### LEGAL NOTICES

**NOTICE FOR PUBLICATION**  
DEPARTMENT of the Interior, U. S. Land Office at Roseburg, Oregon, June 24, 1919.

NOTICE is hereby given that Eugene O. Bailey, of Ashland, Oregon, who, on June 15, 1914, made Homestead Entry, Serial No. 09541, for the N 1/2 of SE 1/4 and SW 1/4 of SE 1/4 of Section 28, Township 38, Range 2E, Willamette Meridian, has filed notice of intention to make Final Three-year Proof, to establish claim to the land above described, before Chauncey Florey, Clerk of County Court of Jackson County, Oregon, at Jacksonville, Oregon, on the 28th day of July, 1919.

Claimant names as witnesses: J. N. McCune, of Ashland, Oregon; A. C. Nisinger, of Ashland, Oregon; Benton Bowers, Jr., of Ashland, Oregon; Lyman A. Dalley, of Ashland, Oregon.  
W. H. CANNON, Register.  
42-10t

### PART-TIME SCHOOLS

#### PROVIDED BY LAW

Plans are now being formulated by State Superintendent Churchill to put into effect thruout Oregon the law passed at the last session of the state legislature requiring persons between the ages of 16 and 18 years who are employed and have not received an eighth-grade education to attend what will be known as part-time schools.

Superintendent Churchill says this department of education was discussed quite thoroly at the recent meeting of the National Education association held at Milwaukee and it was the general consensus of opinion among educators that it will be a success.

Probably the most important factor entering into the successful operation of the part-time schools, according to Mr. Churchill, will be the selection of teachers. Because of the fact that persons affected by the law will not have to attend school more than an hour each day, it will be necessary to obtain instructors who are able to get into close touch with their pupils and decide what studies are best adapted to their training.

Mr. Churchill says Americanism will be one of the chief fundamentals upon which the school will be conducted and a determined effort will be made to give persons with limited education such training as will fit them for better positions.

The law, which had the special support of labor, provides that in all districts where there are 15 persons eligible for this training the school boards must furnish the proper equipment and employ teachers to carry on the work. The act provides also that pupils attending this school will do so on their employers' time.

It is Mr. Churchill's opinion that practically every first-class district in Oregon will be affected by the law. As soon as convenient the state superintendent will urge upon county superintendents the necessity of surveying their respective jurisdictions with a view of determining whether they come under the provisions of the new law. In districts where the required number of pupils are found, making the part-time schools necessary, an effort will be made to have them in operation concurrent with the opening of the fall term of the public educational institution.

#### TAX ON SODA WATER

Repeal of the soda water tax was decided on Thursday by Republican leaders of the house. The decision will be referred to the ways and means committee, which will draft a repeal measure. Some leaders predicted the tax which levies an impost of 10 per cent on soft drinks and ice-cream would be repealed within a month.

### COOS BAY ROAD GRANT

#### NOW BEING CLASSIFIED

Approximately 18,210 acres in Douglas and 74,125 acres in Coos county are included in the Coos Bay Military Wagon Road grant, a strip of country about 12 miles in width running west from Roseburg to the coast. The lands are now being classified and will be opened at a future date, according to a report just issued by the department of the interior. Following is a part of a circular letter sent out by the government explaining the situation of the land:

"Lands found to have less than 300,000 feet of timber to the 40 acres are classified as agricultural. When opened to entry these so-called agricultural lands must be entered under the general provisions of the homestead laws, as modified by the special act vesting the lands, and in addition entryman must pay at the rate of \$2.50 per acre—50 cents per acre at the time of entry, and \$2.00 per acre at the time of proof. Lands which are found to have 300,000 feet or more of timber to the 40 acres are classified as timber lands. Such lands will not be opened to entry until the timber thereon

has been sold by the government and removed by the purchaser. Such lands will then be opened to entry under the homestead laws.

