Dancing in a GOSSARD CORSET

like the model here illustrated will give you an entirely new idea of the genuine pleasure of Summer dancing. You can dance as much as you like—which is probably more than you have been doing—in this corset. It is so cool.

The open mesh material is flexible, yet your figure lines are held to strictly stylish lines. The boning is light, yet each bone is so placed that it serves a definite purpose. The skirt is medium—just long enough—the bust medium low, and the corset is so light you really don't know you have it on.

If you dance then you must at least try one of these Summer corsets. Like all Gossards they lace in front. Your size will be sent you or you may be fitted at \$2.00.

These open mesh corsets are just as desirable for tennis, swimming, motoring or any other out door exercise.

On Saturday night, July 1, the manager of the Ashland mine paid his men in the neighborhood of \$2,000. A great portion was spent celebrating in Ashland and with Ashland merchants. Roseburg Review: As the result of some trivial disagreement, a number of eastern Oregon buckaroos en route home after attending the roundup at Ashland engaged in a fistie encounter on train No. 16 last night. The men were still fighting when the train reached Roseburg, and they attracted no little attention from persons who chanced to be at the depot. One man was shunted through a car window, while another man was badly cut with a knife.
