

## Wild Game Photographer Coming to Chautauqua

Chauncey Hawkins Has Wonderful Lecture and Pictures of Northern Woods

CHAUNCEY HAWKINS.

**C**HAUNCEY HAWKINS is a name familiar to most of the boys of this country, being the author of the well known "Ned Brewster" series of boys' books. He has also written several other books which are important contributions to our American literature.

Hawkins, however, is not only widely known as an author and lecturer, but also as one of the most adventurous and successful wild game photographers in America. He is bringing to Chautauqua a great lecture; "Wild Hearts and Bright Eyes of Our Northern Woods," illustrated with some of his wonderful pictures taken in the great solitudes of the North.

### Bellevue Notes

While at work on the Chautauqua building, Joseph Randles had the misfortune to fall and break two or three of his ribs. The scaffolding on which he was standing gave way. The Sunday school picnic last Friday was well attended and a very enjoyable affair. After a bounteous dinner, races and other stunts were pulled off and prizes awarded. Burro riding was also one of the features of the day.

The annual school meeting occurred Monday evening, June 18. C. A. Brown was elected trustee for three years and Mary Homes Tucker clerk for one year.

Merritt Randles has been entertaining the mensles the last few days. Bessie Homes is at home after completing a successful term in the Upper Soda Springs school.

Bon Buchanan and David Whittle of Ashland are thinning fruit in the Sunset orchard, now owned by Mr. Ignatius.

The J. L. Miller family entertained friends from California several days last week, whose names we failed to learn. They were touring the country by automobile.

F. N. Snyder and Mr. Byers have been helping Mr. Ignatius with his haying.

Mrs. Will Grubb and children of Ashland spent a few days last week with her sister, Mrs. Charles Homes, at the normal.

Gladys Kenyon of Ashland visited Ruth Fifield last Thursday.

Among the thinners in the Briggs-Liszt orchard we note Mrs. F. N. Snyder, Marguerite, Mabel and Cecil Moore, and Harry and George Farmer.

G. H. Grover of Medford, principal-elect of our school, was in the neighborhood Saturday on business. We expect to have something very interesting regarding Mr. Grover to tell next week.

Bess York was down from the Chapman ranch and spent the weekend with the home folks.

Mr. and Mrs. Peter Murray and their guest, Mrs. Wilson, of Medford, spent last Saturday picnicking in Ashland park. Mrs. Wilson returned home that evening.

Mr. and Mrs. E. E. Miller of Ashland, accompanied by their son-in-law and daughter, Mr. and Mrs. Hamilton of California, were Sunday evening callers at the J. E. Gowland home.

Mr. Young had the misfortune to have a two-year-old heifer shot in the head, just below the horns, with a 22-calibre bullet. The animal is living. Such carelessness with firearms is very serious.

Miss Bessie Homes, in company with three other young ladies of Ashland, took an automobile trip Monday down the valley as far as Williams, in Josephine county, covering 140 miles in all.

Guy Randles is staying at the home of his grandfather, William Beagle, during his brother Merritt's illness, in order to avoid the quarantine and thus continue his work on the Chautauqua building.

R. A. Pierce and son Glenn of Central oint were visitors Saturday at the J. C. Barnard home. The son is

on a furlough from the navy yards. C. M. Thomas and Mr. Dillard, engineer of the irrigation district, were at Bellevue Monday evening talking over irrigation matters.

Mrs. Charles Swartzfager, a former resident of this neighborhood, is reported as much better of late. Her many friends will be glad to learn this.

Mrs. S. J. Evans expects to spend the day Thursday in town, assisting with the Red Cross dinner.

Nita Barnard is assisting at the Bungalow in the park these days.

### Must Dim Lights When Passing

Every automobilist who fails to dim his lights when meeting another machine on a county road will be arrested.

Beginning Saturday night, the county roads will be patrolled by officers, and all autoists who violate the new state law with regard to glaring headlights will be arrested.

Also the law prohibiting the passing of machines on curves will be enforced.

Still another section of the new law which drivers must remember, if they do not want to be arrested, is that they are not permitted to coast down hills, particularly on roads where there are curves, and that they must at all times keep to the right and have their cars under perfect control.

The new state law governing automobile driving and highway traffic generally is now operative, and the officials of the counties of the state are preparing to see that the various sections are observed. The law is designed for the safety of the public and to protect people from reckless, careless or amateur drivers. Among the things to be observed is the keeping of cattle off the highways.

### Commercial Club Chautauqua Com.

At a meeting recently of the trustees of the Commercial Club it was decided that in order to assist the Chautauqua Association this year in a financial way, a committee be appointed to solicit all the business houses for the sale of 1917 season tickets. The following have been appointed as such committee, and they will have their first meeting on Saturday evening at 8 o'clock: O. F. Carson, W. W. Caldwell, A. M. Beaver, W. D. Hodgson and Irving Findley.

