

ASHLAND CLIMATE WITHOUT THE AID OF MEDICINE WILL CURE NINE CASES OUT OF TEN OF ASTHMA.

# ASHLAND TIDINGS

ASHLAND IS A GREAT PLACE FOR THOSE SUFFERING FROM ASTHMA.

VOL. XLIII

ASHLAND, OREGON, TUESDAY, MARCH 11, 1919

NUMBER 11

## Officers Nominated at Junior High

Friday the pupils of the Junior High school held a primary election to nominate officers for the student body. Two parties had candidate in the field, the Liberals, who favored the paying of dues to the Student Body Association, and the Conservatives, who opposed it. The purpose of this organization is to secure equipment for the grounds in preparation for the track meets.

The primary object of the election was to teach the pupils the Oregon system of voting, and a regular polling place was arranged in the library where the registered voters came to cast their ballots. An election board consisting of Raymond Bowers, chairman, William Briggs, Clara Mills, Dale Heath and Elsie Kitto officiated, while voting booths were stationed in regular order.

The candidates on the ballot were as follows: Liberals—President, Raymond Bowers, Louise Harrell, Caroline Tilton; vice president, Lucile Peruzzi, Carl Weaver; secretary, Norma Craig, Allena Neeley; treasurer, William Briggs, Flora Putnam; tax collector, Clara Heath, Vincent Hunter. Conservatives—President, Grant Selby, Herbert Doran; vice president, John Gayley, Paul Koehler; secretary, Thelma Heer; treasurer, Helen Bryant.

The primaries resulted in the nomination of the following candidates and the vote received:

President—Louise Harrell, Liberal, 25; Grant Selby, Conservative, 83.

Vice president—Carl Weaver, Liberal, 27; John Gayley, Conservative, 55.

Secretary—Norma Craig, Liberal, 33; Thelma Heer, Conservative, 83.

Treasurer—William Briggs, Liberal, 20; Flora Putnam, Liberal, 29; Helen Bryant, Conservative, 78.

Tax Collector—Clara Heath, Liberal, 25.

The general election will probably take place Wednesday afternoon.

Previous to the primary election the students held two rallies at different times in which some fine impromptu speeches were delivered by the various candidates. A large number of very clever cartoons were prepared by the pupils on the two parties, which were preserved and are on exhibition in the assembly room.

## Members of 69th will be Welcomed

At their regular meeting last Saturday night Ashland lodge of Elks voted to receive the returned soldiers of the 69th regiment, C. A. C., with as much good cheer as that accorded those who had come before, and who were welcomed with the returned 65th. These boys, upwards of 35 in all, are at present stationed at Camp Lewis, waiting for their discharge from the service. It is not known yet when they will return home, but arrangements are being planned for a rousing welcome to greet them, for which the Elks have again tendered the use of the temple for a reception. More definite announcements will be made later.

## Cannot Withdraw From Irrigation

Judge Calkins handed down a decision on the appeal to the circuit court last Friday, affirming all the orders made by the directors of the Medford Irrigation District last summer on the question of excluding lands from the district. A large number of owners had petitioned for the exclusion of 5200 acres of their property, and the case was tried before the directors, and afterwards appealed to the district court. The reasons given for not excluding any land was that the district should comprise at least 20,000 acres, and that if one man was excluded any other man would have the same rights, and the result would be a district so small that water could only be supplied at a prohibitive price.

Monday, Tuesday and Wednesday soap sale at Ashland Trading Co.

Orres will dye for you.

## MEDFORD WOMAN RUN DOWN BY AUTOMOBILE

Mrs. Ernest Pruitt of Medford was struck by a car driven by W. A. Crane on the streets of Medford Saturday afternoon and received serious injuries from which death resulted later. The accident occurred on the corner of Riverside and Main streets when Mrs. Pruitt crossed the street in front of the Crane car. The latter came to a stop, and it is thought Mrs. Pruitt caught sight of another car coming south on Riverside and attempted to retrace her steps. The Crane car had started again and while the driver jammed on his emergency brake the front wheels struck the unfortunate woman and passed over her body. She sustained three fractured ribs, a severe laceration of the arm and several minor bruises, besides internal injuries. She was taken to the Medford Sanitarium where she died later.

Funeral services were held yesterday afternoon at 2 o'clock and the body was brought to Ashland where interment was made.

