Chicago, Aug. 10 .- Wheat prices averaged an advance of about 21/4 cents a bushel Saturday on the report that Canada was about to remove the duty against American wheat. The same news caused a drop of about 4 cents in the Winnipeg market. The Canadian wheat crop is extremely short this season and such heavy withdrawals have been made by Europe that it was feared that a famine would result.

## Peaches are Ripening Slowly

Local orchardists report that the peach crop, especially on the unirrigated trees, is ripening much slower than last year. They also report the crop as standing up well and good prices are offered. One man has contracted practically his entire crop at 65 cents per box in the orchard.

James Hackett, a laborer in Mc-Sweney's Pacific Highway camp on the Siskiyous, was found dead in his bunk this morning. He went to bed as usual in a bunk house with about twenty other men last night. #### MAKING AN EPIGRAM.

The Prize Winner Was Evidently a Married Man's Effusion.

The head epigrammatist of the great wit and humor factory bent over his work bench and rested his gaze upon an epigram that had been used and used until it was cracked and frazzled. "It's a shame to throw it away," he

said, "for I believe it can still be turned about so that it will have a commercial value. I know what I will do. I will offer a prize to the workman who brings in the best new twist."

So when the workmen were gathered in the room he told them that he wanted them to beat out a new and clever turn upon the old motto "A bird in the hand is worth two in the bush." He gave them just one hour at their anvils, with a monetary prize for the best effort and honorable mention for the others. When the time was up this assortment was handed in:

"A chauffeur in the front seat is worth two under the motorcar." "A kiss in the dark is worth two un-

worth two in the eye." "A gift from a husband after marriage is worth two from a lover be-

He paid the price of his folly. A spark fell into the gunpowder, and the place was blown up.

The trouble was that the man who did the mischief was not the only one diers that they tore up the frontier to perish. Fifty houses were wrecked, and the number of people who were killed was not known.

In one house among the fifty a mother had put her baby into its cradle to sleep before the explosion occurred. What became of the mother no one ever knew, but what became of the baby was very widely known. The next morning there was found upon the leads of the Church of Allhallows a young child in a cradle, baby and cradle being entirely uninjured by the explosion that had lifted both to such a giddy height.

It was never learned who the child was, but she was adopted by a gentleman of the parish and grew to womanhood. She must surely all her life have had a peculiar interest in that church.-Sir Walter Besant's "Lon-

### The City and the Child.

New York city-the length and breadth of Manhattan-and Boston, from the Fenway in three directions to the water front, are as unfit for a child to grow up in as the basement of a china store for a calf. There might be hay enough on such a floor for a calf, as there is doubtless air enough on a New York city street for a child. It is not the lack of things-not even air-in a city that renders life next to impossible there. It is rather the multitude of things. City life is a three ringed circus, with a continuous performance and interminable sideshows and peanuts and pink lemonade. It is jarred and jostled and trampled and crowded and hurried, and it is overstimulated, spindling and premature.-Suburban Life.

"A dollar and ninety cents." "And how much money did he hand you?"

"A two dollar bill." "It's easy. Have it in two nickels when you return his change."-Chicago Herald.

#### BATHING IN JAPAN.

Natives Wash Themselves Clean Before Getting Into the Tub.

Partial accounts of the luxury of a Japanese bath lead us to believe that we have something yet to learn about what is regarded by many in this country as a necessity and by more as a supererogation-in Japan the bath is not only a necessity, but a delightful recreation.

The Japanese have a way of their own of taking a bath. They have a system that in some respects resembles that enforced at swimming pools in this country. You must first wash the body thoroughly, and then you enter the tub, the water of which is heated by an individual system. There, if you are in a public bathhouse, you may smoke and doze and chat with your friends in a dissipation that is said to be exceedingly refreshing. The water is kept hot, perhaps increases in heat, and when you leave the tub it is still regarded as fit for the next customer. In a private house the master and mistress may have their baths first, and the same water serves for the invigoration and diversion of the serv ants. The ignorant foreigner, who goes into the Japanese tub for the purpose of cleansing his body and with soap spoils the water for further use, is not only guilty of a social error, but cluding the servants.-Rochester Democrat.

An old woman was being cross ex amined by him as to how the testator had looked when he made a remark to her about some relatives.

"Do you mean to tell me that your memory is so bad that you cannot go back three years?" demanded the at-
