### PAYS INSTEAD OF TALKS.

Ashland does not often make as much fuss as others about her donations. When called on for contributions to a worthy cause she manages to come through with at least her minimum and almost always more than her apportionment. She just does it and doesn't talk much about it. She oversubscribed her apportionment of Liberty bonds, both the first and last issues. She oversubscribed her apportionment for the Red Cross. Not only did she sign the subscriptions, but she pays them with little fuss or folble. Ashland, Talent and Phoenix contributed to the Red Cross fund \$10,928.91, and up to Monday evening there had been paid \$10,272.41, leaving only \$556.50 still to be paid.

forth the manner in which Liberty loan bonds of the first issue may be converted into Liberty loan bonds of the second issue.

The conversion will require the adjustment of interest and the Treasury Department has devised a method whereby this, in a large measure, may be made without the actual payment of any cash by the holder of the bond to the government or vice versa.

It is well to remember that the date of the second issue of Liberty loan bonds is November 15 and that no conversions can be accomplished prior to that date. Opportunity, however, will be given to holders of the first Liberty loan bonds to deposit their bonds for conversion in advance of the actual date of issue of the second issue.

### Waterproofing the Top.

Double-boiled linseed oil may be used to waterproof the top. The oil should be spread evenly over the fabric with a fine brush. Naturally two coats of the linseed will give better results than one.

### CONVERSION OF LIBERTY BONDS.

Secretary of the Treasury McAdoo has announced that there will be issued by the Treasury Department in the near future a circular setting

## More Men Needed For U. S. Navy

The navy needs 19,409 men this day in the following ratings: Apprentice seamen; machinists' mates, first and second class; coppersmiths; firemen, first, second and third class; hospital apprentices, first and second class (two per month); landsmen for bakers; bakers, second class; mess attendants, third class; landsmen for ships' cooks; ships' cooks, fourth class; landsmen for electricians (radio); landsmen for quartermaster (aviation), who must have experience in cabinet or fabric work so as to know how to repair aircraft wings or pontoons; landsmen for machinists' mates (aviation), who must know how to operate lathe; landsmen for machinists' mates (motor-boats), who only need general knowledge of operation and repair of auto engines. All previous service men entitled to re-enlist.

Of above ratings, landsman for machinist's mate (motor-boat) is exceedingly attractive, as these men are

assembled at Philadelphia and classes of them are to be sent to Columbia and other universities for course in mechanics. They will be used on cutters, patrol boats and submarine chasers. Men for this rating must present themselves at once, as limited numbers are required. Only qualifications required are usual physical requirements and some knowledge of how to operate and repair auto engines or similar gas or marine engines.

Application in person to postmaster requesting him to wire this office for free transportation will bring immediate response. Recruits rejected will have expenses paid while here and be given free transportation home.

### Spare Tire Valves.

Among the necessities when touring should be a supply of tire valves and caps. A slight leak in a valve will cause as much delay as a blow-out. A good valve is often hard to obtain when on the road and considerable annoyance can be avoided by carrying these accessories. A valve tap and die should also be added.

### Collection Services

**B**USINESS men and firms having Notes, Drafts, Bills of Lading, Acceptances and other negotiable instruments for collection on out-of-town parties will find the Collection Services of the First National Bank of great assistance in gaining remittances.
