

# SAVE FOR SUCCESS

The difference between the rich man and the poor man is generally that one saved and the other did not. No matter how much you earn, you will never be wealthy or independent if you spend it all. Spare time and spare money are the poor man's capital. Success in life depends on the returns from that capital.

If you would win advancement and prosperity, invest your spare money in a bank that pays a liberal rate of interest on Savings Deposits. Then your capital will become a source of power and prosperity.
