Chevrolet Four-Ninety

The "Four Ninety" is a real automobile. It has a quiet, powerful, Valve-in-Head Motor. It has looks—it has style—it is beautifully finished and rides like a cradle.

The "Four-Ninety" has the following novel and superior features not found in any other car built:

- (1) shock-absorbing duplex front springs; (2) Self-lubricating clutch collar; (3) Hub-construction with triple-size bearings, preventing "wobble" of wheels and wear on tires; (4) Compound spur steering gear attached to body—the simplest and safest ever invented; (5) Unit power plant carrying transmission on open brackets, which gives accessibility to clutch and allows removal of all transmission, if necessary, in twenty minutes. (Patents granted or applied for on the above.)

Besides these exclusive features, the "Four-Ninety" has: 1. Streamline body; 2. Crown fenders; 3. Cellular radiator; 4. Body with flush sides and concealed hinges; 5. Three-speed transmission; 6. Three-quarter floating axle; 7. Cantilever springs; 8. Ventilating windshield; 9. Mohair top; 10. The world-famous Zenith carburetor, found only on cars double the price of Chevrolet.

Back of the Chevrolet is the

\$80,000,000

Chevrolet Motor Co.

Under the direct supervision of **W. C. Durant, the Veteran Builder and Master Genius of all Motordom.**

Mr. Durant is not only in control of Chevrolet but also the General Motors Company, which constitutes the largest manufacturing automobile concerns in the world.