"We have no map showing the location of these lands by counties, but can furnish township plats at the rate of \$1.00 per plat. Such plats will show the location of all grant lands in the township, as well as all lands subject to entry at the date of mailing. Orders for plats should be accompanied by postoffice money order payable to R. R. Turner, receiver, and should clearly state the correct number of the township and range desired."

### PORTLAND SOLDIERS

#### AGAINST PROHI LAW

Results to date of a straw vote of returned soldiers, being taken at the local army recruiting office show that national prohibition is in disfavor with the veterans here, woman suffrage is favored, universal military training finds strong support and American girls are preferred to French girls by almost five to one.

Of those casting ballots, about 75 per cent have been wounded veterans of the war.

Total returns since the voting started are: For national prohibition 35, against 55; for universal military service 63, against 26; for the league of nations 77; against 36.

The disposition of the kaiser and his councillors now stands. For death 35; exile 22; for liberation 5; neutral 10 and not voting 8.

The American girls is preferred to the French by 46 votes to 10; three have refused to vote, 12 are doubtful and 19 are neutral.

### IRRIGATION DISTRICTS

#### HAVE BRIGHT FUTURE

Irrigation prospects in Oregon were never as bright as at the present time, according to State Engineer Copper, who has returned after a tour of inspection covering several days.

Engineer Copper first visited the Grants Pass project. Water for this district is being pumped temporarily and the commission will be asked to certify to bonds in the sum of \$50,000 or \$100,000 within the near future. At the Gold Hill project water already has been turned into the canals and certification of \$25,000 additional in bonds will be asked.

The Langel valley project, in Klamath county, contains 30,000 acres and will purchase its water from the United States reclamation service. Mr. Copper also visited the Silver Lake project, containing 8000 acres, for which the state will be asked to certify bonds in the sum of \$300,000. While on his trip Mr. Copper completed the task of adjudicating the waters of Thomas creek, Drew's creek, Cottonwood creek and the tributaries of Goose lake.

### SKULL OF INFANT IS

#### UNEARTHED IN MOUND

What is said to be the skull of an infant was unearthed in the Blevins mound near Albany by members of the party of summer school students of O. A. C., faculty, and townspeople who took the excursion to the mounds Saturday under the direction of J. B. Horner, professor of history at the college.

Permission to dig for relics was granted by the owner of the mounds and great excitement was caused when a few bones were dug up nearly three feet below the surface of the ground. To the disappointment of the crowd they proved to be the bones of a large fowl but later in another mound the skull was found.

The party visited the museums of Dr. J. L. Hill and J. G. Crawford in Albany where relics taken from the Skulls, mortars, pestles, and various utensils and weapons used by the ancient people were exhibited. Mr. Crawford is said to have one of the best exhibitions of prehistoric relics in the northwest. He has what he calls the Adam and Eve skulls of Oregon.

## What? Bending over a Range this Hot Weather?

### Try a Simplex Universal Combination Range

You can use it for gas in the summer and when the weather gets cold use wood or coal for fuel all in the same stove. There are no parts to change in turning from one fuel to the other. It is simple enough for a child.

### Three Ranges in One and But One to Buy

A twist of the key in one direction elevates the gas burner flush with the bottom of the oven, opens the exit in the top, turns on the gas—all automatically. A turn of the key in the opposite direction and the gas is turned off, the burner lowered, the exit closed and the range ready for coal or wood.

Come in and take a look at the Best Combination Range on earth. We will take pleasure in showing you

Economical House Furnishers

### ONE-THIRD OF HIGHWAY

#### WORK IS IN DOUGLAS

State Highway Engineer Herbert Nunn of Salem, and Highway Commissioner R. A. Booth, of Eugene, arrived here from the north on a tour of inspection of the Pacific highway. Traveling with the state officials is John Kelley, a representative of the Portland Oregonian, who is to chronicle the trip.

In speaking of the Pacific highway in Douglas county, Mr. Kelly stated that there was now \$1,300,000 under contract in this county. "There are only 300 miles of the Pacific highway in the state," said Mr. Kelly, "and one-third of that is in Douglas county, which means that an enormous amount of money will be spent here."—Roseburg News.
