

Gold Hill Notes

Forest Ranger Frank Childers, who left here last Wednesday for LaPine, Crook county, with his Ford, returned here Saturday. He reports that he found the roads over the mountains impassable and was compelled to return and attempt it later. His wife and infant son accompanied him on the trip. They will be stationed at the lookout quarters at LaPine for the summer.

H. H. McCarthy, the well-known mine operator, was here the last of the week on business matters. He was accompanied by A. W. Bartlett, late of the Ashland mine. McCarthy has a lease on the North Pole and Lucky Boy group of quartz mines opposite Rogue River, on the south side of the river. He reports that he is installing a 15-ton capacity mill, operated by electric power on the property.

Mrs. A. L. Harvey, formerly of Gold Hill but now of Ashland, was here visiting friends during the past week. She was accompanied by Miss Opal Harvey, daughter of W. Harry Harvey, formerly of this city, now residing at Klamath Falls.

W. E. Thompson of this city and W. W. Eddington of Sams valley jointly shipped 4,000 pounds of milling wheat to Portland last week, selling at the market price.

Miss Ruth Cady, one of the Gold Hill high school teachers, who was compelled to leave for her home at Forest Grove, seriously ill, returned last week fully recovered and will resume her duties.

J. W. Herron of this city, who left last week to visit his son, William Herron, of the United States navy, stationed at Mare Island navy yard, returned Wednesday, accompanied by the young man.

William Herron, formerly of this city, enlisted some time ago in the marine corps. His connection with the navy reserves, in which he won honors in 1912, receiving a medal for rifle marksmanship, stands him in

good light with his superiors. In competitive examination he is again a winner, having been promoted to the rank of corporal. He returned with his father on a ten days' furlough, to greet his many friends in this city, and will leave to take up his duties as a drilling officer at Mare Island.

Roy Avery formerly of this city, a naval recruit from Portland, greeted his mother, Mrs. Mae Avery, of this city, at the depot at this place last Friday as he was passing south on the morning train. He reports that he is promised an assignment to the Atlantic coast.

Mr. and Mrs. John W. Short and two sons of Footh Creek were Gold Hill visitors last Saturday. They report a very disastrous frost occurred on the creek last Friday morning. The fog which prevented damage, on the river did not cover that district.

H. H. Leonard, the Gold Hill plumber, is engaged at the Champlin farm, at the junction of Rogue river and foots creek, in reconstructing the water sewerage system on the premises.

David Forbes, formerly of this city, is here from Los Angeles, visiting friends, after an absence of two years.

Many Would Serve in Forestry Regiment

Since the news was published that the war department would organize and equip a forestry regiment for early field service in France, Supervisor M. L. Erickson of this district in common with other forestry officers throughout the county has received many inquiries from prospective applicants. Supervisor Erickson Tuesday received the following information about the proposed regiment from G. H. Ceil of Portland, the district forester:

"A regiment of men for immediate service in France will be organized by the forest service under the direction of the war department. This regiment is planned to assist in forest work in France, and will also conduct logging and milling operations. Portable mills probably will be used as they can be quickly taken from place to place as need develops or as supply of logs requires. The regiment will be comprised of foresters, logging engineers, experienced woodsmen, loggers, and men of similar experience and training. This body of men will form a unit of the engineers' corps of which the railroad workers are a part.

"Particulars will follow as they are received.

"Kindly advise all technical foresters, loggers, woodsmen, portable sawmill operators and others having experience in lumbering that while details of the proposed organization have not been received, the district office will keep applicants informed of developments, and preliminary blanks for statement of qualifications to serve in this regiment can be obtained in application in person or writing to the District Forester, Portland, Oregon."

Organize Good Roads Campaign

Medford good roads enthusiasts have organized for a whirlwind campaign of the valley in the interests of the \$6,000,000 bond measure. A flying squadron of speakers has been selected and will visit the various rural communities of the valley and hold meetings.

