLAND'S ICE PLANT

BUSINESS OF ICING CARS STEADILY INCREASING.

### SOME DETAILS OF MANUFACTURE

Local Institution is Sustained Almost Entirely by Railway Traffic Trade—Local Consumption Very Small—Details of Manufacture.

How many Ashland people ever gave a moment's thought to what the Ashland Ice & Storage Company's business means to the city? Seldom is it given a thought except as one who has been accustomed to the cheap ice garnered from the lakes and rivers of the north central states complains of the expense of ice here, and terms the company robbers.

A Tidings representative chanced to drop into the office of the plant a few days ago and C. W. Root, the manager, showed him some idea of how the ice is manufactured and incidentally of the amount turned out and its cost. The ice is manufactured on what is known as the direct expansion system, ammonia being the agent used. As Mr. Root terms it, the ammonia acts as a wheelbarrow; takes a load of heat out from the water or from the cooling room and dumps it outside and comes back for more. The ammonia, expanding in coils surrounding the water vats or coils in the refrigerating rooms, rapidly absorbs the heat from the surrounding water or atmosphere. When condensed by pumps the heat becomes active, the ammonia after being condensed heating the pipes through which it is pumped, instead of cooling them, and having to be run through huge coils of pipe upon which water drips.

The company turns out two grades, or rather styles, of ice, one used for refrigerating purposes and the other for use in drinking water, etc. The theory and belief is widespread that "white ice" is not as pure nor has it as great refrigerating power as clear ice, but such is not the case with manufactured ice. The cause of the

(Continued on Page Eight.)

## EUGENE REGISTER THANKS ASHLAND FOR VOTE

Paper from University City Expresses Appreciation of This City's Splendid Majority for Referendum Measures

That Lane county appreciates the work of Jackson county in the late university referendum campaign is evidenced by a letter received by the Tidings from the Eugene Morning Register. The letter is as follows:

Eugene, Ore., Nov. 11, 1913.  
The Tidings, Ashland, Ore.: Gentlemen—Permit me to express to you

my personal thanks for the splendid support you gave the University of Oregon appropriations at the recent election—a support whose value was evidenced by the splendid vote given the university by Ashland.

Very sincerely,  
FRANK JENKINS,  
Managing Editor.

## First Statewide Welfare Conference

Portland, Nov. 12.—The first statewide welfare conference under the Oregon minimum wage law, called by the industrial welfare commission, closed tonight after a hearing which began October 15.

Recommendations made public tonight concerning women workers are: Minimum wage for experienced women, \$8.25 a week; minimum wage for inexperienced women, \$6 a week. Maximum apprenticeship for beginners before joining experienced class, one year.

A maximum of 54 hours constitute a week for women, 8:30 o'clock at night to be the limit to which women may work in mercantile establishments and laundries.

The commission must give hearings on recommendations before promulgating the rulings.

### School Census.

Secretary Pohland of the school board and F. D. Wagner will start on the canvass of the school census next week. It is very important that none be overlooked in this census, because for every one overlooked the school fund will lose ten dollars. Mr. Wagner will canvass the west side and Mr. Pohland the east side. Citizens should give them every assistance possible in this work.

Apparently General Felix Diaz isn't as brave as he looks.

### Obituary.

Mrs. Elizabeth Peters was born in Tiffin, Ohio, January 10, 1830; she was called to her heavenly home November 9, 1913. Her maiden name was Kroh. October 25, 1855, she was married to Eli N. Peters. Three daughters were born to them, of whom only one is now living, Mrs. Florence Studebaker, who has made her home with her parents the last few years. Besides her granddaughter Bernice, who is now visiting here, she leaves one grandson, Robert Studebaker, of Efland, N. C.

"Grandma" Peters, as she was affectionately known to many, was a beautiful Christian character. Always looking on the bright side of life, she spread cheer and sunshine all about her. She had a kind word for every one, while a smile never seemed absent from her face. She gave herself to her Savior when but a small child, and worked faithfully in the kingdom all of the years of a long life. When she came to Ashland in 1907 she united with the Presbyterian church and was a constant attendant at its services up until within the last few weeks. At the last she suffered no pain. She gradually grew weaker, and with a smile on her face fell asleep and awoke in glory.

The funeral services were conducted on Tuesday at 2 p. m. by her pastor, the Rev. H. T. Chisholm. Interment in Mountain View Cemetery.

"O love that will not let me go,  
I rest my weary soul in Thee;  
I give Thee back the life I owe,  
That in Thine ocean depths its flow  
May richer, fuller be."

## Rev. J. A. Slover Dead at Berkeley

Rev. J. A. Slover, formerly a resident of Ashland, died at the home of his daughter, Mrs. A. F. Eddy, in Berkeley, Calif., this morning at the advanced age of over 89 years. The remains will be brought to Ashland and laid beside those of his wife in Ashland Cemetery. The funeral party is expected here Saturday morning at 7:40 and the funeral services will be held at the Baptist church in this city Saturday afternoon at 3 o'clock.

Mr. Slover came to this section in 1881 and left Ashland twelve or thirteen years ago. He leaves four children, two sons residing in Grants Pass, one daughter in Berkeley and one in Spokane.

### A Splendid Bargain.

Exchange—New and second hand store. Address P. O. Box 22 or phone 171. 1t