## Funeral of G. M. Lowe Held Sunday

Funeral services over the late Policeman G. M. Lowe, whose tragical death occurred Sunday night, March 2, were held over the body at the Dodge undertaking parlors Sunday afternoon at 1 o'clock, conducted by Rev. M. Blake of Portland. Mayor C. B. Lamkin also made a brief address in which he eulogized the departed official of the city for the exemplary service he had rendered. Mayor Lamkin said:

"When I appointed Mr. Lowe policeman he said to me: 'Mr. Lamkin, I will give you a square deal. If I ever show any favors it will be to the poor and unfortunate.' He kept this promise to the letter. G. M. Lowe was a faithful, honest, earnest, capable and efficient police officer. A few days before his death he stated to George Robison that it afforded him a great deal of comfort and satisfaction to know that the mayor and chief of police had absolute confidence in him, and trusted him in every particular.

"In the passing of G. M. Lowe the city of Ashland loses a worthy and trusted citizen and officer and one whose place it will be hard to fill."

Interment was made in the Stearns cemetery near Talent in the family burial lot where the deceased had a daughter buried. One of the largest concourses that ever went out of Ashland followed the body to its last resting place. The casket bearers were among the city officials and well known acquaintances of the deceased, and were Chief of Police J. W. Hatcher, Fire Chief Geo. M. Robison, V. V. Hedgpath, W. L. Loomis, C. E. Sams and William Myer.

## Holibaugh House Burned to Ground

The residence of F. C. Holibaugh of Valley View was totally destroyed by fire Saturday afternoon, together with the greater part of its contents. It is not known how the fire started. About four o'clock Mrs. Holibaugh left her house and went to a neighbor's across the road, and had not been absent from the house but a short time when it was discovered that the entire upper story was in flames. An effort was made to secure some of the furniture from the lower floor, but the blaze could not be extinguished until the house was burned to the ground. Mr. Holibaugh carried insurance on his property.

## SCHOOL ARRANGING

Work was started this week on the grounds of the Junior High school for training purposes for field equipment preparatory to the field meet which is to be one of the leading athletic events in the near future. The city scraper has been engaged to lay out a 75-yard straightaway, a playground baseball ground and other athletic stunts. Much interest is being manifested by the pupils in the school, and bright days are looked forward to when training will be actively started.

Darling's for Cameras and Supplies. 7-11

## Dairy School Held Successful Meet

With but a few days' notice, a two days' dairy school was put on at the city hall, with the great majority of the dairymen of this section in attendance. Remembering the helpful meetings, put on by the Extension Service of the O. A. C. last year, all were heartily in favor of these meetings.

The meetings this year were in every way as successful as those held in the past. Talks on feeds and feeding, breeding, by-products, calf raising, management, and the value of dairy products, were given in a very practical way and were much appreciated by all present.

Prof. Fitts brought out the fact that the dairy side of our farms should be put on a business basis and that the dairymen should have enough for his product to cover the cost of production. His talk along the line of the food value of dairy products was interesting in the extreme. He told of a series of experiments that had been carried out along these lines which go to prove that an individual or a nation cannot attain its fullest development, bodily or mentally, where milk or its products do not make up a considerable part of their food. Children especially need plenty of milk, at least a quart a day, for their best growth.

Miss McCormick, Jackson County Home Demonstration Agent, gave a talk along the same lines. She stated that the best authorities on food values find that a family of five, should buy three quarts of milk per day before considering meat as a part of their diet.

All felt well repaid for the time spent, and went home with more respect for the dairy cow and her products.

## National Guard to be Mustered in

Word has been sent to the local company of the National Guard that Captain A. A. Hall of the adjutant general's office will be here Thursday evening to inspect the new Ashland company at the armory. Captain Hall will also muster the company into the National Guard at this meeting.

The general public is invited to this meeting, when, after the muster in of the Guard, dancing will take place and refreshments will be served. All the Ashland citizens are requested to be present to show their interest in the formation of the new National Guard company and partake of the general good fellowship that attends its organization. Children unaccompanied by their parents will not be admitted.

## BARBER TO BE TRIED BY FEDERAL COURT

J. D. Johnson, a barber from Powers, Ore., was held at his preliminary hearing Saturday before U. S. Commissioner F. Roy Davis, accused of violation of the Mann white slavery law under a bond of \$2,500. He was taken to Portland Saturday night for his trial in federal court. The evidence of the government was the confession of Mrs. Mary May of Ashland, who was also taken to Portland as a witness against Johnson. The latter is a divorced man and has lived for some months in Ashland, while a divorce suit is pending between Mrs. May and her husband.

