With a good oil cook stove there's no delay or bother—no lugging of wood, coal or ashes. There's no smoke—no waiting for the fire to "catch up". Cooking starts at once and when you're through you simply turn off the heat—no fuel wasted. The

New Perfection OIL COOK STOVE

is not just a "quick lunch", light housekeeping affair. It is a complete all 'round stove that you can bake, broil and roast on just as well as on a wood or coal range—and a lot cheaper. Best of all—it doesn't overheat the kitchen. An ideal summer stove. Doesn't smoke. Doesn't taint the food. Dealers everywhere.

HOW CHILDREN GROW

Children grow by nourishment—not overloaded stomachs or rich foods but qualities that are readily converted into life-sustaining blood; too often their digestive powers cannot procure these qualities from ordinary foods which results in weakness, dullness and sickness.

If your children are under-size, underweight, catch cold easily, are languid, backward, pale or frail, give them Scott's Emulsion which is pure medicinal nourishment. It sharpens the appetite, builds healthy flesh, firm muscles and active brains. Scott's is growing-fool for children. Refuse alcoholic substitutes.

A Good Advertiser Can Sell Good Property—Any Time, Anywhere

He must keep his ad at work. It must be THERE when the possible buyer looks—and he might not look more than one day out of ten. Of course, he might see and investigate it on its first publication, or, perhaps, the fifth or sixth time it appears. The good advertiser knows that, however persistent a campaign may be required, the cost will be an easily forgettable thing when the sale is made!
