Thursday was a great day at the Southern Oregon Experiment Station. About 150 people were entertained there by Prof. and Mrs. A. C. Reimer, who were there to attend the demonstration of blight work. Twelve auto loads of Josephine county people were present and the rest were people of Jackson county. The demonstration was a success from every standpoint. Everyone was enthusiastic over the results. It was shown by the demonstration what types of pears show marked resistance to pear blight and those which are susceptible to it. The main purpose of the meeting was to find those types which show the greatest resistance to blight. Refreshments were served by the host and hostess, and everything was such a success that it was voted to hold an annual demonstration and picnic at the station.

SUNDAY FACE

(By Mary O. Carey, Talent, Ore.)

I told my friend the other day I was invited out. She said, "Put on your Sunday face And mind what you're about." These few words put me thinking, As words so often do, I said, "Put on my Sunday face"— How often that is true.

We go about with face demure, We hate our daily task; We see no joy in all we have, No blessings give or ask.

But rather murmur and complain, The world serves wrong; No smile have we for any one, We join no happy song.

But when we go in company We wear a different face, We smile and laugh, somehow, But it is just a Sunday face.

Few guess the feelings hidden Beneath that company smile, Or know of anger, hate and pride, They are hiding all the while.

Now, friend, just turn the tables And wear that smiling face At home, among your loved ones, It will fill a nobler place.

Homestead Land Open This Fall

That a portion of the Oregon-California railroad land grant lands in Jackson and Josephine counties may be thrown open to settlement this fall is the statement made at Portland by Louis L. Sharp, chief of the field division of the United States Land Office, upon his return from Washington, D. C. The action was authorized by Clay Tallman, commissioner general of the land office.

Under Mr. Sharp's instructions he is to take the field immediately, accompanied by a staff of operatives who will assist him in surveying and classifying the lands. The portions classes as agricultural will be opened to homestead entry by settlers, who will be allowed to file on tracts of 160 acres each, paying the government \$2.50 an acre. All lands of the grant not classed as timber or mineral lands or in forest reserves will be opened to settlement as agricultural lands, although it is conceded that not all of the lands to be so classed with be practically cultivable.

Mr. Sharp said his first work would be done in Jackson and Josephine counties in southern Oregon and that the agricultural lands in those counties would probably be opened to settlement this coming fall. Other agricultural lands will be opened as fast as classified.

Died. David C. Carlton, a former well-known resident of Ashland, died Saturday, July 15, at the State Hospital at Stockton, Cal. He was 53 years and 23 days of age. He leaves a wife and two sons and was a member of Ashland Camp, No. 6565, Modern Woodmen of America. Mr. Carlton had a wide reputation as a map drawer. He was a resident of Ashland for a number of years and moved to Oroville, Cal., about six years ago. He drew maps of Jackson county, working in the abstract office with Messrs. Harvey and Yeo.

MELLOW-SWEET IS TASTE OF "SPEAR HEAD"

Most Richly-Flavored Chew That Was Ever Pressed Into Plugs

FAVORITE FOR A GENERATION

Red-blooded men with real tobacco hunger find that they can satisfy it only by chewing, and the most wholesome and satisfying tobacco to chew is that made in plug form.

The limit of luxury in tobacco chewing is the rich, sweet, juicy flavor that trickles through your system when you chew Spear Head.

No other chewing tobacco is so mellow, so luscious and so satisfying. No other equals Spear Head for putting a keen edge on your appetite.

Spear Head is made of the world's best tobacco leaf—the choicest of red Kentucky Burley. This leaf is selected for its full, juicy richness with the most painstaking care, is stemmed by hand, is pressed into Spear Head plugs so slowly that not a drop of the rich, natural juice escapes.

Your first chew of Spear Head will open your eyes to the genuine enjoyment there is in chewing.

Chew the rich and mellow tobacco that has been the favorite for a third of a century—that's Spear Head. In 10c cuts, wrapped in wax paper.
