GOVERNMENT HAS TWO

ISLANDS FOR RENT

VENTURA, Calif.—The government has announced that two of the Channel Islands, about 60 miles off shore, are for rent, and their descriptions are on file in the Ventura county courthouse here. The islands are Santa Barbara and San Nicholas. The latter is at present under lease to J. G. Howland of Los Angeles. San Nicholas, 44 miles west from San Clemente, is seven and a half miles long and has a general width of two and a half miles. The highest point is 890 feet. Two thirds of the island is practically bare sand and the balance is covered with coarse grass and a few patches of scrub oak. There is a good flock of sheep on the island.

Santa Barbara is a mile and a half long and a mile wide. There is no water and no grass, but plenty of prickly-pear shrub. This island rises to a height of 547 feet. Landing is at all times difficult.

FORD & SON TAKE OVER

MAJORITY OF STOCK

Reorganization of the Ford Motor company is being completed, whereby Edsel B. Ford, 25 years old, president of the company, becomes with the exception of one other stockholder, the sole partner with his father, Henry Ford, in the corporation. This announcement was made by Frank L. Klingensmith, vice president and general manager of the company.

Mr. Klingensmith announced that purchase had been arranged of all the minority stock excepting a block held by James Couzens, millionaire mayor of Detroit and former vice president of the company.

Mr. Klingensmith and other officials of the company refused to divulge the amount involved in the purchase. It was estimated in financial circles, however, that it would total close to \$100,000,000.

Up to the present Henry Ford has held 58 1/2 per cent of the Ford Motor stock. The minority stock bought in included that of John F. and Horace E. Dodge, heads of the Dodge Motor company.

The announcement comes as a complete surprise in motor and financial circles, as it had been rumored for some weeks that another large automobile concern was seeking the minority holdings.

It is stated on authority that Henry Ford has decided to increase the minimum wage of Ford Motor company employes to \$7 a day. It is believed the new minimum will be put in effect soon, probably by August 1 or thereabouts.

WOMEN ELIGIBLE TO

JOIN AMERICAN LEGION

Provisions for admitting service women to membership in the American Legion have been announced by the national executive committee, and those in charge of the movement are urging Oregon women to affiliate with the organization. The plans are being made for the first convention to be held in Minneapolis November 11, the anniversary of the signing of the armistice, and the executive committee has recommended that all state bodies observe the day with appropriate celebrations.

DISCHARGED MEN ARE

GENERALLY HEALTHY

More than 93 per cent of the 2,000,000 officers and men of the army who have been demobilized since the signing of the armistice, were discharged with a clean bill of health, according to an announcement from the office of the surgeon-general of the army.

Negro troops showed a slightly better physical condition than the white, but a higher percentage were held for communicable diseases.

THIRTY BILLIONS WAS

COST OF WAR TO U. S.

The war cost to the United States was \$30,177,000,000 up to June 30, 1919.

Secretary Glass made this estimate in submitting to the congressional appropriation committee the statements of the treasury on the condition of the nation's finances. He arrived at the estimate by subtracting the average peace-time expenses for the same length of time, at the rate of \$1,000,000,000 annually, from the total expenditures, \$32,427,000,000 during the war.

Taxes and other revenues than borrowed money took care of \$9,384,000,000, or about 29 per cent of the war cost. The remainder came from Liberty bonds and Victory note issues and savings stamps.

Further issues of bonds, Mr. Glass said, will not be necessary "before the maturity or redemption of the Victory notes, which have four years to run. While it is impossible to estimate the expenses to be incurred during the present fiscal year, the secretary is confident that the treasury certificate supplemented by the short-term notes will provide the necessary funds to pay the government's debts."

CENTRAL WEST ROADS

WIN IN SAFETY TEST

The Central Western region, comprising the territory from Chicago to the coast and south of Ashland, Ore., won over all the other regions in the country in the recent "No Accident Week" conducted by the United States railroad administration.

Federal Manager W. R. Scott of the Southern Pacific and Western Pacific lines, the Tidewater Southern and Deep Creek railroads has received telegrams of congratulation from Regional Director Hale Holden and H. A. Adams, regional supervisor of safety, testifying to the fact that the western roads have again showed their supremacy in the realm of safety. Forty-eight out of sixty roads showed a clear record and the others reduced mishaps 79 per cent over the same week in 1918.
