The Winning of Lincoln Wirt

Two and one-half years ago a man went to a bureau manager, all unheralded and unknown, and said, "I think I have a message the American people will listen to." The manager was not interested. He had heard something like that before. But he could not get that face out of his mind. Later he phoned, "There will be a few friends at my house tonight—come out."

As the stranger told of his three years midst the silent places—of the "rivers that run God knows where"—of his noble dog "Whiskers"—this small but critical audience listened more and more intently, leaned forward, gripping their seats, wept and cheered. Thus did he win his first contract. That man went out to lycium audiences all unknown, and shot to the top of demand. Summer and winter ever since he has footed it from audience to audience.

Gunsaulus heard him and called him to Armour Institute to give him a doctor's hood and degree. Bishop Quayle, Senator LaFollette, Governor Hadley, Lorado Taft and other platform princes moved over and invited him to sit in the front row. Clubs, colleges, chautauquas, lyciums with one accord labeled him "great."

The other day when President Wilson signed the Alaska Railroad bill a thousand newspapers said that the lecturing of this man from Alaska all over the country, had done more than any other single agency to create public opinion to support and demand Alaska conservation.

Wirt—Dr. Lowal Lincoln Wirt is his name. I hope you will get him

Worth Careful Thought

Do you read the label to know whether your baking powder is made from cream of tartar or, on the other hand, from alum or phosphate?

Royal Baking Powder is made from cream of tartar, derived from grapes, and adds to the food only wholesome qualities.

Other baking powders contain alum or phosphate, both of mineral origin, and used as substitutes for cream of tartar because of their cheapness.

Never sacrifice quality and healthfulness for low price.
