1914

Will be a good year, but you must make it so.

It is hardly reasonable to predict that the coming year will be the best one you have known unless you are willing to make it so.

"Success" is strictly a home product. The market has never been glutted—the price is "HARD WORK AND CLOSE ATTENTION TO BUSINESS." The price remains always the same.

Pay the price this coming year. Have a bank account and save your money, and you will count 1914 a Big Year in your history.
