One-Third More Autos Than Last Year

Receipts of the state automobile department of the secretary of state's office for the first seven months of 1916 totaled \$132,944.50, as compared with \$108,881.50 for the entire twelve months of 1915.

A steady increase in the number of motor vehicles in Oregon is shown. Last year there were 23,585 automobiles and motorcycles. This year, with five months yet remaining, there are 30,504 automobiles registered and 3,207 motorcycles.

The number of dealers who have taken out licenses this year is 266, as compared with 173 in 1915. Chauffeur registrations this year, numbering 3,323, are less than in 1915, when 4,131 were listed. This is believed accounted for by the fact that last year the operation of jitney buses reached its maximum and there has been a decrease in the number operated since that time.

Oregon's gain in motor vehicles of all classes in the last six years is effectively shown in the following, giving the number of the different years: 1911, 6,428; 1912, 10,165; 1913, 13,957; 1914, 19,245; 1915, 26,743; 1916, 33,811.

Uniting Learning and Labor THE OREGON AGRICULTURAL COLLEGE

In its Six Schools and Forty-eight Departments is engaged in the great work of uniting Learning and Labor.

Forty-eighth School Year Opens SEPTEMBER 18, 1916.

Degree Courses requiring a four-year high school preparation, are offered in the following:

AGRICULTURE, 16 Departments; COMMERCE, 4 Departments; ENGINEERING, 6 Departments; MINES, 3 Departments; FORESTRY, 2 Departments; HOME ECONOMICS, 4 Departments; and PHARMACY.

Vocational Courses requiring an Eighth Grade preparation for entrance are offered in Agriculture, Dairying, Commerce, Forestry, Home Makers, and Mechanic Arts. Pharmacy with a two-year high school entrance requirement.

SCHOOL OF MUSIC—Piano, String, Band and Voice Culture. Catalogue and beautiful illustrated booklet free.

Sale of Round Valley Indian Lands

The secretary of the interior has authorized the public sale at Willits, Cal., commencing at 10 o'clock a. m. on August 29, 1916, of the undisposed lands in the Round Valley Indian reservation, California, under the act of February 8, 1905 (32 Stat. 706). The lands are located in Mendocino and Trinity counties, California, in the San Francisco and Eureka land districts, and have an aggregate area of 44,106.73, which have been appraised at \$56,230.79. The lands have been arranged in 302 blocks, having an average of 146 acres in each block. The lands are to be sold at not less than the appraised price in the manner in which they have been blocked out, though the superintendent of sale may first offer less than an entire block. Purchasers will be required to pay at least one-third down, the balance in two equal annual installments, with interest at 5 per cent per annum on deferred payments, in addition to commissions. No limit is fixed as to the amount of land any one person may buy, and no showing will be required as to age, citizenship, residence, cultivation or improvements.

The lands are in general mountainous, with small valleys, and are almost entirely covered with brush and timber. The timber, aside from madrona, consists of oaks, valuable only for firewood, and conifers, of doubtful economic value.

The country is well adapted by nature to almost any kind of agricultural use. Vine and fruit, as well as grain and alfalfa culture, should, it is reported, be highly successful as far as the raising of crops is concerned, and poultry and dairy products should do well. Progress along these lines has been hampered by lack of market facilities. The nearest railroad point is Dos Rios, fourteen miles from Covelo, and eighteen miles from the nearest point on the lands to be sold. The present principal industry of settlers is the raising of cattle and hogs, and some sheep.

A schedule of lands and other information in regard to the sale may be obtained upon inquiry of the register and receiver of the U. S. Land Offices at San Francisco and Eureka, California, or of the superintendent of sale, at the time of sale.

John Barrymore in The Red Widow at the Vining Tuesday, Aug. 22.

"Star" Week at the Vining Brings Seven Greatest Stars in Movies

Beginning tonight and extending over next Sunday night, the seven greatest attractions, starring the seven greatest stars in the motion picture industry, will be shown at the Vining Theatre. This is absolutely the greatest week of attractions yet offered at the Vining.

Matinees.

On account of the extraordinary attraction of every feature of the week, there will be daily matinees at 2:30 p. m. for this week.

Monday.

"The Spell of the Yukon," a picturization of the famous poem of the same name by Robert W. Service, the "Kipling of the Northwest," will be the opening feature and perhaps the greatest of the week's features. Those who saw the picture this afternoon proclaim it a wonderful picture which has caught the spirit of the poet of the northland and thrown upon the screen a story alive with the haunting terrors, the grim men and the stern fight of the cold reaches of the north. This attraction, a Metro picture, features the brilliant dramatic actor, Edmund Breese.

Tuesday.

John Barrymore, star of the legitimate stage, unexcelled and, since his entrance into pictures, the greatest of them all, brings "The Red Widow" to the Vining Tuesday night. In direct succession a series of the most execrably comical situations develop in this great comedy which give the great comedian and his cast of supporters, any of whom would star by himself, an opportunity to develop a comedy which will stand as a classic of the film. As a corset salesman in Russia, Barrymore runs into a combination of bombs, nihilists, women, Siberia and embarrassing situations which keep the audience shaking with mirth.

Wednesday.

On Wednesday comes Robert Warwick, the eminent dramatic artist, in "Sudden Riches," a photoplay of distinguished inspiration dealing with a vital modern problem.

The story of "Sudden Riches" deals with a legacy of hate. Old Abner Crewe, a miser and recluse, wills his great fortune to his nephew, Robert, in a spirit of revenge. He counts on this sudden wealth to wreck the young man's life.

Robert, his young wife and baby are perfectly happy until old Abner's millions fall at their feet. What follows bears out the cunning old miser's prophecy. The sudden riches lead them straight toward destruction. In the end Robert redeems himself by a great act, and the influence of parental love urges the young couple to reconciliation.

