Advertising for fraternal orders or societies charging a regular initiation fee and dues, no discount. Religious and benevolent orders will be charged for all advertising when an admission or other charge is made, at the regular rates. When no admission is charged, space to the amount of fifty lines reading will be allowed without charge. All additional at regular rates.

The Tidings has a greater circulation in Ashland and its trade territory than all other Jackson county papers combined.

Entered at the Ashland, Oregon, Postoffice as second-class mail matter.

AS TO THE COUNTY CLERK

Where the office fits the candidate the Tidings is in favor of women for office. They are legal voters and citizens and are entitled to all the benefits of that citizenship. Especially would we favor Miss Flora Thompson for an office where clerical ability was the main requisite for she is hardworking, conscientious and an expert stenographer and typist. She has done the county good service in the county clerk's office.

However, under the Oregon law, the duties of county clerk are numerous and complicated and in many instances call for the best experienced business judgment, such decision as only wide business experience can properly direct. The county clerk has supervision of the clerical work connected with the county and circuit courts not only, but is exofficio member of the equalization board and now will be recorder of deeds, besides, having charge of the district road accounts, bounties and all elections. The duties are numerous and many persons feel that it is a place where a wide and intimate knowledge of the county generally is necessary for the best administration of the office.

Chauncey Florey is a candidate against Miss Thompson in the republican primaries. Both cannot be nominated. It appears from the purely business view, and that is the view that should maintain in considering the fitness of candidates, that the wide business experience of Mr. Florey better equip him for the place.

Mr. Florey has had valuable experience in the assessor's office which qualifies him as a member of the equalization board and he has had experience as recorder with titles of the county. Besides, Chauncey has been a good and faithful servant and deserves the advancement he craves. He is married and has two children. is a native of Jackson county and has proven one of the most popular candidates to be voted on in the past elections.

The Tidings hopes Chauncey will be nominated and elected and that he will make Miss Flora Thompson chief deputy in charge of the clerical work of the office.

INDEPENDENT OF GERMANY

The people of this country have a lively recollection of the days following the outbreak of the war in Europe, when the German ships were driven from the seas and imports into this country from Germany ceased. The distress in many lines of

New **ARROW COLLARS** FOR SPRING
CASCO-2 3/8 in. CLYDE-2 1/8 in.

industry emphasized the extent to which we had come to depend on German-made products. Who cannot recall the occasion of the submarine running the blockade with a cargo of dyes, and with what joy they were received in this country?

The war awoke us to the humiliating fact that this country same far short of being self-sustaining. It demonstrated to us that without the goods of other countries, Germany especially, industrial and social life in America was badly crippled.

But the war has another effect. It has caused us to seek out the lines of endeavor in which we were deficient and set about to remedy that deficiency. This we are doing more fully as the time passes. For instances, we hear no more complaint of the scarcity or inferiority of dye-stuffs, from the fact that American-made dyestuffs have fully taken the place of the German article, and appear to be giving general satisfaction.

General chemistry is also a line in which we have heretofore relied almost wholly on Germany, this from the fact that American chemists were not willing to undergo the rigorous study and research necessary to attain high standing in that line. But this too is fast becoming changed, and in a very short time, if not already, American chemists will be fully the equals of any in the world.

In fact, we are just now waking up to the fact that there are a number of lines of industry, wherein we have heretofore been content to rely upon other peoples, that, if we are to maintain our position among the nations, we must master and conduct for ourselves. We have been too deeply absorbed in what we termed the big things of life, and many smaller matters that, nevertheless, play an important part in the economy of life, have been neglected.

If the war, viewed purely from an industrial or commercial standpoint, shall have caused us to stop

and gather up the loose ends of industry, it will at least not have been all bad.

GEORGE A. GARDNER FOR COUNTY JUDGE

Ashland voters will be glad of the opportunity to cast their ballot in the republican primaries next Friday for George A. Gardner for county judge. Mr. Gardner has always been a great favorite with Ashland voters. He has filled the office of county clerk for two terms and his fair and courteous treatment of these with whom his department transacted business has won for him a host of friends who will be glad of the opportunity to advance him to the more responsible position.

Mr. Gardner, through his long experience as county clerk—always in close touch with the financial affairs of the county together with his solid business judgment—renders him probably the best qualified man in Jackson county to administer the financial affairs of the county in an economical and satisfactory manner.

