

Fewer Spendthrifts

There would be fewer spendthrifts if all young people were taught to watch where their money goes.

The bank account is a great help in forming habits of thrift and gives an insight into modern business methods.

Every young man should have a bank account and we want the bank account of every young man in this community.

Gala Event At Normal Friday

The topic of conversation nowadays is the big normal enthusiasm gathering next Friday, when all of Ashland's citizens are to come together for an afternoon of genuine good time. Everybody is requested to be present. And think! Admission to the grounds is to be absolutely FREE.

At a meeting of the chairmen of the different committees Thursday night it was decided by the ways and means committee to make the admission absolutely free. Money must be raised, however, that is, as small sums, to pay expenses, so it was decided to sell tickets to and from the grounds at 10 cents each way per ride. This will make the cost of getting to and from only 20 cents per person.

Professor Briscoe, chairman of the entertainment committee, has secured Ray Murphey to repeat the wonderful Roman ride which he performed before the admiring eyes of Ashlanders several years ago. This alone will be worth the price of riding to and from. Then there will be calisthenic games, races and everything for the amusement of the people that are going to attend.

The transportation committee has procured a great many autos for the occasion, so there will be room for everyone. Ames' big truck and Ed Staples' big twelve-passenger will also be asked to run on this occasion. Under the management of the ways and means committee the tickets for the rides will be sold from box booths along the street; stations to be in front of the Vining Theatre. All auto owners will please be on hand at 2 o'clock, by order of Nininger.

A wagonload of watermelons and muskmelons have been secured, so refreshment can be given to the enormous crowds that will gather. Big signs will be painted upon the city streets today as advertising. W. O. Dickerson has kindly donated the material necessary for the signs. The Ladies' Civic Improvement Club generously gave the funds with which to have the window cards printed, and many others have been ready to help. All merchants are asked to decorate for the normal picnic in conjunction with the big Shriner gathering. It would be especially fine if the residents along the Boulevard and any other part of the city could hang flags, etc., out as all Shriners will be taken out past the normal grounds.

All the ladies' clubs meeting on that day have called off their meetings until a future date. This is going to be something worth while, something that will pay everyone to come out of his shell and take a look at the world on this occasion, if on no other. It will be a day of laughing, meeting and greeting, besides a day of enthusiasm for the re-establishment of our normal school. Stores will all close from 1:30 till 6.

The Trinity girls will give a play, "The Texas Steer," under the direction of Mr. Purdin, in about a month or six weeks. Practice will start this week at the parish house, but the final event will take place in the Vining Theatre.

Grants Pass to Buy Water System

A proposal from the Rogue River Water Company, involving the purchase by the city of the water system by which the municipality is served, was presented to the common council at its meeting last night by Mayor McKinstry, says the Grants Pass Courier. The mayor explained that the attempt made by a previous administration to reduce the water rates charged by the company had resulted in the application of the company to the state commission for an increase of rates, and that it seemed likely that the increase asked would be allowed. To forestall this increase, the mayor proposed the purchase of the plant, and had taken the question up with the water company. The company had set a price of \$125,000 upon the system, agreeing to take in payment the bonds of the city at 5 1/2 per cent interest. Mayor McKinstry submitted a statement showing how through municipal ownership of its plant the city would profit financially and receive much better service than it is now receiving. An ordinance providing for the calling of a special bonding election for the purchase of the plant had been prepared, but the point was raised that the issue of \$125,000 bonds for the purchase would run the city bonds over the \$400,000 limit provided by charter. For this reason no action was taken by the council, and the proposal will have to await some solution in this regard before it can be put to vote of the people. The figures presented by the mayor showed that the company claimed to be operating at the present time at a gross deficit of \$1,705.35 per annum, and that a radical increase of rates might be expected under private ownership, while no increase would be necessary under municipal ownership. He suggested that the citizens might expect an increase of from 50 to 75 cents per service unless the city could find some way to purchase the plant.

J. H. Hardy Might Return.

In answer to the telegram sent by the Commercial Club through Secretary Seager in regard to his taking charge of the Polytechnic again, J. H. Hardy expresses himself as being very anxious to do so, and feels that he can put the school on a paying basis, but is withheld at present by his business interests in Washington. An extract from his letter is as follows: "As regards coming back, it seems now all but impossible, and while I shall make every effort to do so, it can only be on the event of our selling our interests here. We are making every effort to do this, and if we should be successful I will report to Ashland as soon as possible."

Ware Speaks to School Assembly

Councilman Ware spoke to the assembly last Wednesday morning. His talk was very interesting as well as instructive. His topic was the great war of nations now raging in Europe. He contrasted the amount of men involved in the war at Napoleon's time and at the battle of Waterloo, with the tremendous amount of men now engaged in the struggle. He brought out the urgent necessity for the universal disarmament of all nations. The students greatly enjoyed the talk.

Heavy Rainfall Thursday Night

A very heavy rain fell in Ashland Thursday night. During the evening a stiff wind was blowing, but a clear sky prevailed, but toward midnight the rain fell in torrents. On account of the driving wind the storm resembled those of the middle west. Forty-one hundredths of an inch fell in the short time of rain, an unusually large amount.

Much Stock is Being Shipped

R. L. Burdick left Saturday with two carloads of hogs for Willows, Cal. The lot were procured near Eagle Point. All are fine looking and will bring the top notch of price. Brown, the local meat man, shipped eight carloads of sheep to Portland last week.

Senior Officers Have Been Chosen

The senior officers for the coming year are as follows: President, LeRoy Ashcraft; vice-president, Bill Holmes; secretary, Robert Spencer; treasurer, Harold Simpson. This is much the same group of officers that headed the junior class of last year. The senior class is making some big plans for the year.

From the Medford Sun we learn that in Medford James Vance was elected president, Vera Merriman vice-president, and Griffith Cowgill treasurer. The newly elected officers were called upon to make a speech. Each responded and the next half hour was filled with words of praise for the other classes and the faculty. It was decided that a number of entertainments would be given this year and that the senior class would organize a basketball team.

If our senior class could organize a basketball team, some fine games between Medford and Ashland seniors could be arranged.

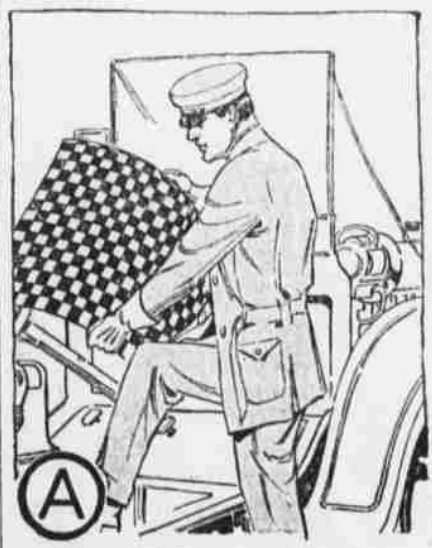

Housewife's Burden To Be Removed

The burden of the housewife during the winter season is mud and dirt carried into the house by the children and grownups. A well-located door mat will prevent the greater part of this worry and trial and aching bones in sweeping. J. P. Dodge & Sons have a splendid line of fibre mats in sizes from 14x24 to 24x36, ranging in price from 75 cents to \$2. (Paid Adv.)
