### Winter Snow 25 Feet at Crater Rim

Just how deep the snow is in Crater Lake park and how deep it was this winter, is shown by a "snow marker," a tall pole erected near the engineer's office near the lake rim. Crossbars, with dates and figures, have been placed on this pole showing the winter snow depth. This winter the depth was greater than ever before. The highest snow level is shown to have been more than 25 feet.

Though cars can now get all the way up the road to the lake, there is still much snow on the highway. The bigger drifts are under the hemlocks, where the sun does not strike directly, through which narrow passages have been cut. Many of the big drifts will not melt this summer. The entire park is snow covered, making the days cool and the nights too cold for comfort for campers. Most of the tourists who visit the lake go down to some of the warmer camps on the lower altitudes, Union creek being a favored place.

The record of visitors kept at headquarters camp, in the park, show that less than one-fourth the number of cars entered the park during July than during the same month last year. It is believed that last year's record of over 11,000 visitors will not be reached this season.

#### Missionary Meeting

The women of the Christian church held their missionary meeting at the home of Mrs. Morrison on Ashland street last Friday afternoon. The scripture lesson was read from Psalms, chapter 34, and some splendid comments were made by the leader on the lesson topic. The songs, "Abide With Me" and "Lead, Kindly Light" were rendered, after which a report was read from work in China by Mrs. J. M. Morgan. The following readings were given: "Missionary Work," by Rachel Hurst, and "The Shadows On the Light of Asia," by May Benedict. Next came the songs, "Whispering Hope" and "Rock of Ages," after which dainty refreshments were served by the hostess, Mrs. Morrison.

#### Died

Mrs. Emma Garvin passed away Wednesday at the home of her daughter, Mrs. William Bruin, in Talent. She was 68 years, 4 months and 21 days of age. The funeral services will be held tomorrow afternoon at 2 o'clock from the William Bruin home. Interment in Wagner Creek cemetery.

### Doings at the Vining Theatre

Thursday.

William S. Hart, greatest of western actors, comes to the Vining screen Thursday night (tonight) in "The Aryan."

Hart plays the part of a rugged man of the desert, who, having been fleeced of his fortune by the degraded women of a lawless town, turns against the feminine sex. He becomes the ruler of renegades in a self-built mining camp, utterly despising women for ensnaring years, until he is awakened to the code of his race by a gentle, fearless girl, who trusts him.

"The Aryan" was produced, almost in its entirety, on the sands of the Mojave Desert in California, where the blistering sun is almost unbearable. For three weeks Hart and his company camped on this barren tract, filming the story. Other scenes were made in the mountains of Inceville.

Friday.

"The Heart of Paula," which will be shown at the Vining Theatre Friday night, combines a number of phases which should make it one of the biggest attractions of the summer for Ashland movie fans. The play is wonderful in its photography, setting and plot. The scenes are laid in Mexico, and a rare insight given into Mexican life as it is today. Leonore Ulrich, of "Bird of Paradise" fame, stars in the play.

The atmosphere of warm, flower-scented nights, of tinkling music, of deeds of daring to win a lady's glance, scenes of intense hate and strong passion, are all blended in a fascination that entrances.

This story of the burning love of a Spanish maid for a handsome American, stars Leonore Ulrich, who is entrancingly beautiful as the high-born Castilian made poor by the unsettled times.

An added attraction for Friday will be the first of the series of Selig athletic feature series, this feature showing all the famous boxers in action.

Saturday.

Saturday night's offerings at the Vining round out the week with features which equal if not excel the previous attractions. "Green Stockings," a unique Vitagraph feature, will present something new in the line of motion picture attractions. The plot is so refreshingly original and spicy that it is sure to "get across" better than any of the old stereotyped plots which have been hashed and rehashed and offered with the guarantee of a star's name. The story is—but, then, it is such an entertaining thing that it will not do to spoil your enjoyment by telling it before hand.

With "Green Stockings" comes another unusual novelty entitled "Wild Beasts at Large." This is a two-reel comedy which is a scream.

### Past July Climate

#### Approaches Perfect

Ashland climate outdid itself during the month of July. The past month has been one of the most equitable in the history of weather observations in Ashland. August is starting out in a like manner and ideal days and nights are following one after the other. While the east has suffered from a hot wave and Portland ball games have been postponed day after day because of rain, the weather here has been delightful, with just enough rain to suit the farmers without spoiling the picnics.

During the month there were but four days which were entered as cloudy in Co-operative Observer Louis Dodge's report. One and twenty-four hundredths inches of rain fell, which was enough to give the crops a big impetus without ruining the hay completely.

The thermometer registered above 90 degrees on only one day, the 11th, when 93 was recorded. For the rest of the month it ranged along with a maximum never above 87 and averaging about 80 degrees. The minimum temperature was 40 on the 5th, but the fact that every night was cool is evident from the average minimum of 47 and the fact that the highest minimum was 59. Anyone who cannot sleep when the night temperature is below 60, needs fixing.

One remarkable fact was that the prevailing wind was northwest on every day of the month.

The report of Observer Dodge follows:
