IRRIGATION CAN'TS.

We have at hand the irrigation edition of the El Centro Progress, from the Imperial valley, southern California. To the doubter who thinks irrigation is impracticable in the Rogue River valley we would recommend sending for the irrigation edition of this newspaper. One editorially especially caught our attention. It is applicable to many things besides irrigation and is reprinted here for what it is worth:

"No doubt there are many people who recall the numerous quips and jokes about the possibility of watering the desert from the Colorado. 'It can't be done' was a common remark.

"Which reminds us of a proposed debate 'way back in 1828 which a few peculiar persons wished to hold in a school house on the subject, 'Are railroads and telegraphs practical?' Permission was asked the school board to hold the debate in the school house and the minutes of that august board meeting read as follows:

"You are welcome to use the school to debate all the proper questions in, but such things as railroads and telegraphs are impossibilities and rank infidelity. There is nothing in the word of God about them. If God had designed that His intelligent creatures should travel at the frightful speed of fifteen miles an hour by steam, He would have clearly foretold through His holy prophets. It is a device of Satan to lead immortal souls down to hell."

"Of course, the moral to this tale would be, 'Kill the fellow who says it can't be done and go ahead and do it.'"

BEN SHELDON POPULAR.

The suggestion of Ben Sheldon for the legislature seems to have met hearty approval in other sections of the county as it has done in Ashland. Our people here remember gratefully his splendid work for our normal school. In his home city of Medford, for whose interest he has worked early and late these many years, he also has many friends. The following clipping from the Central Point Herald shows how he stands in that city:

"Benjamin C. Sheldon, who has announced himself as candidate for representative from Jackson county on the republican ticket, is a man fully competent to fill the position. He is well known, having lived in the county for a number of years, and has always worked for the best interests of southern Oregon. Mr. Sheldon should receive the support of every republican of the county. He is a public spirited citizen and a very forceful speaker and is qualified in every respect for a representative."

That was a cruel jab E. V. took at our George in endorsing Thomas as a candidate for the legislature. Especially cruel to do it through the organization organ, the Medford Sun. It was not an unusual situation for one to find himself in, however, when he attempts to butt into a game where he has no checks.

Talks With Screen-Struck Girls

Series Two. By Beatriz Michelena. No. 5. (Copyrighted January, 1916, by Beatriz Michelena.)

Every girl who has had aspirations to become a motion picture star has probably some time come upon an advertisement that reads after this fashion:

"Be a motion picture performer and earn from \$50 to \$500 weekly. No experience necessary. Full particulars by mail."

Maybe she has answered it in a burst of enthusiasm, and then in due time found it to be the bait of some so-called school of motion picture acting. She doubtless received an elaborate prospectus, breathing in naive confidence the secrets to the golden El Dorado of the motion picture profession. Things were painted in a brilliant hue, well intended to whet her appetite for a course of instruction, incidentally offered at a

moderate tuition fee. And who is to blame for her gullibility? Were not instances, almost without number, cited of women who had succeeded in pictures just as the prospectus promised she would succeed? Undeniably the entire matter had a tone of plausibility. That is the prospectus man's business.

If she took the course, however, she has by now profited largely in experience, if not in the art of motion picture acting. She can tell you better than I how empty were the sweet promises of that prospectus. They erected for her a magnificent palace of dreams; but it is shattered now and her pocketbook has suffered too. Worse still, unless she be a girl of unusual metal, she is broken in spirit. If she had expected less, she might have accomplished more. But she expected too much and the bitter disappointment of it has wrung out the ambition that she once had. That is one reason why the fake school of motion picture acting is such a crime.

However, like many other forms of crime it continues to flourish. Nearly every city has its fake schools now. It is merely a case of a lot of scoundrels, more or less shrewd in their villainy, trying to capitalize the motion picture craze that has swept the country, and especially the craze, found in some quarters, to become a motion picture actor or actress. Please, my "screen struck" friends, beware of these prospectuses and their rosy promises. They can bring you nothing but disappointments.

The People's Forum

Dr. Morrison's Plea for Sound Protestantism in the Episcopal Church.

(By Henry G. Gilmore.) The Rev. Dr. A. A. Morrison, rector of Trinity Episcopal church, Portland, is a well-known ecclesiastic of the broad church type after the pattern of the late great and good Philip Brooks, Bishop of Massachusetts. Dr. Morrison, with a somewhat phlegmatic temperament and a disposition always to call a spade a spade and not a horticultural implement, possesses intellectual qualities of the highest order and a method of procedure, in most things, that render his utterances, upon whatever subject, palatable to hearers who lay stress upon what is real and logically conclusive.

