AMONG OUR NEIGHBORS

Heppner, Or.—At the county conference of the Oregon State Chamber of Commerce, held Thursday evening, the membership quota for this county was pledged in full. J. S. Stewart, of Fossil, represented the state chamber at the meeting and made a very interesting address. After the members applying had been taken care of the meeting was turned into a good roads meeting and Mr. Stewart explained the new law passed by the last legislature. A resolution was adopted by the entire membership present to immediately put into circulation petitions for bonding Morrow county to the limit for good roads, the amount to be raised to be \$290,000. There was a large attendance and the sentiment shown at this meeting indicates that the bonds will carry by a large majority in this county.

Three trunks containing together approximately 192 quarts of whiskey, carefully packed in water bags were taken by W. G. Chandler, special agent of the Southern Pacific company, assisted by a government officer. The trunks were checked from California and were consigned to Salem, Albany and Jefferson. Due to the fact that the trunks were packed in the same manner and checked to points within short distances of each other, it is believed by the officials that the same persons are responsible for all three booze receptacles. Packed in neat rows in two-quart water bottles, the trunks could be bumped about without any sound from the inside. No leakage resulted, as it frequently does, and it is believed that the railroad officials must have had inside information concerning the violators of the liquor law. The owner of the trunk has not yet been apprehended.—Eugene Guard.

Plans are now being completed for the erection of a cannery and fruit drier in Sutherlin; the site of the buildings has been definitely settled, so the Sutherlin Sun reports. One building will be 60x80 feet, two-and-one-half stories, the other will be a one-story building 134x60, with cement floor. There are a few details and conditions to be met to insure the building of this plant, but they are of minor importance and these will probably be met. The company will be incorporated for fifty thousand dollars and the complete organization will be announced next week.

Superintendent of City Parks Keyser has opened a "matrimonial bureau," reaching thruout the United States. The bureau has derived no success as yet, but superintendent Keyser is confident of ultimate success. The bureau is operated for the sole purpose of securing a mate for General Pershing, the swan in Laurelhurst lake. The bird has been pining of late for company other than the children who romp and frolic in the park. In fact, according to Mr. Keyser, General Pershing has not been as efficient in "policing" the lake as during the last summer, when he continuously guarded the shores of the body of water to keep children from falling into the lake. At times, when the youngsters would fail to heed his unmistakable signs, General Pershing would develop a "peevy" which, it is said, always

Meat: Russia and the Allies

Russia crumbled away and failed the Allies largely through lack of food, according to an American eyewitness.

With plentiful reserves and resources virtually untouched, her people starved at home and at the front because there was no adequate organization to place food where it was needed.

Animals on the hoof were shipped thousands of miles to the various fronts, wasting transportation facilities required for other purposes. They arrived shrunken and emaciated, to be killed and dressed amidst filth and confusion behind the lines. Half of those brought from Siberia, it is said, perished on the way; many more were unfit for food.

On the other hand, the American packers turned live stock into meat in large sanitary plants located in the producing sections, and shipped the product under refrigeration so that it reached the trenches in France in perfect condition, without waste.

Says Our Authority:

"Had such facilities for cold storage transportation been available to the Russian supply committee as were placed at the disposal of the quartermaster of the United States by Swift & Company, there might have been a different story concerning Russia's part in the final drama of the war."

A large-scale packing industry would be an asset to Russia, in war or in peace, as it has proved to be to the United States.

The cost of this large scale industry in the form of profits is only a fraction of a cent per pound of meat.

brought a realization of his intentions to the young obdurate minds. Superintendent Keyser hopes to secure a mate for General Pershing either from San Francisco or Philadelphia within a short time.—Portland Oregonian.

Portland, Ore.—Robert Love caused the arrest here last Friday night of Ralph Ballinger, also known as "Tillamook Kid," according to the police. A charge of robbery may be placed against Ballinger, the police said today. Love alleged that Ballinger inveigled him to a lonely spot near Johnson creek, 20 miles from the city on the pretext that he had three ten-gallon barrels of whiskey to sell for \$750. Love declared that Ballinger knocked him down, took the \$750 and ran to his waiting automobile which had been left with the engine running at the roadside. Two other men were with Ballinger, according to Love, and the three escaped. Love pursued them in another car as soon as he recovered, he said.

All the contracts have been awarded on the Gold Hill Irrigation canal. The Board of Directors have closed contracts with Toney Ross for completion of the canal from Stricker's to Miller's gulch, with L. W. Van Houten for the canal from Miller's gulch to Champlin's line and with A. K. Earhart of Rogue River from Foots Creek to the end of the canal. All these men are local except A. K. Earhart, who lives near Rogue River. The contracts for the flumes have been awarded to F. S. Carter from the head gates to Rock Point and to Mr. McFarland of Grants Pass, from Rock Point to the end of the canal. With the exception of small pieces of construction here and there, this will complete the whole canal. The water is estimated to be flow-

Weekly Health Talks

Where Most Sickness Begins and Ends

BY FRANKLIN DUANE, M. D.

It can be said broadly that most human ills begin in the stomach and end in the stomach. Good digestion means good health, and poor digestion means bad health. The minute your stomach fails to properly dispose of the food you eat, troubles begin to crop out in various forms. Indigestion and dyspepsia are the commonest forms, but thin, impure blood, headaches, backaches, pimples, blotches, dizziness, belching, coated tongue, weakness, poor appetite, sleeplessness, coughs, colds and bronchitis are almost as common. There is but one way to have good health; and that is to put and keep your stomach in good order. This is easy to do if you take Dr. Pierce's Golden Medical Discovery. It is a wonderful tonic and blood purifier, and is so safe to take, for it is made of roots and herbs. Dr. Pierce, of Buffalo, N. Y., stands behind this standard medicine, and it is good to know that so distinguished a physician is proud to have his name identified with it. When you take Golden Medical Discovery, you are getting the benefit of the experience of a doctor whose reputation goes all around the earth. Still more, you get a temperance medicine that contains not a drop of alcohol or narcotic of any kind. Long ago Dr. Pierce combined certain valuable vegetable ingredients—without the use of alcohol—so that these remedies always have been strictly temperance medicines. If you are torturing you, get and use Pierce's Anodyne File Ointment. The quick relief it gives is hard to believe until you try it. If constipated, Dr. Pierce's Pleasant Pellets should be taken while using Anodyne File Ointment. Few indeed are the cases which these splendid remedies will not relieve and usually overcome. They are so good that nearly every drug store has them for sale.
