Kill all sucking bugs. That's one big step. We are advising growers to look out for Aphis, Woolly Aphis, Red Bug and Pear Psylla. These sucking insects have become a real menace in many orchards. Owing to their habits of life, arsenical sprays are ineffective against them. You must

Control Orchard Pests

Black Leaf 40, manufactured by The Kentucky Tobacco Product Company, Incorporated, Louisville, Ky. Works efficiently as a separate spray or with Arsenate of Lead, Bordeaux and Lime-Sulphur. Simply add enough to give you the recommended dilutions. Saves work, as one spraying does double duty. Owing to the great strength of Black Leaf 40, but little is required and the cost is low. Recommended by Agricultural Colleges and Experiment Stations.

Incaesed License Law Now in Effect

Many automobile owners are of the opinion that the law increasing the license on motor vehicles is included and made a part of the \$6,000,000 road bond bill. In this they are wrong.

The automobile license was doubled in the motor vehicle law, which was enacted by the last legislature. It is now a law. The increased automobile license will be in effect and will be collected regardless of whether or not the road bond bill is approved by the voters at the June election.

Furthermore the motor vehicle law contains a provision that the money raised from automobile licenses shall be available for road construction under the plan outlined in the \$6,000,000 road bond bill if the bond bill carries.

In other words, if the road bond bill is defeated, the automobile license money may be used for other purposes. If the road bond are approved, the automobile owner has the positive assurance that the money derived from the increased automo-

bile licenses will be expended in the building of good roads.

The automobile owner will have to pay the increased license any way, regardless of the fate of the \$6,000,000 road bond bill.

A vote for the road bond bill by the automobile owner is a vote for the expenditure of the automobile license money, which has to be paid anyway, in building a system of state wide permanent highways as outlined in the road bond bill.

In voting for the road bond bill, the automobile owner will simply pave the way for the expenditure of license money that he will be required to pay, in building serviceable hard-surfaced roads in all sections of the state.

Every automobile owner is directly and personally interested in the road bond bill. In voting for that measure he will merely be asking that the money he will be required to pay anyway be spent in building roads. The automobile owner has everything to gain and nothing to lose by voting for the road bonds.

Died.

Gustav Nygren, 61 years old, of Brownsboro, died at a local hospital Sunday morning, May 6, from an operation for gallstones. He was a native of Sweden and had resided in Jackson county since 1906. He is survived by a wife and five children, Eric C., Frank G., Carl W., and Alice and Anna. Mr. Nygren was a member of Canton No. 9 of the Woodmen of the World, of Medford. Funeral services in charge of the W. O. W. were held Tuesday afternoon at 2:30 at the grave in the Brownsboro cemetery.

S. A. Hawks suffered a peculiar accident in which one of his fingers was almost torn from his hand Tuesday evening. He was driving a light rig and leading a cow. At the foot of Wimer hill some boys on a coaster wagon ran into the cow, causing it to jerk back and twisting the finger almost off with the rope.

Worth Looking At

Real Estate That Has Real Value

If you do not own your own home, let us show you one of these:

Three acres of choice land, well located, close to the heart of town, good six-room house; \$2,700. Terms.

Two good hard-finished dwellings on B street, good sized lots, at a bargain. Will sell one or both. Assessments paid.

Here and There Among Our Neighbors

The Eddyville pool of 1917 mohair was offered for sale Tuesday, and the only bid was for 66 1-2 cents. This was refused, the lot being held for 70 cents.

Benton county will have no official county fair this year for the reason that the fair grounds will be plowed up and planted to food products in an effort to help the shortage.

Eugene reports but one arrest for intoxication during the three months the dry law has been in force. During the same period, when the neighboring town of Springfield was wet and the road good there were 63 such arrests.

Applications for school loans are now being received at Salem by G. G. Brown, clerk of the land board. The board expects shortly to take up about \$100,000, which is the amount of the school land funds on hand.

The county court of Douglas county has approved the petitions signed by about 1750 resident asking that the voting of bonds in the sum of \$350,000 for building roads be submitted to the voters at the June election.

Samples of rock from a nitrate field said to cover 3800 acres in Lake and Harney counties, have been taken to Bend by residents of Burns, who have located claims on the tract. They state their intention of organizing a company for the exploitation of the deposit.

Soldiers of the Third Oregon Infantry who are on duty in the state on June 4, may vote on measures affecting the state, according to an opinion rendered by Attorney General Brown. Governor Withycombe has advised Colonel May, commanding officer of the regiment, of this opinion.

Jacksonville Post—A large donkey engine for use in the logging camp of the Applegate Lumber company, was brought from Butte Falls this week. It arrived here Friday evening and is being moved to the timber at the head of Jackson creek where operations will begin in a few days.

Harrsburg—Z. T. Scott, a pioneer of this city, known as "Dad" Scott, was run over and killed by a north-bound Southern Pacific passenger train here Monday morning. He was deaf and evidently did not hear the train. A widow and daughter survive.

The catches of salmon made by gillnetters of Astoria on the opening day of the season, while not exceptionally large, were most satisfactory. A few deliveries of as high as 800 pounds were made, and the average was about 200 pounds to the boat. This at the ruling high price of 10 cents per pound netted the men good returns for the day's work.

The new bridge built by the county over Evans creek, about one mile south of Wimer, was completed this week and on Wednesday was thrown open to traffic. The new structure is a long needed improvement and is of great benefit to the public. The approximate cost of the bridge is about \$1500. It has two spans of 40 feet, one of 64 feet and one of 20 feet.

