Freckles

February and March Bring Out Un- sightly Spots. How to Remove Easily.

The woman with tender skin dreads February and March because they are likely to cover her face with ugly freckles. No matter how thick her veil, the sun and winds have a strong tendency to make her freckle.

Fortunately for her peace of mind the recent discovery of a new prescription, othine—double strength, makes it possible for even those most susceptible to freckles to keep their skin clear and white. No matter how stubborn a case of freckles you have, the double strength othine should remove them.

Get an ounce from your druggist and banish the freckles. Money back if it fails.

J. B. Hunter has been hauling wire fencing lately, preparatory to enclosing his orchard with a hog-tight fence.

BE A BOOSTER.

(By Elizabeth Yockey.)

Are you a booster? You'll find they are few.

But many a knocker. Which one are you?

Don't boost Ashland and then fall down

When you're asked for a dollar to bring renown.

If they ask for a bond, will you give them a vote?

If for collateral true, sign your name to a note?

All work together—there's no other way—

This knocking and grumbling will never pay.

Don't be a grump and don't be a croak.

If down on your luck, don't say " 'Tis Ashland that broke."

And the good that you say, say with power and zest.

Let your slogan be "Ashland's as good as the best."

Read the paper reports, both far and near;

Whatever the weather may be, 'tis not so bad here.

If sick of yourself, go away for a while;

You'll return well content, be happy and smile.

Boost for Ashland and her wonderful springs;

Boost, and "boost" the echo rings!

Boost for the climate all the year round.

Boost and the good will to you rebound!

Of course, we want truth—simple truth can't hurt—

But don't cover the truth too deep with the dirt.

If there's bad, forget it; if good, then clap;

Keep "Ashland the Beautiful" on the map.

Resources! Ye gods! Could you ask for more?

There's enough in this valley to reach the world o'er.

Dairy, poultry, the mine and "fruit to burn"—

And the landscape's a picture, wherever you turn.

Of course, this don't mean we can sit down and put—

It takes brain and brawn to bring the good out.

Undeveloped, we know, awaiting God's plan,

Opportunity offers—perhaps you are the man!

Take pride in your homes, plant trees in each yard;

Try all sorts of boosting—'twill sure bring reward.

Boost, and some time you'll be proud to say,

"I helped build Ashland, she's here to stay."

As a health resort it cannot be beat;

As a pleasure resort 'tis a wonderful treat.

When you buy your ticket, get it just one way,

For once you strike Ashland, you're here to stay.

That knocking business is low, I vow;

Get the boosting habit—it will pay somehow.

Now, all I have said to this fact is reduced:

Tell the truth about Ashland and that will boost.

A DREAM OF THE FUTURE.

Behold sweet nymph, outstretched her slender arms,

Embellished with a thousand youthful charms!

Alluring smiles, real comely winsome grace

Unblushed beauty flush her queenly face;

The mortals who desire lost health regain

Impart with new-born life her wild domain;

Florescent, glistening in their sun-kissed spray,

Upon her sparkling fountains healing waters play;

Long may the troubled seek her mountain home

And find repose and rest in her alone!

She dwells near care-free wanton snow-fed hills,

Her very being with solemn grandeur thrills;

Long Nalad, o'er thy treasured springs preside

And never more them in thy bosom hide,

Now reign—thou art so lovely to behold

Do let thy glory glow in letters gold!

IRRIGATION IN SISKIYOU COUNTY

Montague, Cal.—The irrigation system being constructed in Shasta Valley for the watering of 20,000 acres of land is being rapidly completed. The engineers in charge of the work are confident that the system will be supplying water to a great portion of the land the coming spring. It has been found that a comparatively slight additional expense will extend the present system so as to include 12,000 acres adjacent.

The completion of this work will add 32,000 acres of irrigated land to the county's total. This land has heretofore been used chiefly for grazing purposes, and its market value was never considered to be in excess of \$10 to \$15 per acre. With water in abundance the land immediately becomes worth from \$75 to \$150 per acre, and will be subdivided into twenty-acre units and sold.

The soil has been carefully examined by United States government experts and pronounced suitable for all sorts of forage, truck gardening and delicious fruits. Portions of it are said to be ideal for the culture of celery and asparagus.

The Commercial Club requests the names and addresses of parties who are considering coming to the coast this summer. We wish to send them literature and give them a good conception of Oregon. 74-tf