## Ashland National Guard is Virtually Assured

Ashland is practically assured of a National Guard company arrangements for which have been in progress during the past week. Captain H. W. Frame has been receiving recruits at the armory every afternoon and evening, and was eligible to this organization have been fairly prompt to respond, now that it is known that a regiment of infantry will be organized in the state.

One hundred and ten members are necessary to organize a company of the National Guard. While that number was over-recruited last week, it was discovered when the applicants came to enlist that several of these

## Del Norte Mines Sold to Promoters

What purports to be the largest and most significant mining deal ever staged in Del Norte county, says the Crescent City Triplicate, centers around the sale by the Del Norte Claim Holders association, of eighty-nine quartz claims, in the Preston Peak district, to the Del Norte Mining corporation, presumably a holding company composed of former members of the Del Norte Claim Holders' association and the interests represented by Mr. A. C. Ross, who is planning railroad construction out of Crescent City to tap that region.

The papers were presented this week for record at the court house by Rubens, Fischer, Mosser and Barnum, a Chicago firm of lawyers. The amount involved was not made known, but the deal called for an outlay of one hundred and twenty-five dollars' worth of internal revenue stamps to make it valid.

It has been generally known for some time that the Ross interests were contemplating a location for a profitable division point on the "over the mountain" route, also that the railroad was to be merely a by-product of the greater operations and developments of these people. And with this in mind, it became apparent that the opening of this gigantic mining field will offer the proper location for a new townsite, division point, and fertile field for large investments.

There were 205 names on the list of grantors attached to the deeds as recorded here, and among them the holders of the present townsite of Waldo, Ore.

## Executive Workers of Farm Bureau Met

The executive committee of the Jackson County Farm Bureau met at Ashland Tuesday forenoon with a goodly number present. From reports of the different county project leaders it appears that the work of the Bureau is being carried out in a very satisfactory manner. Work on rodent control, egg marketing, and the Home Study Hour were especially interesting.

The work being carried out by Mr. Dill, in egg marketing is attracting attention all over the state. Project leaders from other communities were eager to learn of the work that it might be carried on among their own people. Poisoning digger squirrels is the big work of the Bureau this season. F. C. Homes is County Project leader and he plans a very active campaign. Thru the courtesy of the First National Bank the committee lunched in a body at the Austin Hotel.

## VICTORY LOAN LISTS TO OPEN APRIL 21

Secretary of the Treasury Glass has announced that the victory loan will be opened to subscriptions on April 21.

"It will be the last of the popular war loans," he said. The secretary would give none of the details of the loan which will be in the shape of short term notes on terms deemed attractive to investors. The general understanding is that the government will seek to raise approximately \$6,000,000,000.

## NEW ERA CONFERENCE MEETS IN MEDFORD

An important conference under the auspices of the New Era committee of Southern Oregon Presbytery will be held in the Medford Presbyterian church tomorrow (Wednesday) at which delegates from Presbyterian churches as far north as Glendale and south to Ashland will be in attendance. The program calls for a woman's conference in the afternoon and a mass meeting at 7:30 in the evening. Addresses will be given by Rev. Boudinot Seeley of Portland, Mrs. C. E. Lamkin of Ashland, Mrs. D. Hatfield of Central Point and others, and a supper will be served the visitors at 6 o'clock.

The adoption of a great world wide program for five years is the object of these meetings and much interest is being manifested. On March 23 the nation wide victory fund drive will be put on among the Presbyterian churches and it is expected to raise over the United States that day in three hours \$38,000,000. This covers the whole Presbyterian budget for work at home and abroad for the new church year beginning April 1st.

## Ashland Furnishes Number of Officers

Ashland has occasion to be justly proud of her war record which will be handed down to future generations. Not only have practically all of her eligible young men served in some branch of the service during the war, but she furnished many officers of rank to the service. This list of commissioned officers hance from colonel in the military service thru the several offices in the military, naval and aviation departments to the number of at least twenty-seven. Following is the list that has been compiled:

- Colonels—Thomas W. Hammond, John L. May.
- Commander—James Moore.
- Majors—Clyde A. Malone, A. J. McCallen.
- Captains—Frank M. Moore, Dr. Gordon MacCracken (Medical Corps).
- First Lieutenants—Donald M. Spencer, Wm. H. Briggs.
- Second Lieutenants—Millard W. Grubb, Verni V. Mills, Lynn G. Mowat, Carroll H. Wagner, J. Quincy Adams, Bernard Spencer, John E. Finneran, Harley L. Irwin, Wm. Bruce Allen, Archie Anderson.
- First Lieutenants (Aviation)—Walter A. Phillips, A. Crit Tolman.
- Lieutenants (Medical Corps)—Lance A. Briscoe, A. W. Boslough, J. P. Johnson, Donald A. Walker (Dental Corps).
- Ensigns—Perry L. Ashcraft, Jr., Edward N. Stannard.