John Sidney Montgomery, Oregon pioneer of 1853, died at the home of his son, Al Montgomery, at Springfield, Sunday, after a illness of six weeks. He was 80 years of age and a native of Schuyler county, Mo. On coming to Oregon, after crossing the plains with an ox team, he settled in Cottage Grove, where he made his home until recent years.

Medford Mail—Joseph Sorrell, who is developing his copper claims at Taklima, near Waldo, and who has been visiting his daughter, Mrs. M. Allen, in this city, left Thursday for the mining property. He says there is considerable mining activity in the Taklima and Waldo districts, and that Twohy Bros. have 25 teams hauling ore from their Queen Bronze mine to the nearest railroad point, from where it is shipped to the smelters.

Klamath Falls Herald—Klamath county can have a beet sugar factory next year, and the Utah Sugar Beet company is preparing to put it down in writing, if the farmers of the county this year demonstrate that sugar beets may be grown profitably here and will guarantee 5000 acres of land for the industry next year, is the word brought here last night by Alex Nibley, resident manager of this company, now operating a plant at Grants Pass.

Roseburg News—Giving the name of W. L. Saunders, a transient, was arrested in this city yesterday when he attempted to pass through in an automobile containing two cases of Rainier beer, seven bottles of whiskey, a quart jugful of rye, two bottles of gin and one bottle of Manhattan cocktail. The fact that he was carrying high class goods was all that saved him from a heavy fine and he was allowed to depart after a fine of \$75 had been imposed and the wet goods confiscated.

Roseburg Review—Returning to this city after a trip of several weeks in duration, Deputy Game Warden Orin Thompson reports that the deer in Douglas county are much more plentiful this year than they have been for many seasons. He has traveled all through the southern and southeastern parts of the county, going far back into the mountains where he found three and four feet of snow at many of the favorite hunting places, but in all localities he found evidences that deer were extremely plentiful while those coming within his range of vision were seemingly in the best of condition.

Salem Journal—The permanent partial claim of A. Brizities, of Portland, who suffered the loss of 75 per cent of the function of a leg by an injury on August 29, 1914, while employed by Porter Brothers-Grant Smith, has been adjusted by the industrial accident commission. His age was 45 years and his expectancy eight years. This would expire in August, 1922. The commission set aside for him the total sum of \$2400 which is deducted the amount already paid him or the sum of \$1,537.50, which leaves him \$862.50. This will be paid in monthly installments of \$25.

There is a sad prune story coming from Roseburg. It seems that last fall when so many of the prune growers were feeling mighty fine over the big crop, a newspaper man came and interviewed them. Of course, the value of their orchards went up considerably and the owners did not hesitate to tell of what they were worth. But it just so happened that a cruel assessor clipped the prosperity story and when assessing instead of accepting the usual hard times story, just took his figures from the prosperity story. Moral: Tell the newspaper men the exact truth only.

Roseburg News—News was received here this morning to the effect that the government will soon resume the work of classifying the Oregon & California grant lands preparatory to throwing them open to entry. A part of the lands were classified last summer but the work was suspended late in the fall because of disagreeable weather. In the event cruizers are available the task of classifying the lands will probably be completed by August 1. Several thousand acres of the lands are located in Douglas county. Local land of-

FEWER PEOPLE GROWING OLDER

The Public Health Service reports that more people live to the age of forty years to-day, but from forty to sixty years mortality is increasing from degenerative diseases. Thousands of well-informed men and women to-day are learning the true value of

Scott & Bowne, Bloomfield, N. J.

Refuge officials are of the opinion that the tracts will be thrown open to entry some time during the next six months.

According to Parole Officer Keller, of the Oregon state penitentiary, the total earnings of paroled prisoners since July, 1915, has been \$138,119.31. The average earnings of the 266 men out on parole from the penitentiary during the month of March was \$42.48, and the total of all was \$11,134. Out of the 392 men out on parole one violated the parole by committing a crime, and four violated the parole by failing to report. From May 26, 1911, to March 1, 1915, the percentage of parole violations was .3611 per cent, while from March 1, 1916, to March 1, 1917 the percentage has dropped to .2890 per cent.

Friday Community Day at Central Point

Friday afternoon, May 11, has been set aside as community day for the citizens of Central Point and the adjoining districts. Every man, woman and child in the community is requested to bring a basket and come to the school grounds at noon and take part in an old-fashioned picnic dinner.

Groups of persons may plan to picnic together or each bring their individual lunches. Golden West coffee will be served free. Bring your own sugar and cream. The school fair in which every pupil has an exhibit will begin immediately after dinner. Prizes to be awarded in all grades. Come and see what your boys and girls can do. A school track and field meet will be held at 3:30. Come and picnic with your friends

Boiling Points Determine Quality of Gasoline

"Then I might just as well throw my gravity hydrometer away?"

"You said it, Mr. Motorist."

"Listen, the boiling points of gasoline absolutely control its starting qualities, accelerating qualities, power-giving qualities. Gravity has nothing to do with it."

"To get the most out of your motor, your gasoline must have the correct series of boiling points in a gradually rising, unbroken chain—low boiling points for easy starting, medium boiling points for quick and smooth acceleration, high boiling points for power and mileage."

"And only straight-distillation can give this. No mixture can embody all the hundreds of intervening fractions necessary for a perfect motor fuel."

"To be certain of straight-distilled, unmixed gas, buy
