In all they have traveled more than 300,000 miles, equal to twelve times around the world. They have given more than 2,000 concerts. There is scarcely a large course in the United States that has not had this company at one time or another. Seventy-five per cent of their dates are return dates.

evening's program. As an instrumental trio their work is greatly appreciated. In this work they use the piano, flute and cello, and the music which they render is entirely new. In fact, for the most part it is in manuscript form, prepared especially for them.

Carrying 200 bells, the Dunbars give a demonstration of bell ringing the like of which has never before been heard here. They carry a duplicate set of bells for their practice work. They have perfected several improvements in bell construction.

Suit Sale

STILL LOWER PRICES

Various conditions this season have contributed to our being left with an overstock of ladies suits. Our clean stock policy in this line is well known and it is our greatest asset in garment selling to know that very rarely a garment can be found in our stock that is out of style.

This season unusual conditions have forced early reductions in suits and we will be satisfied if early profits barely cover losses we are forced to take now.

Reductions now of one-third or more from regular prices.

Table Linen Sale

Double value stamps or rebate coupons. No reductions in prices, but our present prices are less than these goods are worth now in the face of a rising market in linens.