A list of speakers has been arranged and from them two or three will be selected to do the talking at each of the meetings.

Four acres of national forest range will support a sheep and fifteen acres a cow or horse during the grazing season in Oregon and Washington.

Big Reductions On Bicycle Tires

What have you got to sell? Let us sell it for you, anything you have.

Urges Employes To Buy Bonds

President J. D. Farrel has just received the following telegram from Judge Robert S. Lovett, chairman of the board of directors of the Union Pacific system, which may be construed as evidence of that institution's anxiety to encourage the people by example to rally to the nation's financial aid as well as military aid.

"I trust that every man and woman in our organization intends as a patriotic duty to subscribe to the 3 1/2 per cent liberty loan about to be issued by the government to carry on the war.

"The loan must be made a conspicuous success, and to enable every employe to participate in this patriotic purpose the company will upon the request of any such employe make subscription for his or her account to an amount of bonds not exceeding 25 per cent of the employe's yearly salary, and will advance the whole

subscription price charging interest at the rate of 3 1/2 per cent per annum, being the same rate borne by the bonds and holding the bonds as security for its reimbursement. The amount advanced by the company will be payable by the employe so long as in the service with a minimum of \$5 per month, such installment to be deducted from the wage payments.

"It is earnestly hoped that employes will not limit their subscriptions to merely the amount advanced by the company, but in addition will subscribe to the extent of any funds they may have available. The Union Pacific has itself subscribed for \$5,000,000 of these bonds and it is hoped that every one associated with it in any capacity will join in supplementing this amount."

It is estimated that the 31 miles of Pacific Highway in Linn county can be graded and drained for \$7,000.

The Morrow ranch near Pendleton has been sold on trade at \$105,000.

Heavy Fine For Salmon Seller

Bert Rippey of Tolo was arrested Friday by District Fish Warden Ed Walker charged with selling salmon without a license. Rippey was given a hearing before Justice Taylor at Medford and entered a plea of guilty. As the defendant has been a frequent violator he was given a fine of \$100 or 25 days in jail. If the fine is not paid Rippey will be sent to jail to serve his sentence.

Claim Referendum Copies Stolen

Because some one stole copies of the referendum petition bearing the names of several thousand Oregon voters from the office of Attorney John Veatch of Portland last Saturday night, the three-year office act for directors of public schools of the first class went into effect yesterday. Had the rolls not been taken and the petitions filed Saturday night, the law would have been void at least until November, 1917, when the voters of the state would have decided its fate.

The names of more than 1000 Eugene voters were attached to the petition asking that the law be stayed. These were taken to Portland by W. R. Rutherford, city school superintendent. They, along with those from Portland and many other parts of the state, were in the office of Attorney Veatch Saturday evening when Mr. Veatch went out for dinner. When he returned several copies of the petition were gone. The result was that petitions bearing the names of 14,000 legal voters could not be filed at Salem Saturday night, although Secretary of State Ben Olcott was at his office until nearly midnight.

"The count Saturday evening showed that we had a few more than the required 14,000 necessary names to keep the measure from going into effect," said Superintendent Rutherford, who returned to Eugene yesterday. "But when several copies of the names were stolen nothing further could be done."—Eugene Register.

