OREGON CAN FURNISH BIG LIST FOR LEGION

According to figures in a Washington report recently issued the number of army men in Oregon to enter the American Legion is more than 30,000. The report shows that Oregon furnished 5,165 enlistments in the regular army, 2,395 men for the enlisted reserve corps and national army, 4,306 national guardsmen and 18,230 draftees, a total of 30,116. In addition to these 30,000 possible members, the American Legion may draw upon the navy and marine corps for its personnel.

PRICE OF GASOLINE WILL NOT BE LOWER

No reduction in the price of gasoline can be looked for this year, according to three of the biggest crude oil producers in the United States. The men are E. D. Kelly, an engineer who is connected with a Chicago brokerage and oil developing company, L. D. Welch and C. L. Woods of Denver. In partnership the three control 200,000 acres of oil land in Texas, Wyoming and Louisiana.

"The country is now turning to Texas and that state is suffering an oil rush not unlike the old style over-night gold strike," he said. "In Wichita county alone 27 refineries were erected in the last six months. The smaller concerns are making a greater success of it than was ever dreamed of."

"Future gasoline prices are going to depend entirely upon the number of fields developed. When you realize that so many automobiles are in use now that you can't buy a good one today without ordering weeks or months ahead, you will know where the oil is going to. There is a national shortage and, while it is not at present serious, we've got to watch out for it."

"A good share of our gasoline and oils is being shipped to England and other countries. After war conditions have been adjusted and the wells of Australia and elsewhere are back on their old basis, attention must be turned to supplying this nation. We have got plenty of use for every bit of our own oil right in the United States without sending any of it away."
