

BROOKINGS MAINTAINS HIGH LEVEL OF LIVING AND EMPLOYMENT CONDITIONS

Brookings, Ore.
To the Public: On account of the many letters we have been receiving from parties in this and other localities, we have deemed it best to set out in an open letter the conditions of living, employment and recreation that surround the employes of this company.

Location, Climate and General Surroundings.

The town of Brookings and the manufacturing plant are located on a plateau about 100 feet above ocean level and running from the shore line back about three-quarters of a mile. Unlike most sawmill towns, the site is rolling bench land, free from stumps and slashings. The climate is mild. Snowfall is a rarity, and during the summer months the weather is that of a beach resort. In the winter the temperature is moderate.

The view of the ocean, beach and surroundings is beautiful.

A good public school is provided for all grades; moving picture theatre with a seating capacity of 200 with two weekly shows; general store carrying a large stock at reasonable prices; also a well-equipped hospital is provided for employes and families, and is in charge of a first-class physician and surgeon with trained nurse in attendance.

Living Accommodations.

For single men there is a large hotel provided with showers and other facilities, with table board that is unexcelled in its line.

In addition, comfortable bunk houses are provided to take care of excess of single men over and above the accommodations provided in the hotel. Rate of board \$6.25 per week, lodging 50 cents and up, according to accommodations.

For married men comfortable houses are provided, with rents ranging from \$6 per month and up, according to type selected; water, light and wood extra at nominal rates.

usually prevailing in municipalities of like character.

Wages and Working Conditions.

The minimum rate for common labor is \$3 per day of ten hours at the present time in all departments, with usual advance above this rate for responsible positions.

The company operates a sawmill, logging camp, railroads, wharves and shipping; runs its own line of steamers to California points.

Requirements Applicants Must Fulfill.

No man over 50 years of age will be employed.

Before entering our employ each and every applicant will be obliged to pass an examination by the company's physician and satisfy him as to physical condition.

Married men must work for the company at least 30 days before they will be permitted to bring their families, in order that both parties may be satisfied as to conditions and ability.

No liquor is permitted in the town; parties found intoxicated will be summarily discharged.

General.

We desire to build up a community of sober, thrifty, industrious men with families, and such will be given the preference in the matter of employment at all times.

There is plenty of continuous employment here for a large number of active, sober men in practically all classes of work, and any parties meeting these requirements can feel assured of employment on reporting here.

The company invites correspondence from parties interested, and further information can be obtained from M. Jordan and other stage operators at Grants Pass or F. G. Lung, Medford.

This point is reached by auto stage from Grants Pass via Crescent City, at the present time consuming about nine hours for the trip.

C. & O. LUMBER COMPANY.
Adv. 11

Gold Hill Notes

(By A. E. Kellogg.)

Dee Horn, Ed Shoemaker and Buck Horn, who are employed at the Buzzard mine in the Elk creek district, spent the Fourth with home folks.

Lester Parker returned from the Prineville country, where he has been employed the past two months.

Bert Kellogg, formerly of this city, now engaged in the garage business in Portland, spent the past week in the valley, and will return to Portland Sunday evening.

Mrs. D. H. Miller and Mae Avery were Medford visitors Friday.

Mrs. Laura Hammersly, who is employed at the Logan placer mines near Kirby, spent the Fourth with friends in this city.

Jerry Gibson, foreman at the Chisholm mine in the Meadows district, spent the Fourth in Gold Hill, returning to the mine Friday.

Mike G. Womack, the Medford mine operator, was in Gold Hill Wednesday looking after his mining interests in this district.

John McClendon and John Wybark of Loveock, Nev., arrived this week in Gold Hill for a month's stay with their grandparents, Mr. and Mrs. C. C. McClendon of this city. John McClendon is a grandson of Mrs. Ogden Snyder of this city, and will divide part of his time at her home while here. Both of the youngsters were former residents of Gold Hill.

