

# SAVE

Every man, woman and child ought to save—it safeguards your future, secures independence and paves the way to success.

The person who cannot, does not and WILL NOT save money, cannot and will not do anything else worth while.

We pay four per cent interest on Savings Accounts and four per cent on Time Deposits.

\$1.00 will start a Savings Account here. Today is the day to begin to save and right here, with us, is the safe place to put your savings.

## A. J. BIEGEL

Hardware—Paints—Plumbing  
Phone 90. 297 E. Main St.

**All Growing Children are dependent on nourishment for growth. Their health as men and women is largely established in childhood.**

If your child is languid, bloodless, tired when rising, without ambition or rosy cheeks, Scott's Emulsion is a wonderful help. It possesses nature's grandest body-building fats so delicately predigested that the blood absorbs its strength and carries it to every organ and tissue and fibre.

First it increases their appetite, then it adds flesh—strengthens the bones—makes them sturdy, active and healthy.

No alcohol or narcotic in Scott's Emulsion, just purity and strength.

## Automobilists, Attention!

Try Ed Gowland's Garage and Repair Shop for auto supplies and first-class repairing. Axles and shafts made of 3-point nickel steel. Cones and ball races made on short notice. You can get good service here at reasonable prices. Special rates on winter repairing and overhauling. Location just off Main street, below Oregon Hotel, 135 First avenue.

**A 75-gallon gasoline tank for sale.**

## JOHN DUNNINGTON

## PLAIN FACTS Pertaining to Health

Chiropractic (pronounced "ki-ro-prak-tik") is no longer the coming thing—it's here: efficient, safe and accurate as mathematics. It is not an experiment, but is based upon demonstrated facts. It is a scientific method of adjusting or replacing any displacement of the skeletal frame, whether it be osseous or soft tissue, into proper relation, thus removing all abnormal pressure from the nerves and nerve trunks, which is the primary cause of all functional abnormality (or so-called disease), no matter what the name may be, as it has been firmly and thoroughly established—not theoretically, but positively proven to be a fact—that disease is caused from displaced vertebrae.

Everyone knows that the spinal cord is delicately enclosed in the neural canal of the vertebral column, and the vertebrae are often displaced by a shock, sprain or poison, causing abnormal contraction of the muscles and ligaments which bind the vertebrae together, thus putting abnormal pressure upon the nerves or nerve trunks, shutting off the life current or nerve stimulus which supplies vitality, sensation and motion to the entire body. Hence comes Disease.

The Chiropractor scientifically adjusts these displaced vertebrae into proper relation, permitting the stimulus or life current to flow freely through all parts of the body and normal function is restored, which means Health.

The spinous processes of the vertebral column are the Chiropractor's guide-posts, a true index as to the position and articulation of the vertebrae, and knowing the ramification of the nerves he can tell the nature of the abnormality, whether it be Dyspepsia, Rheumatism, Smallpox, Asthma, Female Trouble, Infantile Paralysis or what not, because to the Chiropractor there is but ONE DISEASE, whether the affliction be in the big toe, stomach or head, as the nerve stimulus governs every function of the body.

The brain, spinal cord and nerves that supply the human machine with vitality, sensation and motion may be likened into the dynamo and its distributing system which conveys the electricity furnishing heat, light and power to all parts of a city, and in case the wires conveying the current to your house become grounded or short circuited, you will have a complaint, but not a disease, and no matter how much oil or power the electrician applies to the machine your trouble remains the same, but as soon as he traces out the CAUSE and makes the proper adjustment your trouble is at an end.

It gives pleasure to the Chiropractor in that he is the instrument in the hands of the Great Creator to assist nature in restoring normal conditions in the body and mind of men.

We have no apology.

We are here to do good by word or deed, and extend a friendly hand to all that are disposed.

We are honest people in an honest cause, but realize there are others. We are here to attend to our own business and lend a helping hand in time of need to those who are sick and unadvised of the laws pertaining to Health. Our specialty is chronic cases. We are here to stay, and a cordial invitation is extended to all who wish any further information to call. We are at your service.
