

### Fewer Spendthrifts

There would be fewer spendthrifts if all young people were taught to watch where their money goes.

The bank account is a great help in forming habits of thrift and gives an insight into modern business methods.

Every young man should have a bank account and we want the bank account of every young man in this community.

Peter Spencer narrowly escaped losing his life in a runaway Saturday night, as he was returning to Gold Hill from Sams Valley. The accident was no fault of the driver, being due to the breaking of one of the bolts which held the tongue to the buggy, permitting the latter to turn turtle, throwing the unfortunate pedagogue underneath, where he was dragged nearly a rod by the frightened team.

### 111 Bushels Corn To Acre

Claus Charley, aged 16, of Butte creek school, who has been in the industrial contest for Oregon boys and girls with corn growing as his project, has produced a grade of corn that is certainly surprising, according to the Medford Mail Tribune. From the one-eighth acre he has harvested, weighed and proved a production of corn at the rate of 111 bushels per acre. His corn is mature and dry and the ten ears exhibited have won several first prizes, including first at the county fair. This boy's corn with his excellent report to the college will give him a very high place in the state contest. Where is the boy who has raised more than 111 bushels per acre in Oregon? The work required to produce such results is considerable for a boy of 16 or even for a man. The corn will probably take Claus Charley to the state fair.

The Tidings is on sale at Poley's drug store, 17 East Main street.

### Shriner Ladies To Be Entertained

The Vining has an especially attractive bill for tonight and tomorrow evening, arranged specially for the entertainment of the Shriners and their ladies. "The Quack Dentist" is one of the greatest screams produced on the Pacific coast for years. Mr. Vining at first hesitated about securing this expensive hit, but was induced to put it on for the benefit of the visitors. The bill includes several vaudeville acts with a regular run of photoplays, and the house should be crowded for the two evenings.

### Tempting Linens.

When I saw the beautiful, all-linen lunch cloths with napkins to match, and the table covers of various patterns but only one quality, and that the best, at the Ashland Trading Company's store yesterday, I was reminded of a woman I once knew, who could not pass fine linen without buying some article, when she had no personal use for the same.

On nearby counters I saw imported cloakings of Scotch and English weave, that will soon be unobtainable. Also domestic goods of the same quality in beautiful weaves and colors.

I believe we Americans are prone to underestimate the quality of our home products, and believe one of the effects of this awful war will be to awaken us to a consciousness of our own worth.

### New Gossards Arrive

### Corset Style EXHIBITION

In conjunction with "The Fourth Semi-Annual Gossard Proclamation of Authoritative Corset Styles," we are having an exhibition of new corset models, depicting the proper style in corsets for fall and winter wear this season. These handsome new models have never been displayed before. You are invited to inspect them in our show windows and corset department. All fall styles in dresses will be based upon the new corset lines, and you should select your corset before purchasing a new frock or suit.

Gossard Front Lacing Corsets set the styles in corsets throughout the entire civilized world. For the next six months all correct corsets and all fashionable gowns will follow the lines of the new Gossard models.

We have a Gossard to fit every figure correctly and comfortably, and a value to fit every purse. Priced from \$2.00 to \$25.00, depending upon the material. Every one with the correct Gossard fit and style. We invite your inspection of these beautiful new styles this week.
