There is about three feet of snow at Union Creek. Road will probably be open July 1.

Three Rivers—The approach to Three Rivers road is impassable thru the Grande Ronde Indian Agency, owing to heavy rains, adobe character of the road bed, and lack of any surfacing material. It will probably be passable June 1. This road is closed for construction work between Dolph and Hebo. No detour is possible at present. Later in the season the Little Nestucca road will be open to travel and the Tillamook country can be reached in this way.

GOLD HILL MAY GET LARGE BOX FACTORY

A box factory with a 30,000 feet capacity in the immediate future seems a possibility for Gold Hill, according to the Gold Hill News, which says: "The officers of the Rogue River Lumber and Box company met with the citizens and business men of Gold Hill last Wednesday evening. Plans are being formulated to secure this splendid enterprise for Gold Hill. The capacity of the mill will be sufficient to consume the product of Sardinia creek and several other outlying timber districts, developing the resources as nothing in the past has ever attempted. This means another and greater pay roll for this community."

Roseburg now has a real live canery.

Pheasant Farm May Be Located in Lane

EUGENE, Ore.—That he would recommend the Reddish farm in Lane county for the proposed new game farm of the state, providing better and more economical sites were not obtainable, was the statement made by State Biologist William L. Finley here Saturday afternoon. Mr. Finley came to Eugene to confer with local game interests and inspect the Reddish ranch, about five miles north of the city.

"The Reddish farm will cost the state \$160 an acre for 48 acres, a total of \$7680," declared Mr. Finley. "The ranch is entirely unimproved and an outlay of between \$5000 and \$7000 would probably be necessary to put it in shape to raise birds. If there are more available places in other parts of the valley, which are improved and would not cost the state so much money, I would only follow an honest conviction in recommending one of them for the establishment of the game farm. The Eugene site is favorable in every way for a farm and I have no personal or political motive in objecting to establishing the farm there. However, I shall look over several sites in Lane county and other places in the valley before making any recommendations to the fish and game commission."

SPRING FEVER

Following Colds, Grippe, Throat Watery or Poisoned Blood

(By Dr. VALENTINE MOTT.)

At this time of year most people suffer from what we term "spring fever" because of a stagnant condition of the blood, because of the toxic poisons stored up within the body during the long winter. We eat too much meat, with little or no green vegetables.

Bloodless people, thin, anemic people, those with pale cheeks and lips, who have a poor appetite and feel that tired, worn or feverish condition in the spring-time of the year, should try the refreshing tonic powers of a good alternative and blood purifier. Such a tonic as Dr. Pierce's Golden Medical Discovery. It is a standard remedy that can be obtained in tablet or liquid form. Made without alcohol from wild roots and barks.

Occasionally one should "clean house" with castor oil or tiny pills made up of the May-apple, leaves of aloe and jalap, and sold by almost all druggists in this country as Doctor Pierce's Pleasant Pellets.

Los Angeles, Cal.—"I will gladly tell of the relief and cure Dr. Pierce's Golden Medical Discovery gave me. I was sick with all troubles of stomach, liver, etc., and La Grippe with all its attending ailments. When all else failed Dr. Pierce's Golden Medical Discovery did the good work. I also took 'Pleasant Pellets' for biliousness, with grand success. I write with gratitude to tell others of the relief that is in store for them. Do not delay but hasten to get the above remedies if suffering from any indisposition."—Samuel Katsky, 978 Euclid Ave.
