

Domo Separator

Since the duty was taken off imported goods, I am able to sell the Domo Separator at a very low price. They are made in Stockholm out of the best Swedish bessemer steel, pressed disks, no seams, easy running and won't wear out. Sweden is known all over the world for its iron and of which the Domo Separator is made. I also sell the Empire and have them in stock.

I will sell Buggies again this year for \$39.90 and up.

Also the well-known Bain and Studebaker Wagons that need no other mention as they have been in use for 60 years.

When you buy from us you can always get the extras.

The friends of Ed W. Barron are trying to induce him to stand as a candidate for county commissioner to take the place of Commissioner Smith. Others have been urging Mr. George Owen to enter the race. Either of these gentlemen would make strong candidates and splendid commissioners if elected. As this end of the county now has no representative on the board, no doubt this place would be conceded to a candidate from this neighborhood without opposition.

American Lady Corsets

BACK LACE

The latest edict from Paris declares low busts, long hips, straight backs, unconfined waists—in a word, the charmingly free, supple lines of the natural figure. Modish corsets must conform with these emphatic demands of fashion and produce liteness and willowy grace. American Lady Corsets are such corsets, affording not only modish grace and ease, but comfort.

BATHING A PRINCE.

Thomas Smoaker "Seen His Duty and He Done It." George IV. while prince and residing in his Brighton palace kept in his bedroom a portrait of Mrs. Gunn, an old bathing woman who used to dip him into the sea when he was the little Prince of Wales. A picture book much prized by children in England in those days showed the old lady bathing the little fellow. Beneath the picture was this stanza:

To Brighton came he,
Came George the Third's son,
To be dipped in the sea
By the famed Martha Gunn.

A companion portrait to Martha Gunn's was that of Thomas Smoaker, who had charge of the horse which drew the bathing machines into and out of the sea. One day the little royal highness, having learned to swim, swam out farther than Thomas judged to be safe. He called to him to come back, but the self-willed boy struck out with more vigor. Thomas went after the prince, overtook him, seized him by an ear and drew him to shore. "Do you think," he replied to the boy's angry words, "I'm a-going to get myself hanged for letting the king's heir drown himself just to please a youngster like you?"—Pearson's.

The First Reporter.
The modern reporter harks back to the reign of Queen Anne and to the unknown scribe who attempted to tell the public the secrets of her parliament. He had a hard time of it, for parliament wished to keep its secrets to itself. In 1728 an order was passed "that it is an indignity to and a breach of the privilege of the house for any person to presume to give in written or printed newspapers any account or minute of the debates or proceedings; that upon discovery of the authors, printers or publishers of any such newspapers this house will proceed against the offenders with the utmost severity." During the famous Wilkes case in 1772 the reporters won the victory which they have since held without dispute.—New York American.

President Wilson's habit of delivering his messages in person deprives the congressmen of a convenient interval to go out and get a neck shave.

It is gratifying to learn that no more changes in income tax regulations will be made until after next Sunday.