Thursday.

On Thursday comes "The Beggar of Cawnpore" and "The Bitter Pill." H. B. Warner, Triangle star, is the beggar in "The Beggar of Cawnpore." The story opens in a crumbling, stinking mud hut on the Indian desert about the year 1857. A doctor in the British army succumbs to the morphine habit while attempting to nurse a cholera-stricken friend back to health, unaided in the heart of the desert. He tries to overcome the habit for the sake of a girl, and the fight against the insidious grip of the drug is a wonderful exhibition of acting. The Sepoy mutiny, thrilling scenes and resulting eventualities give Warner a rare chance to display his histrionic powers.

"The Bitter Pill" is a Keystone comedy that is really funny, featuring Mack Swain and a gang of Keystone funmakers.

Friday.

The big feature for Friday needs but little exploitation. It is Marguerite Clark in "Molly Make-Believe." Is not that enough? And also the Selig Athletic film

feature which is creating so much interest among the men folks—yes, and the women too.

Only those who have witnessed the diminutive star's portrayal of one of these irresistible little scamps can possibly realize the infinite charm with which Miss Clary invests her interpretations. Molly is one of the most lovable creature in all fiction and Miss Clark is admirably suited by temperament and by artistic skill to visualize the petite bearer of good tidings whom Eleanor Hallowell Abbott so delightfully described in her popular book.

Saturday.

Saturday brings Norma Talmadge in "The Children in the House" and Joe Jackson in "The Lion and the Girl."

"The Children in the House" is a gripping drama dealing with a problem which ranks high in American life today—and has not been solved. Inimitable acting, a story which is "different," wonderful settings and a plot which enthralls make this a picture well worth seeing.

Joe Jackson and his educated triangle bicycle comes in another of those Keystone comedies which make you laugh until the tears come.

Sunday.

And the last of the week's attractions is a fitting climax. A production on a scale attempted only in about four pictures which have been produced for the screen to date, "The Island of Surprise," featuring William Courtenay, Eleanor Woodruff and Zena Keefe, is a truly great picture.

With his memory blank of preceding events in his life, and with two beautiful girls both claiming to be his wife as the three are stranded on an island in the South Seas, infested with ferocious savages, the hero of the new Vitagraph Blue Ribbon Feature, "The Island of Surprise," has a problem which would rack the brains of the ordinary story-teller. Cyrus Townsend Brady, however, from whose novel the film was picturized, is no ordinary story-teller, and he finds a way of deciding the point in question.

Trail Markers Point the Way

Representing the National Trail Blazers' Association, Mr. and Mrs. W. E. Tomlinson were in the city Thursday marking the Pacific Highway with the black signals to direct the way of the tourist. The highways throughout the nation are being marked with distinctive colors, black having been decided upon for the route from Seattle to San Francisco. The highway from Ashland to Klamath Falls and northward again to Portland will be marked with the yellow sign. Mr. Tomlinson goes armed with cans of paint and at every turn the sign is left. A band of the color of paint used for the certain highway is placed upon post of tree, and by following the color the wayfarer can not become lost.

Austin and White Pine sawmills are in full operation.

S. P. Awards Safety Medals

The Southern Pacific Company, through Vice-President and General Manager W. R. Scott, has awarded gold watch fobs, suitably engraved and bearing the company's safety emblem, to the six employees of each division and general shop who during the last fiscal did most in the furtherance of safety first work. There are seventy-eight in all. C. H. Rippon, piecework inspector of the Sacramento general shops, tops the list with the splendid score of 1,293 points. Last year Yardman H. A. Kuehn of the San Joaquin division stood first, in 1914 Shop Clerk H. P. Hillman of the Salt Lake division was at the top, and in 1913 Conductor William Schwab of the Sacramento division ranked highest and won one of the Harriman memorial medals.

The same method of ranking employees was used as in other years, namely:

1. For each practical safety suggestion made involving a change in standard, reporting of a defect, new work or which required actual labor in its correction and which indicated thoughtful attention on the part of the employe, 10 points were given.

2. For each suggestion which in the opinion of the superintendent warranted the issuance of instructions to employes but which did not involve actual physical labor to correct and which had not heretofore been covered by instructions, 5 points were given.

3. For each suggestion made which in the opinion of the superintendent warranted the issuance of instructions to employes but which did not involve actual labor to correct but which had heretofore been covered by instructions, 1 credit was given.

The award of the fobs is another means used by the company to encourage employes to send in safety suggestions—suggestions which will tend to make safer the life and limb of patron and employe.

Frank McKee of Denver, Colo., who has been here for the past six months taking lithia water for his health, left last Thursday for his home. He is improved several hundred per cent, according to his statement, and leaves the greatest kind of a booster for Ashland and Ashland lithia water.

First Company Ranks High

The first company, Coast artillery corps, of Ashland, ranks very well among the companies of the state in the number who passed gunner's examinations. The Ashland company ranks first in second-class gunners and fourth in 1st class.

The number of men who passed successful examinations were as follows:

First company, 1st class, 2, 2nd class, 14; second company, 1st class, 6, 2nd class, 4; third company, 1st class, 0, 2nd class, 6; fourth company, 1st class, 0, 2nd class, 5; fifth company, 1st class, 10, 2nd class, 7; sixth company, 1st class, 1, 2nd class, 2; seventh company, 1st class 1, 2nd class, 4; eighth company, 1st class, 6, 2nd class, 10; band, 1st class 1, 2nd class, 4.

This qualification adds to the compensation of the men under the federal pay bill which now is in operation and allows the members from \$1.00 a drill up.

Mrs. L. Wieland of Grants Pass came up Thursday for a few days' visit.