George Iverson, our local baker, spent four days in Ashland during the Fourth, as head baker at the Vienna bakery in that city. While in Ashland he shipped bread from there to supply his bakery in Gold Hill.

Among the Gold Hillites employed at the new power site at Copco, on the Klamath river, seventeen miles above Hornbrook, is E. R. Eaton, Ben Filippin, Ray Eaton and William Filippin.

William F. Blackert, proprietor of the Gold Hill meat market, and Miss Nina B. Sharpe of Flint, Mich., were married at Jacksonville Thursday. The bride has been engaged as a teacher in the Portland public schools the past six years, and is a cousin of Mrs. E. T. Simmons of Gold Hill.

The groom is a native of Jacksonville, where his father, William Blackert, was engaged in business for a number of years. The young newlyweds are domiciled in the Myrtle Day residence on Fifth avenue north in Gold Hill.

Made a Fine Record

Albany Democrat: Miss Mildred Hughes of Lebanon has a record of which she may well be proud. She attended the public schools of that city for 12 years without having missed a day and was never tardy in her life.

The thirteen tree nurseries maintained by the forest service have an annual output of ten million seedlings, which are used in reforestation work in the national forests. This is sufficient to plant 15,000 acres, spacing the trees eight feet apart in each direction.

The A. H. Carnahan family will camp in the grove during Chautauqua in order to enjoy all sessions.

WHY, THAT WAS RESIDENT ANDREW JACKSON'S FAVORITE CHEW

OLD HICKORY WAS MIGHTY PARTICULAR ABOUT HIS TOBACCO

Forest Regiment Enlistment Begun

District Forester George H. Cecil of Portland, Oregon, announces that the actual enlisting of woodsmen and mill workers for the 10th reserve engineers (forest) began Monday, July 9. Enlistment will be for the period of the war.

Men wishing to join the regiment should apply to the district forester, Beck building, Portland, or to one of the following, who are assisting in the enlisting work:

Forest Supervisor Seltz, Eugene.

Forest Supervisor Erickson, Medford.

Men recommended by one of these listing officers go to any U. S. army recruiting officer, where they are accepted as recruits if they pass the physical examination, which is the same as that required for other military service.

Recruits must be white, between the ages of 18 and 40 years, and must be citizens of the United States or have declared their intention to become such.

Men subject to conscription will discharge their obligation by enlisting in this regiment. All applicants should understand that this is a military organization; that they must undergo the customary drill and discipline of United States soldiers, and that they may be called upon to do work within the danger zone.

Picked woodsmen will compose the regiment—men who will be given a chance to take the part in the war for which their life and training have fitted them. Although listing has been going on for two weeks, the district forester states that there is still room for experienced loggers and millmen. Places are open for skilled axmen, sawyers, tie hewers, skidders, teamsters and blacksmiths. Millwrights, sawyers and engineers are needed to man portable sawmills which will form part of the equipment; helpers are required for the various activities connected with the woods operations and the maintenance of large camps.

After enlisting the men will be fed at government expense, and will be furnished uniforms and regular military equipment, and in addition will be paid according to a fixed scale the lower scale to apply while training in this country, the higher scale after they reach France. The rate of pay has been fixed as follows:

Grade—	U. S. Service	Foreign Service
6 first sergeants	\$51	\$60.00
18 sergeants, 1st-class	51	60.00
1 sergeant, bugler	48	51.20
50 sergeants	44	51.20
6 stable sergeants	44	51.20
6 supply sergeants	44	51.20
6 mess sergeants	44	51.20
2 color sergeants	44	51.20
19 Cooks	38	44.00
108 Corporals	36	40.80
6 Saddlers	36	40.20
37 Wagoners	36	40.20
186 Privates, 1st-class	33	40.20
558 Privates, 2nd-class	30	33.00
12 Buglers	30	33.00

The regiment will be made up of six companies of 164 men each, aside from battalion and regimental staffs, drivers, and commissioned officers. It will be sent overseas as soon as organized, trained and equipped. It will first be assembled at two training camps, the regimental headquarters and one battalion at the American University, Washington, D. C., and one battalion at Fort Leavenworth, Kansas.

