Don't Swelter Over a Cook Stove

Gas is Nature's Remedy

for overheated cooks. We have a number of gas ranges in stock that we are selling way below value. For example: We have a fine four burner reliable gas range with ovens complete—not new, but just as good, which we are offering for \$20.00, regular price new \$45.00—if your house is piped for gas we will install it without cost. If we have to install the service a small charge for that. We have but one stove at this bargain price. Come and see it before the other fellow grabs up the bargain.

The pestiferous house fly in on his way. Soon he will breed and bloom by the million and attack the food and milk of the younger generation.

Why not beat him to it? Screens are absolutely the greatest preventive against the enemy, the greatest death-dealing animal known to science. Screen every door, window, and porch.

We'll send a man who will measure your entire building and give you the exact cost of perfect fitting screens. There is no obligation to buy.
