

**WILLIAM FARNUM  
AT THE VINO THEATRE**

William Farnum, the great American actor, will be seen Thursday and Friday at the Vining Theatre in a stupendous screen production of Victor Hugo's immortal story, LES MISERABLES, made for William Fox under the direction of Frank Lloyd, who directed the making of "A Tale of Two Cities," and other big William Fox photoplays.

This picture is well termed "stupendous." It is the only real screening of the remarkable story of the conflict of man with humanity and humanity's half barbarous laws.

In the character of Jean Valjean, Mr. Farnum gives a portrayal that leaves one believing that he walked out of the book. The hard side of the man is shown in all his revengeful feeling against the world that caused him to serve nineteen years at hard labor for stealing a loaf of bread for his starving relatives. And the softer side, when he, having changed his name and become wealthy, is lending a helping hand to every one around him. Then, too, the wonderful spirit that makes him renounce the few joys he has had in life is shown in remarkable bits of acting by this master artist, William Farnum.

For this production William Fox had built in Fort Lee, N. J., a cross-section of streets in Paris. Nothing has been omitted to make the entire production realistic and true to Victor Hugo's conception.

**A Faulty Flue**

This is the time of year when stoves and chimneys are working overtime. A large part of the annual fire loss in our country is caused by DEFECTIVE FLUES. Two things are important NOW: Inspect the flues and inspect your insurance policies. What about the ADDITIONAL FIRE INSURANCE you may need? Or perhaps you are not insured at all? Just ask the Billings Office (Phone 211) how little it will cost for a house and contents policy for three years? You will doubtless be surprised how little it is.
