

Helen Duffy at Lyric This Week.

### Kenworthy Plays At Lyric This Week

You never get something for nothing, but the nearest thing to it will be the shows given at the Lyric Theatre starting Thursday night when the Kenworthy Players open an engagement of seven nights, presenting high class tabloid plays staged complete with all their own scenery.

A company of five capable people, consisting of Milburn Kenworthy, Helen Duffy, Zoe Bates, Edw. Fitz Gerald and Armine Lamb, in condensed versions of popular plays. This is a novel way of offering up-to-date plays in addition to pictures, and one that is a big success in the east.

Each play is complete and carries the entire plot without any long-drawn-out scenes or situations and enables the show to be offered at small prices. For the opening night the most successful comedy ever written, "Charley's Aunt," will be presented. This play is in one big act running forty minutes and is a scream from the top to the finish. It is one that is always funny, but in the hands of capable people is a great show. Pictures will also be shown, making a big double show at the small prices of 10 and 20 cents for any seat. Be sure to avail yourself of an evening's pleasure by going to the Lyric Thursday. New show every night.

### Do Not Graze Cows Along Boulevard

Owners of cattle who have their eyes on the Boulevard as a likely looking place for turning their cows loose to browse had best seek elsewhere for grazing grounds. The chief of police has been instructed to arrest the owners of any cows which are found grazing on the Boulevard. This action comes as a result of the breaking down of young trees and destruction of foliage. There is an ordinance which covers this and the council will see to it that it will be enforced.

According to Carey S. Hill, special commissioner to the Panama-Pacific exposition from Oregon, the Rogue River Valley's special day at the exposition will come between August 5 and 15. The exact date and arrangements will be announced later.

### U. of O. Interested In Ashland

Professor Lawrence, head of the architectural department of the University of Oregon, spent Monday and Tuesday here looking over our proposed park development and offering suggestions on proper architectural types and general development lines. He visited all of our springs and was surprised to find such an abundance and variety of valuable mineral waters and was simply carried away

### S. P. Passenger Agent Here Monday

General Passenger Agent F. H. Batturs of the Southern Pacific Company spent Monday in the city going over the springs situation with the springs water commission. It is the hope of the commission to induce the railroads to provide for a thirty-day stopover ticket for Ashland after the first of July and Mr. Batturs was here looking into our department plans and work to determine the feasibility of the proposal as well as to get first hand knowledge of our development in order to be better able to interest outside capital in our hotel and other necessary accessories to the mineral springs enterprise. This was Mr. Batturs' first trip here and he was deeply impressed with our mineral waters.

with the beauty of our park. He will give our development some study and then will submit suggestions for our development along proper architectural lines. He came at the instance and at the expense of the U. of O. Mr. Miller, of the department of commerce of the university, has rendered great service in our behalf, having searched the four corners of the earth for watering resort data for our edification. The educational institutions of Oregon have great interest in Ashland's future watering resort development and have rendered every aid and encouragement possible to the commission.
