have been saved. Others will be. Are you going to be among that number? You have no other hope of heaven other than salvation through the blood of Jesus. Meeting every evening at 7:30. Three meetings Sunday, 11, 3 and 7:30. We are not after "joiners." We are evangelizing Ashland. "Come and see."—Dorman D. Edwards, pastor.

**Trinity Episcopal Church.**  
Vicar, the Rev. P. K. Hammond. Holy communion at 7:30 a. m. Sunday school at 9:45. Holy communion and sermon at 11. Mrs. Hockett will sing "There is a Green Hill Far Away," by Gounod. Services will be held every Wednesday at 10 a. m. and every Friday at 4 p. m. during Lent. Strangers and visitors cordially welcomed.

**Christian Church.**  
Bible school at the usual hour, 10 o'clock, on Sunday morning. Preaching at 11 a. m. by the pastor, W. L. Mellinger, on subject of "Prayer," the second sermon in a series of sermons on this subject. Christian Endeavor at 6:30, on the subject, "What My Church is Doing." Leader, Mr. Peachey. On Sunday evening Rev. Tabor of the Adventist church will preach on "The Historical Events Leading Up to the World's Greatest War." All are welcomed to any church service.

**Presbyterian Church.**  
Sunday school at 9:45. Preaching services at 11 and 7:30. Morning subject, "Compassion;" evening subject, "The World War—Why We Are Fighting." Christian Endeavor at 6:30. Prayer service Wednesday night. Choir rehearsal Friday evening. Cordial welcome to all.

**Baptist Church.**  
Rev. W. N. Ferris, minister. Bible school at 9:45 a. m.; O. F. Carson, superintendent. Divine worship at 11 a. m.; sermon by pastor; theme, "God's Call to Immediate Action." It is hoped that every member will hear this message. Young people's

## Griffin Creek Boys Organize Corn Club

Eight boys in Griffin Creek school undertake patriotic work of producing more corn. Under the leadership of their principal, J. R. Tyrrell, these boys have entered the corn-growing project as outlined by the Oregon Agricultural College, and will "do their bit" in producing more and better corn.

The Griffin Creek Corn Club consists of Roy Guches, Woodson Parker, Vernon Guches, Sylvia Hukill, Ralph Bragg, Russell Wilson, Harvey and Wallace Dutton. Mr. Tyrrell says that he believes these boys will be able to demonstrate the fact that increased corn production is worthy of the attention of many farmers in the Rogue River valley, and that with the excellent community co-operation which he is receiving the boys will be able to make a showing really worth while at our county fair next fall.

During the past few years Eagle Point and vicinity has captured a number of valuable prizes at our county and state fairs, and they will endeavor again this year to keep up the good reputation for their part of the county. Miss Verta Grover of Eagle Point secured first place in the open juvenile contest for the state of Oregon last fall with Vernon Owen of Medford a close competitor. These students, with many others in various parts of the county, will enter the race again this year and will do much toward placing Jackson county on the map as one of the favorable corn-producing sections of the Pacific coast.

Corn saved the colonists from famine on many occasions. It was a staple food in the Revolutionary and Civil wars, and will again play an important part in winning the present war. Our boys and girls are performing a patriotic duty in assisting King Corn to come to the front again in the nation's battle with autocracy.

Through the liberality of Delroy Getchell, president of the Farmers' and Fruitgrowers' Bank of Medford, and one who takes a personal interest in boys' and girls' corn club work, those making application for a sufficient quantity of reliable seed corn will be given a sufficient quantity to enable them to comply with the requirements of the O. A. C. Boys are being encouraged to grow their own seed corn, however, as by so doing they can usually grow a more reliable seed, and prices run high where any considerable quantity has to be purchased. Minnesota No. 13 has been a favorite with many and will be grown in large quantities this year.

Application blanks are being supplied teachers from whom they may be secured by those boys needing good seed corn. After filling out the blank for free seed corn, the blank should be sent to County School Superintendent G. W. Ager, who will have charge of distribution.

### INVESTMENT BANKING STUDIED IN PORTLAND

University of Oregon, Eugene, Feb. 7.—On account of the intense interest in bonds and investments aroused through the recent Liberty loan drives, the school of commerce of the University has arranged to conduct a class in investment banking in Portland.

The class will be organized on Thursday evening, February 14, and continue each Thursday evening for fifteen weeks. A large number of prominent business men have already applied for admission.

It is no secret that the Liberty meeting at 6:30 p. m. Special sermon at 7:30 p. m. Music by chorus choir. We most cordially invite you to be present. Strangers always welcome.

Douglas Fairbanks in "The Man From Painted Post," at Vining Tonight.

loan campaigns revealed an astounding lack of information on the part of successful business men regarding bonds and the subject of investment banking generally. This course is to serve as a means of educating business men on these subjects.

Officials of the school of commerce believe that the interest in bonds caused by the Liberty loan will have a large influence in the practice of the investing public after the war. Instead of putting their money into real estate, as has been the custom in the northwest in the past, people are expected to invest more heavily in first-class stocks and bonds.

### FOOD SUPPLY IN EUROPE ON DECLINE

According to the food administration, shortage of wheat in France is becoming more and more alarming each week. The minister of general revictualing indicated recently that a further reduction of 20 per cent in the bread ration would soon become imperative.

