THE ONE-ATTEMPT MAN OR WOMAN

who, for example, publishes a Want ad once, and if it does not bring the result desired decides that "advertising does not pay," should study the practical results, in all lines of endeavor, of perseverance. The law of "try again" is as potent in want advertising as in any other effort or enterprise.

BELLEVUE ITEMS.

Victor Flint returned to Ashland last week after an absence of four months, which he has spent in Parker, S. D., and Nashua, Iowa.

Harry and Eleanor Moore spent Sunday at the Dunn home, helping Master Horace celebrate his seventh birthday.

T. D. Chapman and G. E. Milner have changed the feeding grounds of the cattle they have kept in the small tract of brush next the school house.

Three Men in a Boat.

Searching adventure in probably the smallest craft ever used for a similar purpose on the Pacific coast, Syd Wilson, Frank Harris and Dave Poste of Coos Bay, Ore., have arrived in San Francisco Bay and are now at anchor off Sausalito. The tiny craft is called the Barnacle. After taking in the Panama-Pacific International Exposition it is the intention of the trio to point the nose of their vessel southward and continue their journey around to the east coast.

The Barnacle and its crew made the trip from Coos Bay in three and a half days, encountering some unusually rough weather in the vicinity of Point Arena and Cape Mendocino.

The Barnacle, which is thirty-seven feet long, was constructed by the three young men. She is ketch rigged and carries a 24-horsepower auxiliary engine. The latter is used only when the boat is in a tight place. A complete electric plant furnishes the crew with light and heat.

Wilson is a miner, Poste a newspaper man and Harris a sailor. Arrangements have been made for them to anchor off the Oregon building at the exposition, near the battleship Oregon. Upon leaving San Francisco the three men intend to head down the California coast, touching at every port, and then to Mexico and Tiburon islands, where they will attempt to do some gold mining.

At San Diego they will take on food supplies enough to last two years. This is the time that they figure it will take to make their trip to the east coast.

The boat came into Sausalito at night and anchored near the revenue cutter McCullough. The next day the report was spread in Sausalito that the cutter had captured Chinese smugglers and had seized the craft. The three have been busy since denying the rumor.

Livestock Bulletins Free.

Corvallis, Ore., March 18.—Livestock management is the subject discussed in four bulletins recently prepared by the Animal Husbandry Department of the Oregon Agricultural College. Heretofore most bulletins published have dealt with some one special feeding problem. These bulletins, however, are a summary of the experimental knowledge along the lines of breeding, feeding and care of horses, cattle, hogs and sheep. They supply the data so often asked for by the stockmen of the state.

There is a bulletin on each class of stock, namely, horses, beef cattle, hogs and sheep. Some of the main points covered in each bulletin are: Most economical methods of feeding; breeding to get best results; equipment necessary; artificial impregnation; bogus pedigrees; raising purebred stock and their use. These bulletins are free and people interested in any one of them or all should write to the Oregon Agricultural College, Corvallis, Ore., for them.

Dear Old Ashland.

Mrs. Mary E. Wood writes from Alameda, Cal., to have her Tidings forwarded there where she is visiting her daughter, Mrs. Frank Burke. She will remain there some time. She says California is all right in a way, but not to compare to "dear old Ashland." And so it appears to most of those who go away from here expecting to find more pleasant surroundings. Experience away for a time only more firmly convinces us of what all know, that Ashland is hard to beat, even in the most exploited tourist regions.

Standard legal blank forms of every kind may be procured at the Tidings office in any quantity.

Lilly's Seeds are not an experiment—they are tested in our laboratory and trial grounds. They are specially adapted to the Pacific Northwest and are true to name. Our valuable catalogue will be sent free on request. Dealers: Lilly's Seeds, Inc., write, The Chas. H. Lilly Co., Seattle.

There were about twenty present at the Endeavor meeting last Sunday evening. There were several out from town.

Sunday was the first day of spring and it certainly looked like it. The wild flowers are beginning to blossom, and the fruit is also blossoming.

Marvin Hibbs of Ashland is moving onto the Allman orchard.

The field meet was postponed a week on account of so much sickness in school. But they have gotten back onto their feet and are practicing every minute possible.

WATCH HER DEVELOP.

(From the Northwest Hotel News, Portland.)

Ashland, resting as it does at the extreme southern point of the state, at a division point of the Southern Pacific Railway, and at the base of the Siskiyou mountains, on the Pacific highway, surrounded by mineral springs of untold wealth and medicinal virtue, with a climate not equaled in the state, in the midst of orchards superior to those found anywhere north of California, with all this and more, is about to wake from its lethargy and start the ball going which is destined to make it the peer of any watering place in America. There is everything in her favor, her citizens not being in the way now since they have been awakened. To take advantage of the new lithia and other mineral springs now being piped into the city, a large health sanatorium must be built followed by a tourist hotel of large size and attractiveness. The persistent boosting of the newspapers of Ashland together with a few live citizens is going to transform Ashland. Watch her develop.

YOUR FRECKLES

Need Attention in February and March or Face May Stay Covered.

Now is the time to take special care of the complexion if you wish it to look well the rest of the year. The February and March winds have a strong tendency to bring out freckles that may stay all summer unless removed. Now is the time to use othine—double strength.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful that it is sold by druggists under guarantee to refund the money if it fails. Get an ounce of othine—double strength, and even a few applications should show a wonderful improvement, some of the smaller freckles even vanishing entirely.
