The Farmers Have Succeeded

Some feared that the farmers would be handicapped this year for lack of labor, but have found help enough to increase by more than 20,000,000 acres, the area cultivated for leading farm products. Our congratulations to the farmers of our country who have greatly exceeded their last year's production. When wishing a strong, reliable, efficient banking connection, make The Citizens Bank of Ashland your depository.

CHANGES IN TIME ZONES EFFECTIVE THANKSGIVING

Changes in the standard time zones of the United States moving the lines slightly westward, are recommended in a tentative report that has been made public in Washington by the Interstate commerce commission.

The primary object of the changes which will become effective next Thanksgiving, if the commission finally approves the report, is to unify the time changing practices of cross-continent railroads.

The boundary between the mountain and Pacific zones would begin at the Canadian border near Blackfoot Indian reservation, and move south through Cutbank, Helena and Butte, Mont., west of and parallel with the Oregon Short line railroad to Pocatello, Idaho, crossing the Utah line near Weston, through Salt Lake City and west to the Utah-Nevada boundary, which would follow from a point from Nevada to enter Arizona through Yavapai county, cross the Santa Fe railroad at Seligman and follow the Colorado river to the Mexican border.

FRENCH PAY TRIBUTE TO TEXAS FIGHTERS

La Liberte, under the heading, "A Heroic Charge," pays tribute to the Americans. It says:

"The taking of Terny-Sorney by the Americans was a particularly brilliant operation, executed by our allies with wonderful dash. The unit which made this stroke had never been under fire, having passed only a few weeks in a comparatively calm sector, but on its debut it hurled itself against a division of imperial guards and beat it.

"These sturdy youths from Texas, habituated to prairie life, tracked the Boche like wild beasts; they swept village and nests of machine gunners, and charged with bayonets at batteries of 105's, killing those serving the battery and capturing the guns.

"Twice an officer of the French general staff had to interfere to modify their ardor, fearing that they might overstep the mark. Even the French Zouaves, who are an embodiment of our aggressive fighting, were astonished at such daring."