Private B. Hall of the 8th Reserve Engineers lost a valuable note or pocket case which contained a list of addresses very valuable to the owner, who is going to France, near the station in this city while passing through recently, and writes from American Lake asking that the finder send it to him. The case is about two and a half by five inches in size and of black leather. The finder should address it to Private B. Hall, care of 8th Reserve Engineers, American Lake, Wash.

Why should you bother to have your silk dress made until you have first seen our wonderful line of ready-to-wear dresses? All colors, all sizes, all prices.

You'll see many evidences here now of the extreme efforts we've put forth to make this store's ready-to-wear win your decided preference

### S. P. Men on Way to France

The contingent of army engineers that passed through Tuesday on a special train numbered 177 men and comprised a detachment of the 8th regiment of reserve engineers of the Southern Pacific. They will soon go to France to construct railroads to be used during the war. Of these, 97 are from Los Angeles and 80 are from San Francisco. They were entertained at San Francisco and were en route to American Lake, where they will spend a few weeks in training at the large army training camp there.

The cars were very liberally decorated with artistic signs, and upon their appearance in the city created much interest and excitement. The spirit of the regiment was appropriately shown by such signs as "We're the Kaiser's Goat Getters," "Going to France," "Berlin or Bust," "Bring on Your Kaiser," "Bound for France" and other expressions of like nature, that embellished the sides of the cars in great white lettering.

The men were under the command of Sergeant L. A. Romlen, and had among their members several who had won marked distinction in the railway service. Of these were Major J. W. Williams, in the service of the Southern Pacific for over ten years, who had charge of the work on the Natron cut-off east of Eugene, a difficult engineering feat, and Adjutant-Captain Resinger, a West Point man, who resigned from military service in 1899 in order to become superintendent and general manager for the engineers of the Arizona and New Mexico railway system.

### Army Y.M.C.A. Fund Being Swelled

Latest reports from national headquarters show \$2,705,988 subscribed by 34 states, Michigan \$120,000, Indiana \$97,791, Texas \$39,700, Wisconsin \$48,000, Ohio \$224,000, New York \$783,915, California \$60,000.

The early sending of troops to France will call for \$500,000 in addition to the \$3,000,000 for sending secretaries and equipment. It is important therefore that each community raise an amount well in advance of the original goal.

Fifty experienced Y. M. C. A. secretaries have responded to the urgent invitation of the Red Cross to help in directing their nation-wide campaign the latter part of June. L. L. Pierce, general secretary of the San Francisco association, is directing the campaign for all states west of the Mississippi river. H. W. Stone, general secretary of Portland, will direct the work in the northwest.

On account of the Red Cross campaign all local committees are urged to complete the canvass for Army Y. M. C. A. by June 15.

Umatilla county, Oregon, campaign is on this week. Goal has been set for \$2,500, but it is expected that \$4,000 will be raised. Now comes Wendell, Idaho, and after being duly sworn says that Shoshone and Dufur are cheap skates. With a population of 450 they have raised \$512, or at the rate of \$1,138 per thousand population. They expect to make \$600 and over.

Percy Stratton, who has been working in Coos county for a number of months, expects to be home soon with his family, on East Main street.

### Classified Advertisements

TOO LATE TO CLASSIFY.

PEOPLE BUY ADVERTISED things—real estate included—in preference to things which are sold without the full light. If you can offer desirable real estate values you can interest real estate buyers. There's no need to "sacrifice" your property—FOR YOU CAN SELL IT FOR ITS REAL VALUE.

Second Lieutenant Millard Grubb of the 1st company returned Wednesday morning from Eugene, where he took the officers' examinations. First Lieutenant Don Spencer remained to attend a meeting of the officers of the Coast Artillery.

L. G. Grieve has arranged a most effective Red Cross window in Vaupel's store, one which is attracting a great deal of attention. A dummy figure of a Red Cross nurse stands over a cot. A Red Cross tent in the background and other equipment add to the realistic appearance of the window.

Chief of Police Atterbury and Mayor Lamkin were hosts to the children of Ashland at the Vining theatre Tuesday afternoon and evening, and a theatre full of youngsters enjoyed the specially arranged program both afternoon and evening. The Ashland band furnished music prior to the evening show.

Medford Sun: John S. Trimble, formerly a brakeman on the Southern Pacific line on this division, but lately a resident of Michigan, left the latter place soon after suffering considerable loss in the recent cyclone trouble and finally found that a strong inclination to return to this valley had landed him in Medford, although he started out to find a location on Puget sound. Mr. Trimble is visiting with friends in this vicinity and may conclude to send for his wife and boy and remain here. 9-2t