## Medford Suffering From Fuel Famine

According to the Sun, Medford is facing a fuel famine. It is stated that there is not a stick of cordwood in the city and no prospects for getting any. Cordwood has been selling for \$10.50, thus far, but the condition of the country roads makes it impossible to haul it in from any distance and no community has a surplus supply. The Gagnon Lumber company claims to have plenty of cordwood at the end of the Jacksonville railroad, but is unable to get it transported over the road, and with the suspension of the P. & E. the usual sources of firewood have been cut off in that direction. The demands for coal are so great that the local dealers could not fill the orders.

## LAKE HIGHWAY MAY GO THRU THIS YEAR

Jackson county and the state have been requested to co-operate with the Forest Service in building the road between the forest boundary and Prospect, in addition to the seventeen miles between the National Forest boundary and the National Park. Twenty-two miles of road in all will be constructed, and it is estimated that it will cost \$246,000. Definite action will be taken at a meeting to be held early in April, at which time bids will be asked for, and work will begin in June.

Orres remodels and repairs clothes for men and women.

## Appointments will be Made by Gov. Olcott

Nine laws were passed by the recent legislature creating offices and boards and commissions which must be filled by appointment by the governor. In all but one instance these appointments will be made by Gov. Olcott. The one exception is the soldiers' and sailors' commission, created to have charge of expenditure of the \$100,000 emergency fund appropriated for relief of stranded soldiers and sailors. That commission was appointed by Governor Withycombe.

Among the most important appointments in the list to be made by Gov. Olcott will be the board of conciliation and arbitration and Oregon land settlement commission, while much interest will be centered in the appointment of a judge of the newly created court of domestic relations in Portland.

One member of the board of conciliation and arbitration is to be appointed from a list of five names to be submitted to the governor by the Employers' association, while another is to be appointed from a similar list furnished by the State Federation of Labor, while the two are to select the third member.

The Oregon land settlement commission is to consist of five members to be appointed by the governor. This commission has a fund of \$50,000 for its immediate expenditure in developing plans for providing established farm homes for Oregon soldiers, while an additional \$750,000 will be available for use by the commission if voters approve the \$5,000,000 reconstruction bond issue.

Selection of a judge for the court of domestic relations for Multnomah county will be made from a list of three names to be submitted by the circuit court judges of that county.

Another important commission will be the tax supervisory commission for Multnomah county. This commission will be composed of three members who will act as an advisory capacity for all tax levying bodies in Multnomah county.

A board of five is to be appointed to be known as the state board of architect examiners. Another board to be appointed is to be known as the board of auto mechanics examiners. It will consist of three members.

Still another created by the last legislature will be known as the state board of engineering examiners, which is to consist of nine members to be appointed by the governor. Another commission of three members is to be appointed to codify laws relating to children.

## COAST CHAMPIONSHIP WON BY U. OF O.

University of Oregon basket-ball players have won the Pacific coast championship in the two games they won from the University of California during the series the latter part of last week. Oregon won the first game by a score of 35 to 37, and the last by a score of 20 to 38. No third will be necessary, due to Oregon's two straight victories.

## International Red Cross is Planned

Plans for organization of an international Red Cross, to be led by the American Red Cross in a great peace time campaign to prevent disease, relieve suffering, and "make the world what the war was fought for—a better place to live in," was outlined by Dr. Livingston Farrand, newly-appointed chairman of the central committee of the American Red Cross.

Dr. Farrand warned Red Cross workers that they would be called on for continued service for a long time after peace had been declared, and announced that a nation-wide appeal for funds to carry on the organization work would be made soon. "I don't mind telling you," he said "that the bottom of the Red Cross treasury is in sight."

Discussing the proposal of the organization of the international Red Cross, Dr. Farrand declared the war had shown "that the war basis of the Red Cross has become outgrown."
