

ASHLAND CLIMATE WITHOUT THE AID OF MEDICINE WILL CURE NINE CASES OUT OF TEN OF ASTHMA.

ASHLAND TIDINGS

ASHLAND IS A GREAT PLACE FOR THOSE SUFFERING FROM ASTHMA.

VOL. XLIII

ASHLAND, OREGON, TUESDAY, MARCH 18, 1919

NUMBER 13.

Conservatives Win at School Election

Students of the Ashland Junior High school oppose the method of raising money for athletic purposes by means of taxation as was shown in the result of the election for student body officers held at that school Thursday afternoon. Two tickets were in the field—the Liberals, who favored the paying of dues to the Student Body Association, and the Conservatives, who opposed it. A week ago at a primary election the parties elected their ticket for the various offices, and the general election resulted in favor of the Conservatives, and as follows.

Grant Celby, C	89
Louise Harrell, L	85
Vice President	
John Galey, C	87
Carl Weaver, L	82
Secretary	
Thelma Heer, C	86
Norma Craig, L	87
Treasurer	
Helen Bryant, C	90
Flora Putnam, L	73
Tax Collector	
Clare Heath	53
Referendum measure No. 1, to abolish the office of tax collector resulted as follows:	
Yes	96
No	62
Initiative measure No. 1, to amend the constitution so as to abolish the student tax resulted as follows:	
Yes	84
No	60

Clothing Exhibit Given at Phoenix

A county clothing exhibit and demonstration is being arranged by Miss McCormick, home demonstration agent, and will be held in Phoenix, March 21st. The demonstration will be an all day affair, beginning at 10:30 o'clock in the morning. Lunch will be served at the noon hour to those attending. Miss Mary Van Kirk, a specialist from the Domestic Art department of the Oregon Agricultural College, will give demonstrations of adjusting patterns, cutting, fitting, and remodeling garments. Women who wish may bring in garments that are to be made over if they wish suggestions or help. Beside the demonstration an exhibit will be given showing a baby's layette, children's clothes, and remodeled garments. Basic patterns for these garments will be on hand and women may cut copies of them if they wish.

Secretary of War Made Brief Call

Secretary of War Newton D. Baker was an Ashland visitor for a short time yesterday morning while on his way south. During the short time the train stayed in Ashland the secretary of war was taken in the automobile of Mayor C. B. Lamkin around the city as much as his limited time allowed. Accompanying the mayor and Mr. Baker were F. J. Shinn, V. O. N. Smith and Dr. B. E. Smith. A nice representative of citizens were at the station to greet Secretary Baker.

Mrs. C. C. Vanersdale, head of the order of Neighbors of Woodcraft, of Portland, and Mrs. Rose McCuskin, who is chairman of the legislative committee of the state of Washington, stopped off between trains Monday to visit with Mrs. P. B. Whitney. Mr. and Mrs. L. A. Abbott have returned to their home in Centralia, Wash., after a sojourn in Ashland. Mrs. Abbott had come here several weeks ago with her young daughter, Gladys, for the benefit of the latter's health but the young girl was not benefited by the change, and death occurred a couple of weeks ago. Mrs. Abbott returned to her home with her husband who was called here by the death of his daughter.

PRISONER ESCAPES FROM LAME CAMP

Clyde J. "Red" Rupert, prominent in amateur and professional athletics in Oregon in past years, escaped Sunday from the state prison line camp at Gold Hill. Rupert was under sentence of from one to three years for the theft of more than \$20,000 worth of Liberty bonds from a bank in Portland a year ago. John P. Hardy, under sentence of from two to twenty years for forgery, escaped with Rupert. He also was from Multnomah county.

Air Circus Staged For Victory Loan

Three flying circuses of American, French and British aviators in American and captured German Fokker planes will tour the United States in connection with the Victory Liberty loan campaign, giving aerial sham battles and air acrobats over 50 leading American cities. The demonstrations will be under the management of the Victory Loan publicity bureau, of which Frank P. Wilson is director, and the actual flights will be under the supervision of the military aeronautics branch of the war department with Captain Leon Richardson in charge. Fourteen captured German Fokker planes were landed recently at Newport News and will be shipped at once to Washington. The best types of American planes developed during the war will be demonstrated. The tours will start April 10, although the loan selling campaign does not open until April 21.

