IN GOOD CONDITION**

W. H. Banes, Northwest distributor for Peerless Piston Kings, has just returned from a trip to San Francisco, Oakland, Los Angeles and San Diego and reports the Cow Creek canyon in good condition, says the Portland Telegram. Reports are out that this canyon is in very bad shape, Barnes says from his own observation the road between Dunsmuir and Redding in Northern California has them all backed off the map for roughness and steep grades, pitches of 32 per cent being common.

He advises the prospective tourist over this route to carry a couple of spring clamps for emergency, as many cars were laid up along the road with broken axles and springs.

Banes stopped in Klamath Falls on the return trip and says that the merchants and wholesalers of Portland are losing a golden opportunity to San Francisco by failing to connect Bend to Klamath Falls by rail. The country around Klamath Falls is developing very rapidly and a rail-

**THE MOST DANGEROUS DISEASE**

No organs of the human body are so important to health and long life as the kidneys. When they slow up and commence to lag in their duties, look out! Find out what the trouble is—without delay. Whenever you feel nervous, weak, dizzy, suffer from sleeplessness, or have pains in the back—seek up at once. Your kidneys need help. These are signs to warn you that your kidneys are not performing their functions properly. They are only half doing their work and are allowing impurities to accumulate and be converted into uric acid and other poisons, which are causing you distress and will destroy you unless they are driven from your system.
