

Read what the National Council of Defense requests of the merchants in order to conserve the manpower of the country.

The six rules laid down for the retail trade to follow are given:

Retail interests are not to increase their working forces by reason of the holiday business over the average forces employed during the year.

Normal working hours will not be lengthened during the Christmas season.

Retailers will use their utmost efforts to confine Christmas giving, except for young children, to useful articles.

Every effort will be made to spread the period for holiday purchasing over the months of October, November, and December.

Deliveries will be restricted and customers will be asked to carry their own packages wherever possible.

Announcements of the new policy will be made by retailers in their newspaper advertisements.

Camisole Laces—We have received an especially pretty line of new fillet designs.

The request of the Government is that we spread the Holiday Shopping over the months of November and December, since the shortage of help makes it almost impossible to increase the selling force. Also it requests that, except for young children, useful gifts only be given.

Douglas County Has Lost 28 in Service

Douglas county has been hard hit by the war, as a summing up of the casualties among the boys from that county has revealed since the cessation of hostilities. During the past year 26 young men have made the supreme sacrifice in behalf of their country from that county. Of this number five are occupying graves in France, two of whom were killed in battle. Three were victims of submarines and one lost his life from shipwreck.

Soldiers Cannot Secure Release

According to a dispatch from Camp Lewis scores of soldiers stationed there and relatives of soldiers already are trying to obtain the release of soldiers from the army. Officers at the camp state that the attempts are demoralizing to the morale of the army, and should not continue. Since news of the signing of the armistice reached America telegraph wires into Camp Lewis have been crowded with messages asking when they would return and urging the soldiers to obtain immediate release.

Attempts to obtain the release of men cannot be considered, it was said at camp headquarters, until some plan is announced by the war department for the demobilization of the army.

"The prospects are that most men now in the army will continue in the service for a long period," said one staff officer. "The civilian population in many cases believes the job of the army is done. This is not so, as a memorandum read at retreat shows."
