ALICE F. TALCOTT.

The Food Value of Flour.

flour, as I said, and the right pro-

portion depends on the miller and

his chemists. This gluten goes to

build muscle and nerve, and it is sur-

prising that Americans do not real-

ize the food value of flour-of which

one cent's worth will furnish more

energy to the body than ten cents'

worth of the finest beef. This is not

a guess, by any means; theinstru-

ment called the salorimeter, or heat

meter, which is one of the most ac-

curate and delicate of scientific de-

vices, tells the comparative heat

rapid digestion and absorption by

flour is the best in the world, why

Bread will give you more nourish-

much energy as will the same amount

of the cheaper and nutritious white

flour and less of the expensive food-

you to find out what kind of bread

you are getting, and to get only good

bread, as it is for you to take any-

thing the grocer hands out. And

why more than anything else it is the

plain, simple duty of the mother of

today to know what she is putting

You ought to bake your own

bread-your mother did it and you

wife. The flour is better, and the

process of bread-making is better un-

derstood, and your home appliances

are inestimably finer; don't you think

you might try it, for your own and

your children's sakes, if for nothing
