## THE ONE-ATTEMPT MAN OR WOMAN

who, for example, publishes a Want ad once, and if it does not bring the result desired decides that "advertising does not pay," should study the practical results, in all lines of endeavor, of perseverance. The law of "try again" is as potent in want advertising as in any other effort or enterprise.

Classified Rates: One cent per word, first insertion; 1/2 cent per word for each insertion thereafter; 30 words or less \$1 per month. No advertisement inserted for less than 25 cents. Classified ads are cash with order except to parties having ledger accounts with the office.

### Tidings Want Ads

are little real estate salesmen who visit 2,500 prospective buyers twice every week. Where is the big real estate salesman who does as much? And it does it all for the small sum of one cent a word. In writing your ad you should give a full and fair description of the property offered, so that the reader can estimate readily whether the property will suit his desires. It is not the province of advertising to make the sale, but rather to find the customer, create the desire and put the buyer directly in touch with the seller. Somebody wants your property. The little want ad may not find him the first time, but keep it going. It will surely do the business if diligently pursued. Put the little ad to work and keep it working for a month, two or three months. When it brings about a sale you will find the commission it costs is relatively small—practically nothing. Try it.

### DON'T BE MISLED.

**Ashland Citizens Should Read and Heed This Advice.**

Kidney trouble is dangerous and often fatal. Don't experiment with something new and untried.

Use a tested kidney remedy. Begin with Doan's Kidney Pills. Used in kidney troubles 50 years. Recommended here and everywhere.

An Ashland citizen's statement forms convincing proof. It's local testimony—it can be investigated.

Mrs. M. J. Wilbourn, 190 B street, Ashland, says: "I have used Doan's Kidney Pills and found them so good that I willingly recommend them. I keep a supply in the house all the time. Whenever my back and kidneys bother me I have Doan's Kidney Pills on hand and they quickly drive the trouble away. I never knew of another medicine that gave such good results. I think all kidney sufferers would do well to give Doan's Kidney Pills a trial."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Wilbourn had. Foster-Milburn Co., Props., Buffalo, N. Y.

## Auto Drivers Must Do Their Part

The automobile owners and drivers throughout California are affected vitally by a recent decision handed down by the supreme court, which, once and for all time, places upon the operator of a car the duty of coming to a full stop at dangerous railroad crossings, whether or not that crossing is protected by warning bells. It also takes away from the automobile driver the right to collect damages where he failed to hear a whistle blown or a warning signal sounded.

Under this ruling automobile drivers cannot collect damages for accident at railroad crossings even when the view of the track is not fully free and open, when no signal from an approaching train is heard, unless he has brought his car to a full stop at a point where he can look up and down the track before attempting to cross.

The decision, which was handed down by Judge Melvin and concurred in by Henshaw and Lorgan, was in the case of O. G. Griffin against the San Pedro, Los Angeles & Salt Lake for an accident near Colton, on November 24, 1911.

### What to Use For Fly Trap Bait

DR. JOHN F. HART Physician and Surgeon TALENT, OREGON.

### LET US SERVE YOU

Our interests are mutual.

A fermenting mash that any Ashland householder can make in a few minutes at 5 cents or less expense proved in an experiment conducted by the University of Oregon extension division to be the best fly bait. The following five baits were put into competition:

- No. 1. Ordinary table syrup, the kind used for waffles and pancakes.
- No. 2. Decayed banana.
- No. 3. Salmon from a can; the salmon had been exposed to the sun.
- No. 4. Crab that has been left in the sun until decay had begun extensively.
- No. 5. A mash made of bran, mixed very wet with waste potato water and skimmed milk, sweetened with molasses (brown sugar will do), and containing plenty of active yeast so that it had fermented furiously.

These five preparations were put into five traps and the traps were set out side by side at a Eugene fly headquarters. The results after 20 minutes' exposure of the traps were as follows:

- No. 1. Four flies.
- No. 2. Ten flies.
- No. 3. Twelve flies.
- No. 4. Thirty-nine flies.
- No. 5. Two hundred and twenty flies.

decaying crab and 18 to every one caught by the stale salmon does not necessarily rule tither of these last named baits out. The place of experiment was near a slaughter house where the flies were glutted with animal food and turned gladly to the pleasant variety afforded by the mash. In a competition in a city block where animal food is scarcer, the catches might be more even, but Dr. Hodge considers the mash the best general bait under almost any circumstances.