A sermon recently preached by Dr. Morrison, in his church, on "National Preparedness," and an address before the Y. W. C. A. on the savory subject of the "Butterflies of Society," will long be remembered for their cogent arguments in the interest of sound common sense; while more than one sermon preached in Trinity church, Ashland, has been indelibly impressed upon the memories of a host of appreciative listeners.

This article is intended to deal, more particularly, with a contribution from my pen, suggested by a visit to a Los Angeles church in which great liberties were taken by the injection of practices in the conduct of the services, entirely foreign to the prescribed ritual and spirit of the Protestant Episcopal Church of "these realms." A copy of the Ashland Tidings containing said article was sent to Dr. Morrison, and this is how the well-known rector of Trinity church has been pleased to deliver himself upon the subject. It will be observed that the reverend gentleman strikes straight from the shoulder, in no uncertain fashion, upon a matter that, especially at this time, is engrossing the attention of churchmen throughout the country who have a decent regard for the Protestant teachings of the Prayer Book—pure and simple—and a settled belief that the 39 articles of religion are neither a snare nor a delusion to any people:

Dr. Morrison's Letter. "Trinity Church. "Nineteenth and Everett Sts., "Portland, Feb. 22, 1916. "Dear Mr. Gilmore: Your article in the Ashland Tidings was quite right. Our church is seriously divided throughout the country. The Catholics are bound to capture it if they can. They never overlook an

opportunity to elect their man for any office available, irrespective of their qualifications. My experience with those so-called Catholic churchmen has been most unfortunate as a demonstration of the value of their teaching for making a high quality of Christians. The sole value of religion is measurable by its effect in life. Our diocese is entirely dominated by the Catholic party. I predict that the church in Oregon will be a dismal failure under its influence.

"That which counts as worth while in a bishop or clergyman is the life he preaches and tries to live. He (the bishop or clergyman) must be patient, gentle, humble, self-sacrificing, truthful, charitable; at least make a real effort to possess these virtues. The only apostolic succession worth maintaining carries these traits with it, otherwise it is an ecclesiastical counterfeit of a very pronounced type.

"Sincerely yours, "A. A. MORRISON."

EAT AN APPLE.

If you're feeling kind o' blue—eat an apple!

It will cheer you through and through—eat an apple!

It will put your stomach right, soothe your liver over night.

Operations? Calm your fright—eat an apple!

In view of the high cost of automobile fuel gas, it seems as if the enormous quantities of hot air used in selling the machines should be utilized.

Whatever error the income tax payers make in their returns, they never forget to allow for the tendency of profits to shrink and losses to grow.

Coffee

If it weren't for the label on a Schilling's Best coffee tin, you wouldn't know what was in it. You can't smell the coffee.

The rich full flavor is all inside—sealed in the airtight tin less than an hour after roasting.

You get what you pay for, in Schilling's Best—the flavor, the essence that means satisfaction in your coffee cup! That is economy.

Everly ground; chaff taken out; moneyback.

The high price of eggs again raises the question why more people don't keep hens. It is so very inexpensive for them to get their living from their neighbors' back yards.

FOR BRONCHITIS, PAINFUL COUGH, WHOOPING COUGH AND COLDS

Cheapest Remedy Made at Home—128 Teaspoonful for 50 Cents. When in need of a remedy for the treatment of Bronchial Affections, such as Bronchitis, Whooping Cough, Croup, Stubborn Coughs, Colds or Hoarseness, don't simply ask the druggist for a "Cough Medicine," but get the best. Tell him to give you Schiffmann's New Concentrated Expecto- rator, instead of being induced into buying something else purely on the strength of some testimonials or the exaggerated claims of the manufacturer. The same "Money Back" guarantee goes with every bottle of this remedy sold by McNair Bros', Drug Store as does with Dr. Schiffmann's famous Asthmador and your money will be refunded, if it does not give perfect satisfaction; in fact, even more, if it is not found the best remedy ever used for these affections. In buying this new remedy, besides securing the guarantee these druggists give, it will likewise be found the most economical to use, for the reason that one bottle (50 cents' worth) makes a full pint (128 teaspoonfuls) of the most excellent cough medicine, after being mixed at home with one pint of granulated sugar and one-half pint of water. One bottle will probably, therefore, be sufficient for a whole family's supply, while the same quantity of the old, ordinary, ready-made kinds of medicine would cost between \$2 and \$3. It is prepared from strictly harmless plants, contains absolutely no chloroform, opium, morphine or any other narcotic or injurious drugs as do most cough remedies, and it can therefore be given to children with perfect safety. It is pleasant to take and children are fond of it. Absolutely no risk whatever is run in buying this guarantee. R. J. Schiffmann, Prop., St. Paul, Minn.