THE VARIOUS ISSUES OF LIBERTY BONDS

There are at present issued and outstanding four issues of Liberty bonds, and soon there will be six issues. They are as follows:

1. The original bonds of the first Liberty loan; these bear 3½ per cent interest and mature June 15, 1947, but are redeemable at the government's option on or after June 15, 1932. They have a conversion privilege.

2. The original bonds of the second Liberty loan; they bear 4 per cent interest and mature Nov. 15, 1942, but are redeemable after Nov. 15, 1927. They have a conversion privilege.

3. Bonds of the second issue, which have been obtained by the conversion of bonds of the first issue into bonds of the second; they bear 4 per cent interest and mature June 15, 1947, but are redeemable on or after June 15, 1932. They have a conversion privilege.

4. The original bonds of the third Liberty loan; they bear 4¼ per cent interest and mature Sept. 15, 1928, and are not redeemable until maturity. They have no conversion privilege.

The other two issues which will soon be outstanding will be 4¼ per cent bonds obtained by the conversion of bonds of the first issue, and 4¼ per cent bonds obtained by conversion of bonds of the second issue, into bonds of the third Liberty loan. The ill have no conversion privilege.

CANADA THISTLE IS CAUSE OF GRAIN LOSS

"The greatest loss to grain crops in our district is by Canada thistles," writes D. F. Burge, route 2, Albany.

Oregon, to Prof. H. J. Bars, botanist at the O. A. C. experiment station. Mr. Burge is a reporter of the Oregon crop disease survey and information service, and says that while the greater number of farmers fight the thistle all the time it is a great nuisance.

The Canada thistle is distinguished from bull thistle and others principally by its clusters of small flowers and more crinkled leaves, which are covered with many short spines.

Being a perennial, it propagates itself by its underground parts as well as by seed. The root, which varies in size from a small rootlet up to a quarter of an inch or more, spreads in all directions, at a depth of a few inches to a few feet below the surface, depending on the kind of soil.

From any point in the root buds may form and seed up new shoots that form new plants. Shoots in all stages of development can be found during the growing season.

The Canada thistle is generally introduced by seeds, which are carried by wind, water and birds, and in grass, clover and small seeds, especially oats.

Methods of eradication must be suited to the conditions on the farm. Being in touch with many growers who have been successful the college is in a position to give any farmer information that will enable him to eliminate this weed in the shortest time and at least expense.

The experiment station will gladly identify specimens of plants sent in and assist in weed eradication.

Eugene provided 44 recruits for the United States navy within the last week, according to figures made public by the recruiting mission headed by Ensign F. B. Upshaw which completed its work here and left for Marshfield. Thirty-five men and nine women were enrolled in this city. — Eugene Guard.

WHY IT SUCCEEDS.

Ashland People Appreciate This. Because It's For One Thing Only, and Nothing can be good for everything.

Doing one thing well brings success. Doan's Kidney Pills are for one thing only.

For weak or disordered kidneys. Here is Ashland evidence to prove their worth: Mrs. J. Galbraith, 136 Sherman street, says: "Five years ago my kidneys were in a bad way. My back felt weak and lame and I was tired and languid all the time. Finally I began taking Doan's Kidney Pills and they helped me wonderfully. They regulated my kidneys and since then I have always used them when I have felt my kidneys needed attention. Doan's have always done me good." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Galbraith had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Chauncey Florey

I am a candidate for County Clerk. The duties of County Clerk are numerous and complicated. Business discretion as well as clerical ability is necessary. The County Clerk is exofficio member of the equalization board. He is clerk of the probate and county courts. He is clerk of the circuit court and recorder of deeds for the county. He handles also all the business connected with elections and road districts.

I feel that my years of experience about the court house work, in the different departments, especially qualifies me for the duties of County Clerk.

In relation to my work as County Recorder, the last public accountant had this to say: "It is the best conducted office of its kind in the state." If nominated and elected I hope to have as good report of my service as County Clerk.

Frank C. Barmwell, chairman of the third Liberty loan drive in Josephine county, stated Saturday evening that while he could not give the exact amount subscribed to date owing to the fact that not all the sales had been reported up to the closing of banks today, he estimated that the total would be around \$132,000.

The quota for this county was put at \$106,000, which leave a surplus subscription of \$26,000. This makes the loan oversubscribed in this county more than 124 per cent. Those in charge of the drive feel that this is a good showing for Josephine county and are proud of the record.—Grants Pass Courier.

WRIGLEY'S

Six reasons WHY it's a good friend:

- 1—Steadies nerves
- 2—Allays thirst
- 3—Aids appetite
- 4—Helps digestion
- 5—Keeps teeth clean
- 6—It's economical
