Dr. Austin will give his best lecture Tuesday evening, August 25. Don't miss it. 1t

Lloyd Muilt arrived in Ashland Saturday for a short stay.

Mrs. J. T. Logan and daughter Bessie, who have been in Grants Pass since last Wednesday, returned Saturday.

Made in Ashland, suits for men and women. Our styles are the latest, at Orres' shop.

Buy your school shoes at Enders'.

E. D. Briggs, D. D. Olds and Engineer Walker returned from Hilt Saturday morning. While walking along the highway near Hilt, E. D. Briggs killed a six-button rattlesnake which was making across the road. Another little experience they had while knocking around through the woods was to extricate a three-year-old cow from an old well. The animal had fallen so that she was standing on her hind feet in the well. Her bellowing and bawling attracted them to the spot.

French dry and steam cleaning, also dyeing. All work guaranteed at Orres' shop, phone 64.

New men's fall hats at Enders'.

Notice. The regular meeting of the W. C. T. U. will be held next Tuesday, the 25th, in the grove. Subjects pertaining to the campaign will be discussed. All ladies wishing to vote will be thoroughly instructed.

Phone news items to the Tidings.

Rifle Team Goes to Clackamas Range

The rifle team of the first company, C. A. R., of Ashland left this morning for Clackamas for the annual competitive match held between the various military organizations of the state.

The rifle range at Clackamas is one of the best equipped in the west and September 3 will be held the western divisional match between picked teams from Oregon, Washington, Idaho, Montana, Wyoming, Utah, Nevada, California, Hawaii and the regular army and navy. The twelve men making the highest scores at the state shoot will be selected to represent Oregon in the western divisional shoot.

The Ashland company is at a disadvantage in not having a rifle range near enough to town to be of much use. The range at present is along the top of the hill above the Square Deal Orchards Company on Grizzly Peak.

The Ashland team is unusually strong, as all of the boys have been on it at least two years. They expect to bring home the bacon. The team is as follows: Sergeant J. Q. Adams, Edmund Hadfield, Charles Crouch, with G. L. Irwin and Fred King as alternates.

Hair Goods.

Before buying hair goods call and see the Wallcott sisters. We match the most difficult shades. Combs made to order. We root the hair and do first-class work only. Old switches dyed and made over. Located at Mrs. Porter's millinery store. Telephone 264-R. 26-2t

Every pair of shoes bought of Briggs & Shinn carries with it their personal guarantee.

Lithia Water

Fresh from Ashland's New Lithia Spring

COLD AND REFRESHING

Always on tap at Grieve's Soda Fountain.

Try two glasses each day for that Kidney or Stomach Trouble.

The Results Will Surprise You.

Chairman Greer Back From Frisco

Chairman Greer of the springs water commission returned from San Francisco Sunday morning, where he had been for the past week looking after springs matters. The state of the bond market is such, occasioned by the European war, that no bonds are being handled anywhere. The feeling in San Francisco seems to be that within a few weeks finances will loosen up so that bonds may be handled. The Southern Pacific Company is taking a lively interest in the Ashland project and is offering its assistance to the commission in trying to dispose of the bonds. The commission has out several lines, any of which may result in a sale of the bonds in the near future, although at this time no definite plans have been arranged.

Two Tons of Mail By Parcel Post

Two tons of mail in two days is the latest record-breaker of the local postoffice. In one day last week seventy peach boxes were shipped and seventy-six followed the next day. The mail had to be carted to the depot in the truck. This shows to what extent the fruit growers of the valley are using the parcel post as a cheap and convenient method of transporting their fruit. The parcel post has been working out much better than was expected by some skeptical persons, the rates having been continually lowered since its establishment.

Boys' odd and end oxfords, all sizes, for \$1 per pair. Briggs & Shinn.

The tastes of a millionaire may be imprisoned in a pauper's purse.

Oregon's Mineral Output Increasing

The United States Geological Survey at Washington has finished compiling the figures regarding Oregon's yield of gold, silver, copper and lead during 1913, and the statement shows an increase of more than 100 per cent over the product of the previous year. The total yield was valued at \$1,746,402 in 1913, as compared with \$849,886 in 1912. Gold, silver and lead showed a marked increase, and copper an extraordinary falling off, the 1913 production of the latter metal being only 43,330 pounds as compared with 260,429 pounds the previous year.

In the production of gold Baker county led the procession with \$1,373,480. Malheur county was second with \$82,041 and Grant county third with \$63,652. The gold output in these three counties in 1913 showed an increase of \$972,706. Josephine county led the state in the production of copper with 32,558 pounds, about 80 per cent of the total yield. Lane county produced the most lead, 59,204 pounds. There were fewer mines in operation in Oregon in 1913 than in the previous year, but the tonnage from the deep mines was materially enlarged, while the placer mines, including one new dredge property, made a record year.