Six of the best British flyers developed during the war will participate. Eight French flyers, one of whom has a record of 43 victories, have left France for the United States to take part. The schedule of the western squadron follows: Los Angeles, Fresno, San Francisco, Sacramento, Reno, Salt Lake, Boise, Walla Walla, Portland, Seattle, Yakima, Spokane, Missoula, Butte, Sheridan, Wyo., Denver, El Paso and Phoenix, Ariz.

WEEKLY FORECAST OF WEATHER BUREAU
Forecast for the period March 17 to March 22, 1919, inclusive. Pacific coast states: Frequent rains, with temperature below normal.

Secretary Rhodes to Speak in City

Mr. Rhodes, Interstate Secretary of the Y. M. C. A. work in Oregon and Idaho, will deliver an address of unusual interest on Wednesday evening, March 19th, at the Presbyterian church at 7:30 o'clock. Mr. Rhodes has recently returned from France where for over a year he had charge of all construction work in southwestern France. There are few men who have had better opportunity to know the real conditions as does Mr. Rhodes. A great treat is in store. Everybody welcome.

CLEAN-UP DAY!

To the Citizens of Ashland:
Monday, March 31, is hereby designated as "Clean-up" day throughout the city. Don't forget the date. Don't fail to make preparation for it. The city provides teams. They will call for your garbage some time during that day. Have it ready. Burn everything you can, then put the remainder of garbage in boxes, bags or barrels and have them located where they can be easily reached, in the alley—or in the street if there is no alley—and by all means have it ready for delivery early. Let us make our city if possible the neatest, cleanest and most beautiful city. We have good reason to expect a very prosperous year; the ground is well soaked and the mountains are full of snow for summer irrigation which practically insures a bountiful harvest. The paving of the Stakiyoop and the grading of the Pacific highway to the foot of the mountains, also the grading of the road to Klamath county line, means a good deal of work and a fine pay roll for Ashland. Let's have our city presentable for the tourist travel which commences soon.
C. B. LAMKIN, Mayor.
13-44

Soldiers and Sailors to be Welcomed Home Thursday Night

Ashland homes are being gladdened this week by the arrival of local soldiers from the 69th regiment, C. A. C., who were discharged from military service at Camp Lewis last Friday. They have been coming in from two and three on nearly every train from the north since Saturday. The greater part of them stopped off in Portland over Sunday, and this week will see the most of them arrive. A reception will be given these boys as well as all others who have come before, next Thursday evening, March 20. Ashland Lodge of Elks have generously offered the use of their Temple for this purpose, and the citizens of Ashland are invited to attend and welcome home these heroes of the great world war. The committee on arrangements urgently request all soldiers and sailors, in the city, no matter in what branch of the service or organization they served, to appear at this reception in uniform. This will be the last public demonstration to the boys in service until Victory Week, and is given to all, whether they served in the 69th, or any other department. A musical program and two snappy short addresses, with the accent on the short, will be carried out, after which the entire Elks Temple will be turned over to the enjoyment of the assemblage. The band will be present and play during the evening, while a good orchestra will furnish music for dancing. The social entertainment will take place down stairs in the Temple, and the dancing upstairs. This reception of Thursday night will be arranged practically on the same lines as that given two weeks ago when the 65th returned, and will be another welcome home to those as well as to all other organizations who have come home in scattered numbers at various intervals. On account of their returning in this manner, no special public attention could be given these, so they will be given a royal welcome at this time. Don't forget the date and place, Thursday evening, March 20, in the Elks Temple.

Washington Now Has Death Penalty

Acting Governor Louis F. Hart, Friday signed a bill passed by the Washington legislature intended to restore the death penalty in Washington for first degree murder. The bill is subject to referendum for ninety days. It was said in Olympia that a campaign to suspend its operation may be started. Hanging was abolished several years ago. The last legal execution was on February 25, 1911, at the state penitentiary at Walla Walla.

RED CROSS TO MAKE CLOTHES COLLECTION

Beginning March 24, the Red Cross will make another collection of used and surplus clothing during that week. The two former collections of used clothing were made by the Red Cross for the Belgian Relief Commission for the French and Belgians behind the German lines. This collection is wholly under the Red Cross auspices and is for all the distressed peoples of Europe, except the Central Powers. The amount asked is just twice as great as last time, ten thousand tons from the United States, six hundred tons from the Northwestern Division, and consequently twice as much from the local chapter as was requested last time. Mrs. E. V. Carter has kindly consented to act as chairman, and will be at the Red Cross rooms to receive the contributions.

