He has devised a thoroughly practical plan that will make the structure one of the most complete and beautiful combination tourist and commercial hotels on the Pacific coast at a nominal cost. Every citizen of Ashland should get behind Mr. Dobbins' plans in substantial support. Already Mr. Dobbins is proving a great asset to the town. He is a man who does things. Owing to a big call for state aid for road-building from all the counties of the state, the state highway commission was unable to co-operate with Jackson county, and the United States government is making a survey from the park to Medford, upon which to base an appropriation to be asked of congress for the construction of a national highway. Jackson county receives \$45,000, the biggest slice awarded to a single county for road-building as the result of a bill which was passed at the recent legislature promising state aid to Jackson county because of the \$500,000 spent by the county in building a road, the Pacific highway through the county, which is really a state road.

Primer Explains New Dry Laws

Unmistakable interpretation of the state prohibition law is the purpose of the "Laymen's Primer" prepared by Attorney General Brown and Elisha A. Baker of Portland. It will be first distributed generally throughout the state.

The primer is in the form of questions and answers. It is the first work of the kind in any state. The last chapter, prepared by Superintendent Hutton, deals with the securing of evidence for prosecutions. The style of the book is shown by the following from the chapter on "Common Carriers, Shipments and Receipts":

"Q. What happens to one who makes a false affidavit? A. He is deemed guilty of perjury and is punishable by from two to five years in the penitentiary."

This is the answer regarding the receipt in any family of more than the two quarts of liquor or 24 quarts of beer in 28 successive days as allowed by the Anderson law. Elsewhere it is pointed out that if a person obtains more than his allowance

by going to different common carriers, that fact will come out when the affidavits are posted with the county clerk on the 10th of each month.

The provisions of the law concerning pharmacists, physicians, search warrants, advertising and soliciting, liquors in clubs, lessors of buildings and the duties of the officers sworn to enforce the law are summarized in the primer.

Among the attorneys consulted during its compilation was W. J. Moore, city attorney of Ashland.