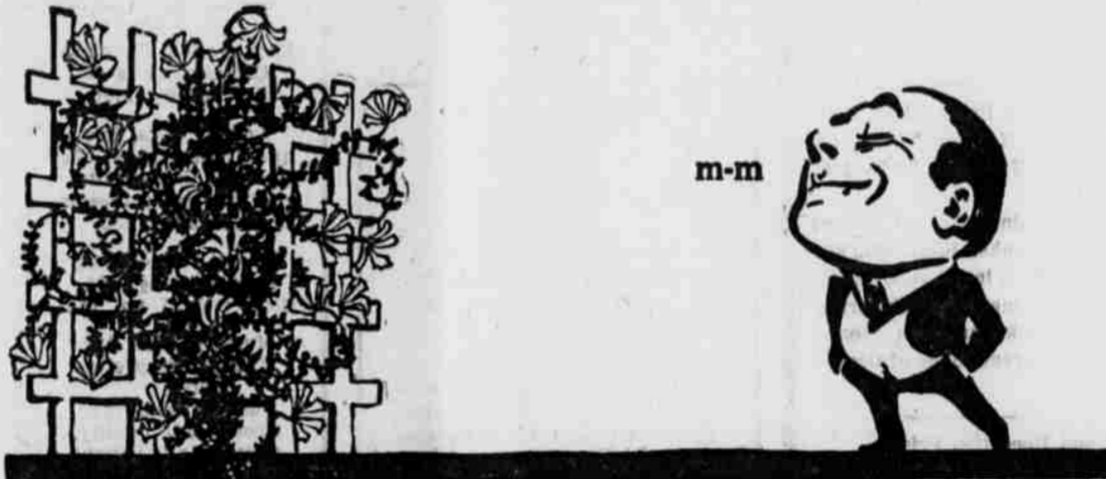

Will Dedicate Church Addition

The new addition to the Talent M. E. church will be dedicated next Sunday morning at 11 o'clock. The pastor, M. C. Reed, will be assisted by Rev. H. J. Van Fossen, district superintendent, Mayor Lamkin of Ashland and others. The new addition consists of three rooms perfectly modern in every way, which makes this one of the most up-to-date and modern churches in the valley.

SUGGEST OF A NEW REMEDY FOR BACKACHE, KIDNEYS, RHEUMATISM.

Dear Mr. Editor—I suffered for years with backache. Last March I tried "Anuric" and have used this new kidney medicine recently discovered by Dr. Pierce, and it was wonderful the way it eased the pain and gave me relief in such a short time. I have tried several medicines, but "Anuric" is the only one that gave satisfaction. I feel it my duty to recommend "Anuric Tablets" to any one who suffers as I did.
(Signed) MRS. MARGARET E. STIDER.

NOTE: Folks in town and adjoining counties are delighted with the results they have obtained by using "ANURIC," the newest discovery of Dr. Pierce, who is head of the INVALIDS' HOTEL and SURGICAL INSTITUTE, in Buffalo, N. Y. Those who started the day with a backache, stiff legs, arms and muscles, and an aching head (worn out before the day began because they were in and out of bed half a dozen times at night) are appreciating the perfect rest, comfort and new strength they obtained from Dr. Pierce's Anuric Tablets. To prove that this is a certain uric acid solvent and conquers backache, kidney and bladder diseases and rheumatism, if you've never used the "Anuric," cut this out and send ten cents to Doctor Pierce for a large sample package. This will prove to you that "Anuric" is thirty-seven times more active than lithia in eliminating uric acid—and the most perfect kidney and bladder corrector. If you are a sufferer, go to your best druggist and ask for a 50-cent box of "Anuric." You run no risk for Dr. Pierce's good name stands behind this wonderful new discovery as it has for the past half century for his "Golden Medical Discovery," a general tonic made from roots with pure glycerine which makes the blood pure, his "Favorite Prescription" for weak women and "Pleasant Pellets" for liver ill.

HOW do you know where the honeysuckle grows?

"Your Nose Knows"

and with equal certainty your nose knows good tobacco. Pure fragrance is the soul of things. A tobacco with a satisfying, pure fragrance will prove a smoke with a soul.

Such a Tobacco is

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Made, as it is, from an expert blending of rich, ripe Burley leaves, grown in the sunny "Blue Grass" section of Old Kentucky, TUXEDO has a pure fragrance that is all its own.

Try this Test: Rub a little Tuxedo briskly in the palm of your hand to bring out its full aroma. Then smell it deep—its delicious, pure fragrance will convince you. Try this test with any other tobacco and we will let Tuxedo stand or fall on your judgment—
