LATER PORTE

## THIS TELLS HOW TO FIGURE INCOME TAX

Squarely Up to Every Individual to Get Busy by March 15 or Suffer Penalty.

"Don't wait until the final doe date, March 15, for paying your Income Tax and making your return. Avoid the last minute rush. Any person can figure out his liability today as well as he can next week, and if there is any point on which he needs advice he can now get in touch with a Revenue man,"

This word of advice is being given out by the Internal Revenue men who are collecting the Income Tax in this state. Every ald and assistance is being given freely to the public. Enlarged field forces are helping the people in every way possible to get their payments and their returns in by

March fifteenth. But the Income Tax men will not pull your door-bell or your coat-tails, according to the Collector's announcement. It is squarely up to every individual to figure out his own case and to get busy if he comes within the scope of the new Revenue law.

Did You Earn This Much? Every unmarried person who re ceived income averaging \$19.25 a week during 1918 and every married couple who jointly received income averaging \$38.50 a week should secure at once from the nearest Deputy Collector or the nearest bank a blank Form 1040 A. That form contains the information he will need to enable him to figure his correct net income and any tax that he owes the government.

The law requires that every unmar-ried person who had a net income of \$1,000 or over and every married person whose net income was \$2,000 or over (including the income of husband or wife and the earnings of minor children, if any) must make a return on or before March 15th. And this requirement does not hinge on whether the person owes a tax.

Taxable Income.

An individual must include under gross income all gains, profits and income derived from salaries, wages or compensation for personal service of whatever kind and in whatever form paid or from professions, vocations, business, sales or dealings in property of all kinds, interest, rent, dividends or profits derived from any source whatever. Very few items of income

Deductions include ordinary and necssary husiness expenses, interest paid or accrued on indebtedness, taxes of all kinds except Federal income and excess profits taxes and assessments for local benefits, losses actually sustained, debts ascertained to be worthess and depreciation on buildings, mahinery, fixtures, etc., used in business. A further deduction is allowed for contributions to corporations operated for religious, charitable, scientific or educational purposes or for the prevention amount not exceeding 15 per cent of the taxpayer's net income as computed without the benefit of the contribution deduction.

The taxpayer is not allowed to deduct any personal, living or family expense, any amount spent for improving property or any expense of restoring property or making good its exhaustion for which an allowance is claimed A Dollar Starts an Account under depreciation.

Figuring the Tax.

Before figuring the normal tax the dividends are deducted as credits from net income, together with the personal exemption. As in previous years, dividends of domestic corporations are excupt from normal tax when received by the stockholder.

The normal tax rates for citizens and residents are as follows: On the first \$4,000 of net income in excess of the credits the rate is 6 per cent; on any further taxable income the rate is 12 per cent.

The surtax rates apply to net in come of each individual in excess of \$5,000. The personal exemption and the dividends are not deductible before computing surtax. In the case of returns by husband and wife, the net income of each is considered separately in computing any surtax that may be due. Form 1040 should be used for making returns of net income exceeding \$5,000, and the instructions on that form will show how to figure the sur-

Business House Returns.

Employers and others who paid wages, salaries, rents, interest or similar determinable gains in an amount of \$1,000 or over during 1918 to any person must file an information return with the Government. Blanks may be secured from the Collector,

Every partnership must file a return showing its income and deductions and the name and address of each partner, with his share of the profits or losses during the past year. Personal service Douglas is Assured corporations will file similar information for 1918.

INCOME TAX PAYS FOR PUBLIC BENEFITS.

"Viewed in its largest and tru- \* est sense, the payment of taxes \* is payment for benefits received or expected. Only from a nurrow and essentially selfish and \* of Internal Revenue.

## Part Big Packers Paid in War Time

A new idea of the great part played by America in feeding the allied forces in Europe is given in the 1919 Year Book of Swift & Company, which has just been issued.

In 1918 these products shipped abroad totaled 590,359,769 pounds -more than three times the amount shipped in 1914, the first year of the war. The pork product shipments totaled 1,691,454,529 pounds as against 921,913,029 in 1914-an increase of \$3 per cent.

During the year ending November 1, 1918, Swift & Company alone shipped 760,000,000 pounds of meat and meat products to the American army and navy at home and abroad and to a the allied nations for their armies ? and civilian populations. The Year Book says: "This amounts to about 25,000 carloads of meat, which would make a single train 200 miles long."

Some of the difficulties encountered in shipping are shown in the fol-

"The meat for Europe has gone in fleets of vessels under convoy, and the Food Administration has often been unable to know very far in advance when cargo space would be available. For this reason Swift & Company has frequently been notified that a certain number of millions of pounds would be wanted at a certain port within a few days. Swift & Company has often had chip. ments on the way to the .ea oard within a few hours after the orders have been received, and believe that it has met with signs! success in the filling of such rush orders.

"The packing industry was able to adapt itself to wartime demands perhaps more quickly than any other industry. If this industry had not are favorable. The present plan is national, and even international lines it would never have been able to answer all demands as promptly as it has. War demands have, of course, caused many changes in methods and have made it necessary for us to increase our facilities in many respects.

"For example, when the United States entered the war, there developed a demand for canned bacon for shipment to our soldiers overseas. Swift & Company immediately took over a semi-completed soap factory and within thirty days had installed the necessary machinery and was filling Government contracts. More than

STATE BANK OF ASHLAND.

School District No. 5, Jackson County, Oregon, until 6 p. m., March 24, 1919, for 160 cords of good, solid fir million pounds of bacon a week have often been canned in this factory. This means that our soldiers have been getting fine, cured, smok- of not more than ten inches nor less ed bacon, whereas the Allies have than four inches in diameter. been demanding only salt, unsmoked the Junior High School building and ly in price, while insurance itself, bacon, which does not have to be the Howthorne building, and a small protecting him against these losses.

"Another example showing the coperation that we have offered the Government was when the Government found it necessary to have large Sealer of Weights and Measures for quantities, which it had bought for overseas shipment, put into cans.

Swift & Company, alone among the control of the control big butter handlers of the country, County, Oregon, which check will be was willing to install the necessary forfeited to the said School District was willing to install the necessary equipment, and in the course of three weeks, under the most unfavorable circumstances, began canning butter was willing to install the necessary as liquidated damages in case the successful bidder shall fail to execute a contract and furnish an approved bond for a faithmul performfor the Government. Up to the time this Year Book goes to press, we have put up some three million pounds of butter owned by the Government and also two million pounds which we have gathered for the Government, making a total of five million pounds of butter that have been put up in tins."

# 25 Miles of Paving

County Judge R. W. Marsters, who spent Monday in Salem conferring with State Highway Engineer Nunn regarding the paving program for the Pacific Highway in this county, returned to this city Monday shortsighted viewpoint can the \* night, says the Roseburg Review.
