ful statement; it also has been proved. Somebody who doesn't raise a grain of wheat in the Northwest is making millions of dollars every year on the difference between the price paid for Northwestern grain at Portland and San Francisco. Surely this is a matter of deep interest to Columbian basin producers. It is a condition of affairs that ought not to exist. It would not exist for thirty days longer if the press and people of the Northwest would look into the matter. There are some features of the wheat buying and carrying question in the Northwest that will not bear investigation. A united and determined uprising of public sentiment against the present order of things would lead to an instant change. Wheat is carried from New York to Liverpool for \$1.45 a ton. It is carried from Chicago to New York for little more than \$1 a ton. The railroads of the Northwest charge an average of over \$5 a ton for each 300 miles of the down grade haul into Portland, and then on every ton which they can manipulate to San Francisco for export they charge \$2.50 a ton more. That is, substantially, the railroads of the Northwest charge \$7.50 for what the eastern transportation lines are glad to do for about a dollar. And as against \$5 cents paid the transportation companies from New York to Liverpool, our Northwestern lines receive \$7.50. It does seem that this is a subject worthy of study and investigation on the part of Northwestern producers and papers.

"On Guard."
When disease shoots the first arrow the true man will come instantly on guard. He will not wait for the attack. He will not hesitate until the full force of disease and misery and death comes crashing about him. When a man begins to feel "out of sorts," when his appetite is falling and his energy is not up to the mark, when he has sluggish attacks and a feeling of listlessness and incapacity, if he is wise, he will take Dr. Pierce's Golden Medical Discovery right away. It will bring his appetite back again, and what is more it will bring back his digestive powers. It will give all the assimilative functions of the edge and power to extract abundant nourishment from the food he eats. It will make good, pure, healthy blood and send it coursing rapidly through his veins and arteries into every organ and tissue of the body. It will put flesh on his bones and force in his muscles; it will give him strength and courage and cheerfulness, in a word it will give him complete health. It excretes from the system every particle of dead, useless, fatty tissue. It even reduces the weight of the corpulent man at the same time that it builds up his strength and working power. The weight it adds to people who need it is the kind that comes of pure blood and every organ doing its work properly and thoroughly,—what pugilists call "fighting weight."

John Paul intends that it shall be a Christian war, if he has to fight for it.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & CO., Toledo, Ohio.