Denmark is now looking forward to a reduction of wheat rations. Final figures for the cereal harvest show a total of about 62,000,000 bushels, which is 20,000,000 bushels less than in 1916 and about 10,000,000 less than was estimated in the summer, when the populace was put on bread rations. The authorities are already considering a further reduction in the allowed consumption.

The food situation in Switzerland is rapidly falling to the danger line. A ration that is far below the consumption in many of the countries at war has already been ordered. Under the new regulations the Swiss may have only a pound and a half of sugar per person per month. The bread ration has been fixed at about half a pound a day, and the butter ration at one-fifth of a pound a month.

The year 1917 established new high production records for corn, oats, rye, white and sweet potatoes, tobacco, beans and onions.

### H. S. STUDENTS' JUNIOR WEEK-END

University of Oregon, Eugene, Feb. 14.—High school students from all over the state will be welcomed on May 10 and 11 as guests of Junior Week-end, the spring festival of the students of the university. Before, Junior Week-end has always been given over to water fetes, baseball games, track meets and the Junior Prom. This year, however, the week-end will be largely of a military character, according to preliminary plans made by the student council. The regular campus luncheon will be held but with a little expense as possible, and will be a strictly Hoover meal. The whole week-end will be carried on with little expense but as normally as conditions will permit.

### REQUIREMENTS LESS FOR ARMY NURSES

Because of the great need for nurses for the Army Nurse Corps, certain requirements have been waived for the period of the war emergency. Registered nurses are preferred, but registration may be waived.

Nurses between the ages of 21 and 45 will now be considered, as well as those who are graduated from hospitals of less than 100 beds. Under the temporary revision of rules they are not required to purchase new uniforms.

A nurse traveling under orders is given a first-class ticket, Pullman car accommodations, and traveling expenses not to exceed \$4.50 a day.

### FRANCE PLOWED BY AMERICAN TRACTORS

To increase France's crops and to lighten the burden of toil on her old men, women and children 1,500 farm tractors will go to that country from the United States. The first hundred are already on the way, and the whole number will be in France by March, in time for the spring plowing. Deck space was provided

for the first shipment on a naval transport. Schools of instruction will be organized.

The acreage sown to crops in the uninvaded portion of France in 1917 was about 10,000,000 acres less than in 1913, or 24.4 per cent. The increased production through the use of tractors this year is expected to greatly improve the food situation.

## "Corn-Less Day" for Feet, Every Day

Use "Gets-It," the Great Corn Discovery! Makes Corns Peel Right Off!

Look at the illustration below. See the two fingers peeling off a corn as though it were a banana peel! And the man is smiling while he's doing it! All done painlessly, joyfully. The moment "Gets-It"

"Gets-It" is sold at all druggists (you need pay no more than 25 cents a bottle), or sent on receipt of price by E. Lawrence & Co., Chicago, Ill. Sold in Ashland and recommended as the world's best corn remedy by J. J. McNair, McNair Bros.

## Senator S. B. Huston, who asks the voters of Jackson County to name him as the Republican Candidate for United States Senator, has taken an advanced position on measures which will bring about richer country life, better farming and better home conditions. He favors rural credits and a vigorous war policy, taking the cost of the war from those most able to bear it. He says in his platform:

## Huston Stands For Richer Country Life

**Make Available Federal Rural Credit Law**  
Cheap and long-time money for the farmer is one of the essentials of land development and prosperity in rural Oregon. I am in favor of broadening the federal rural credit law until its provisions will cover the needs of purposeful men who would establish themselves and their families on the lands of the state, making possible the borrowing of long-time funds with which to make a start with the best chances of success.

**Federal Aid For Road Construction**  
I am in favor of federal aid for the states in the construction of permanent highways. It is my opinion that as a measure of relief for conditions following the war, a plan of highway construction should be evolved by congress, to give employment at fair wages to soldiers returned from the battlefield as well as the first development of a nationwide system of hard-surface roads.

Paid advertisement. Huston for Senator Committee, 206 Chamber of Commerce Building, Portland

### Shipbuilding Industry to be Permanent

In the cutting of billions of feet of timber in Oregon, the shipbuilding industry and the lumbering industry must go together, bringing prosperity to the citizens of the state and permanent development of world commerce. It will be my purpose, if elected, to aid in every legitimate way the development of the shipbuilding industry and to do what I can toward establishing on the Columbia and Willamette rivers a great shipbuilding center. This work will have only begun by the time peace comes, and plans for the future must be wisely laid and perseveringly carried out.

### Social Justice of First Importance

The problems of our national life are inseparably bound up with the problems of internal and world reorganization. Our military strength and our industrial strength rest upon the health, the well-being and the standard of living of every man, woman and child in the nation. The duty of each citizen to undertake mass action in support of the nation, the demands that every business interest be subordinate to the national interest, must be supplemented by a well-understood programme of social justice and equality through which the United States government will assure to each citizen the fullest possible benefits of our collective efforts. One result of the war must be a new day for the workers of America, a day of more equal opportunity and more just division of labor's rewards.

### Wealth to Pay Full Share of War Cost

The expense on the part of the United States in carrying on the world war must of necessity be tremendous, and a great burden of debt will rest upon the country when peace shall be declared. In the payment of the cost of the war I am in favor of taking largely of incomes, inheritances and excess profits. I am also in favor of continuing these methods of taxation after the war has closed until the war debt shall have been paid, thus giving industry an opportunity to reach a normal base as quickly as possible, and placing a little burden as need be upon the backs of the soldiers, who must again take up the constructive work of building up the country, drained by the ravages and desolation of war.