Speakers at Mission For This Week

Tuesday evening at 7:30, J. A. Lemery; Wednesday evening at 7:30, Brother Otto; Thursday evening at 7:30, Evangelist Fennell; Friday evening at 7:30, Dr. Carnahan; Saturday evening at 7:30, Miss Hathaway (special music); Sunday school at 10 a. m.; Sunday morning at 11, not yet announced; Sunday evening at 7:30, Rev. Ogg of India.

Any that are sick and afflicted and wish the prayers of the Christian people are invited to attend the meetings on Wednesday and Friday of each week.

Those who have second-hand clothing and other articles that they are willing to donate to the poor are asked to notify Mrs. J. A. Lemery, H. Haas or Samuel F. Starr. You are invited to attend these services. COMMITTEE.

Two Arrested For Hunting

Andrea Bianchini and Tony Marcin were brought before Justice of the Peace Thomas today and fined \$25 and costs, as punishment for a violation of the game laws of Oregon. They had been hunting near Ayeda Spur, where they are at work on the railroad in company with about fifty other of their fellows. Game Warden Hubbard located them and brought them in. The other men also had been hunting and two guns and a revolver were taken from them. No one laid claim to these for fear of giving themselves away. The two who were brought up, however, had the goods on them. A sack partially filled with robins constituted their catch. A twenty-two special was taken from one. Both had the money with which to pay their fine and were glad to get off so easy.

Electrocuted While Fighting Fire

Charles Brown, engineer at the Medford Ice and Storage Company, was electrocuted Sunday evening about 6 o'clock while fighting a fire in a barn across the railroad track from the ice plant.

The employees of the ice plant had stretched the company hose across the railroad track in order to fight the fire and were gaining headway when a wire of the Oregon Power Company carrying 2200 volts dropped directly over Mr. Brown. He grasped the live wire and it was several minutes before he could be released. His second finger was burned entirely off, while the forearm was burned above the elbow. Death was instantaneous. The deceased leaves a wife and child.

If it's easier to preach than to practice, it must be easier to be a clergyman than a physician.

A man who can dispose of his troubles for a consideration is a genius.

FOR RENT

One of the finest houses in the city. Two blocks from Boulevard. CUNNINGHAM & CO.

ONE WEEK AGO MR. DIVET'S HOME WAS IN RUINS

Work has already commenced on his new dwelling. He carried GOOD INSURANCE and his loss was PROMPTLY PAID IN FULL. Before a fire one policy looks as good as another; after the fire there is sometimes a difference.

The policy of \$500 carried by us in the ST. PAUL FIRE AND MARINE INSURANCE CO. on our dwelling recently destroyed by fire has been paid in full. We cannot speak too highly of the prompt action of the company and the courteous treatment received from the adjuster and from Mr. Billings, the local agent.

Dated August 21, 1914. J. C. DIVET, MAY DIVET.

GREAT BATTLE NOW RAGING War Aids California Mineral Springs

(Continued from Page One.)

glum and along the frontier of France. The battle has been raging since Friday last, becoming more and more terrific Saturday and Sunday, while the dispatches which are filtering in today indicate fighting is growing fiercer with every hour. Reserves are coming in great numbers and it is estimated probably between two and three million soldiers are now facing each other, with the German forces in the majority.

All the news comes through the allies, Germany being entirely silent, and for this reason alone more credence is given the German arms than is stated in the dispatches.

During the past three weeks it has been seen the allies are very slow in giving information against their arms, while the defeats of the Germans appear to find no censorship. For this reason it is believed here the German arms are not given full credit by the allies' censorship.

Japan Enters War With Kaiser

Tokio, Aug. 24.—Having declared war against Germany on Sunday, it is stated Japan, before beginning actual military and naval operations against the Germans at Kiao Chau, will send a note to the governor, advising him to surrender and avoid unnecessary bloodshed. The appointment announced Vice Admirals Kato and Sadakishi and Rear Admiral Tschulja as commanders respectively of the Japanese first, second and third naval squadrons.

Washington, Aug. 24.—President Wilson admitted Japan had failed to define intentions beyond the announcement she planned to take Kiao Chau from Germany. He also admitted Japan had not assured the United States the conflict would be localized to the province of Kiao Chau.

Pekin, Aug. 24.—Germany has strongly protested against China, it is learned, charging that the latter aided Japan in the violation of neutrality. China replied that the Germans' warlike naval operations in the Orient were calculated to violate the principles of the Kiao Chau convention of 1908.

Victor Flint, who resides near the Bellevue school, gave a little dance at his home Friday evening. Many of his friends were present and report a very pleasant time.

San Francisco Chronicle: The war will undoubtedly be a great boon for California mineral waters, because of the shutting down of shipments of water from the springs of Europe.

California last year produced from 49 springs and sold 2,801,393 gallons of mineral water, valued at \$531,925. With the exception of New York and Wisconsin, this state has the largest number of commercial springs in the country.

There is a large quantity of foreign waters imported into this country, reaching 3,364,675 gallons in 1913, valued at \$955,788. More than 1,000,000 gallons each was imported from France and Germany in 1913 and nearly 400,000 gallons from Austria-Hungary. This supply will now be cut off to the benefit of the California mineral and medicinal waters.

Better school shoes at Enders'.