Red Cross Nurse Home From France

Mrs. Henry G. Gilmore has been notified of the safe arrival, in New York, of her niece, Miss Mabel Howard Albro, from France. Miss Albro left Pasadena last July for New York to go as a Red Cross nurse to the poor children in the south of France. She was assigned to the Children's Hospital in Bordeaux, where she worked unceasingly for the betterment of conditions, introducing modern methods for the comfort of all concerned. At Christmas, trees were procured and laden with gifts for the pleasure of all sick children; and their festivities lasted a full week. Miss Albro is a graduate of the Children's Hospital of Boston, Mass., and before leaving France gave special training to a French girl to take her place in the hospital. After a week spent in her home city, Newport, R. I., and before returning to Los Angeles, she will visit her sister, Mrs. James E. Ewers, who as Miss Helen Albro, with her mother, visited her relatives in Ashland four years ago.

A fine rental contract for party who knows how and will run an orchard. See Billings agency upon.

Portland On Map For Mail Airplanes

Portland, Ore., March 17.—If a suitable landing ground for airplanes can be found in this city by next June, Portland will be on the air map and will be visited regularly by mail airplanes. Colonel Milton F. Davis of the air service of the war department advised Eric V. Hauser, of the Portland rose festival committee. Requests had been made that an air fleet be sent to Portland during the festival and this will be done, if possible, Colonel Davis said.

W. L. FINLEY RECEIVES NATIONAL APPOINTMENT

To William L. Finley, state biologist, has been offered the vice presidency of the American Game Protective Association of New York City, according to announcement made recently. He has not made up his mind whether to accept. The American Game Protective Association is a national association with a large annual income devoted to education and propagation of wild bird and animal life of the United States. Mr. Finley was for eight years connected with the Oregon Fish and Game commission, having been president of the commission when it was organized in 1911 and resigning only to become state fish and game warden. When the office of state biologist was created, he was given that position. As a member of the advisory board of the federal migratory bird law appointed by the secretary of agriculture, Mr. Finley represents the Pacific coast states.

Month Too Old to Enter Annapolis

Darrell Minkler, the young grandson of Mr. and Mrs. D. L. Minkler of this city, was recently appointed by Congressman Hawley for Annapolis, and had made arrangements to attend a preparatory school in Washington, D. C., to get ready for the examination to be held in April. After his furlough had been granted and Darrell was ready to go to Washington, he discovered that he was too old by a few weeks. Strict naval regulations require all candidates for Annapolis to be under twenty years of age to enter the academy, and Darrell's twentieth birthday is this month, while the examination takes place in April. This is a great disappointment to the young man, but such is the law and could not be gotten around, so the young man has now sailed for Chile on the U. S. S. North Bend where he is first radio operator. While on his way from the Atlantic coast Darrell sent a radio message to his mother, Yeomanette Helen Minkler, who is stationed at Bremerton, Wash.

Darling's for portraits that please.

L. C. LEACH DIED AT MAIN ST. HOME

Lester C. Leach, baggageman at the Southern Pacific station, died at his home on North Main street Monday forenoon after a short illness. Mr. Leach was 39 years of age, and had been a resident of Ashland for nearly two years, coming here from Talent. Funeral services will take place from the Methodist church Wednesday afternoon at 2 o'clock, and interment will be made in Mountain View cemetery. Mr. Leach is survived by his wife and three sons.

\$25,000 to be Raised For Woman's Bldg.

A campaign is opening in Eugene to raise \$25,000 to aid the fund for the construction of a \$200,000 Woman's building on the campus of the University. Of the \$200,000, half has been appropriated by the state legislature, to be available for use in blocks of \$25,000 as equal sums are raised by outside subscriptions. The Eugene canvass is in charge of a committee appointed by the Chamber of Commerce. In their appeal to the citizens for funds in support of the project, the committee points out that the enrollment of women in the University has practically doubled in the last six years, increasing from 284 in 1913, to 550 this year. The gymnasium used by these 550 young women would be too small, it is declared, for half that number; the building is rapidly disintegrating, with its floors a mass of splinters and its foundations rotting. This old gymnasium was built for the men 38 years ago, and when discarded by them, was turned over to the women. The girls have no swimming pool of their own and are forced to do all their swimming in the men's tank at narrowly restricted hours, which greatly reduce the opportunity for its use. The first \$1,000 of Eugene's \$25,000 has already been subscribed by President and Mrs. P. L. Campbell, of the University. The second big donation is one of \$500 by Vick Bothers, of Eugene and Salem. It is hoped to get the building under way early in the summer and to complete it before the end of the next college year. The campaign for subscriptions throughout the state will be conducted in great part, by the State Federation of Women's clubs, which has a committee at work, headed by Mrs. Roy T. Bishop, of Pendleton.