County Recorder Fully Recovered

County Recorder Chauncey Florey, who was accidentally thrown from the running board of an auto while assisting in the pursuit of John Ragsdale when the latter escaped from the county jail, has entirely recovered from the accident and is on duty again in his office.

Nearly one half of the population of Oregon obtains its drinking water from the national forests of the state.

C. R. D. Jones, whose railroad work calls him to California most of the time, enjoyed a visit with his family on Mountain avenue Tuesday.

Bellevue Notes

Mrs. F. W. York, who has been ill for some time, is improving, we are glad to say.

W. H. Byers has been absent several days on a business trip to Canada.

Thomas Rogers, who has been employed at the F. H. Mann orchard, left Saturday for Washington.

Haying and cherry-picking are now the order of the day, and provide employment for many hands, several from town coming out to lend their assistance in these lines.

The Saylor Bailey home was gladened Sunday morning by the arrival of a second son, weight 8 3/4 pounds.

Mrs. C. I. Homes and Mrs. W. L. Moore were callers at Mrs. S. P. Grow's, near Ayers' Spur, Monday afternoon.

Mrs. Frank Moore and mother, Mrs. McCarthy of Ashland, accompanied by Mr. and Mrs. Russell of Eugene, visited at the S. J. Evans home Friday evening.

Mrs. Ed Gowland was in town Saturday assisting her father, E. E. Miller, in the Vienna bakery.

We are glad to learn that Peter Murray has at last found his horse, which was either stolen or strayed away from home and was gone over a week.

Mr. and Mrs. Boyd Tucker of Trall, who were here attending the Hyju Hehe and visiting relatives, were taken to their home Friday by Mr. and Mrs. W. G. Tucker, who remained until Sunday.

Miss Louise Homes is at the Sanitarium, where she is taking up the

profession of nursing.

Guy and Merritt Randles took a trip up near Crater Lake Sunday.

Miss Ruth Newman of Medford spent several days last week, including the celebration, with the C. I. Homes family, her parents also coming up to spend the Fourth.

Mrs. G. W. Dodson of Ashland and party of friends called at the Gowland home Monday evening.

Mrs. Nellie Dunford of McCloud is here to spend the remainder of July with her sister, Mrs. H. J. Boyd.

HAVE YOU WEAK LUNGS?

Do colds settle on your chest or in your bronchial tubes? Do coughs hang on, or are you subject to throat troubles? Such troubles should have immediate treatment with the strengthening powers of Scott's Emulsion to guard against consumption which so easily follows. Scott's Emulsion contains pure cod liver oil which peculiarly strengthens the respiratory tract and improves the quality of the blood; the glycerine in it soothes and heals the tender membranes of the throat. Scott's is prescribed by the best specialists. You can get it at any drug store. Scott & Bowne, Bloomfield, N. J.

RED CROWN GASOLINE
Easy Starting
A Continuous Chain of Boiling Points
High Boiling Points for power & mileage
Medium Boiling Points for quick and smooth acceleration
Low Boiling Points for easy starting
Low boiling points do it—the first links in a continuous chain of boiling points. Low boiling points for easy starting, medium boiling points for quick and smooth acceleration, and high boiling points for power and mileage.
Red Crown is a straight-distilled gasoline. Hence there's a continuous chain of boiling points, gradually rising from low to high.
Mixtures cannot have a continuous chain of boiling points. That's why mixtures cannot be as good motor fuel as pure straight-run gasoline. And that's also why the gravity test for gasoline is worthless—gravity tells nothing at all about boiling points, the only real test of gasoline quality.
To make certain of getting real gasoline, and not a mixture, fill with