Talent Soldier Has Honorable Mention

Talent has a soldier who was named among a number for showing great courage and persistent devotion to duty in the advance thru Argonne Forest October 14. This is Ormy Goddard, son of Mr. and Mrs. H. H. Goddard. These soldiers, numbering twelve in all, participated in the capture of 100 prisoners, and the greatly outnumbered fought fearlessly and without regard to personal danger. This soldier is a private, first class, No. 3,133,808. He was drafted in June, 1918, and went to Camp Lewis June 27. From there he was sent to Camp Kearney, thence to New York and to France. He was placed in the 77th Metropolitan division of New York city, and went on the Meuse-Argonne drive September 26. When the armistice was signed he was at Sedan.

CHICKEN OWNERS ATTENTION!

The attention of chicken owners is called to the ordinance prohibiting chickens to run at large within the city limits. Ordinance No. 99 reads as follows: "An ordinance to prevent and prohibit chickens and other domestic fowls from running at large within the corporate limits of the city of Ashland, Jackson county, Oregon." Violations of this ordinance is deemed a misdemeanor, and violators upon conviction may be fined in a sum not less than \$5.00 nor more than \$25, to which said fine shall be added the costs. As the time is at hand for plowing and planting gardens this ordinance will be strictly enforced.
J. W. HATCHER,
Chief of Police.

Strikers Go Back at Tacoma Shipyards

All Tacoma shipyards opened up for work Tuesday morning at 8:00 o'clock, mostly with less men than went out on strike January 21. At the Todd steel yard the men gathered in large numbers before the gates, where extra provisions had been made to register every applicant under his former department list. The service men especially required to put the large plant into operation were taken in at once and the balance will be placed as the organization in the yard proceeds. The office and the large hotel were again filled with the staffs necessary under present conditions. Three shifts will be worked when the men and the service details are arranged, which may require several days. The Seaborn, Wright and Babare plants, three wooden shipyards, resumed at the same hour, all with less men than heretofore because, it was stated, cancellation and recent changes in specifications reducing Ferris type ships to barges gave less opportunity for construction work. All the firms took back such men of former crews as they could place, and expect to fill in to requirements within the next few days. C. C. Moore & Co., manufacturing and installing mechanical equipment for ships, resumed with about 125 men and expect to list a few more, while the Pacific Steel & Boiler works will begin Wednesday. At this plant a verification of citizenship will be one of the requirements for every man who enters the plant.

National Guardsmen Take Examination

At the meeting of the National Guard last night the physical examination was given to a large number of recruits. Next Monday night the election of lieutenants will take place, after which the company will be ready for admittance into the federal service. An officer from the war department is expected to arrive some time in the near future to inspect and approve the organization. A number of new recruits have been received since the last list was published. It is necessary to have more than the requisite number, as some may fall in the physical examination, while others will leave Ashland and be compelled to drop from the roster. The new recruits from last week are: Lewis M. Benson, Olin G. Conwell, William W. Dean, Elijah A. Denton, Leslie E. Heer, Raymon W. Long, Clarence J. Morris, William A. Robinson, Marlon A. Severance, Bert H. Smith and Herbert C. Weber.

Women of Klamath Form Booster Club

The first commercial organization ever started by women in Klamath Falls has been launched by 11 women in that city. The men of the city, the women say, have been somewhat dilatory in reviving the commercial club which was suspended for the period of the war and the urgent need of an organization of this kind is believed to have prompted this step. The new organization has not yet been named, but the members have announced their intention of getting behind the move for the completion of the Natron cut-off, better county highways, civic improvements of all kinds, parks, schools, public playgrounds and clean streets.

BURT J. CARPENTER SAFE ON HOME SHORE

Mr. and Mrs. G. E. Carpenter were gladdened Saturday morning by receiving a telegram from their son, Burt J. Carpenter, from Camp Stuart, Newport News, Va., dated March 11, in which he said: "Arrived here this morning safe and well after a fine trip. Can't say exactly when I will get home, but trust it will be soon. Hope this finds you all well." Burt has been in France with the Camp Lewis Detachment, 74th Engineers, and his return home is eagerly looked for by his relatives and friends.
