With cheap rates in vogue to Portland, the rush to the big city on the Willamette will undoubtedly be immense. In this connection, it should be remembered that J. A. Clemenson's drug store at 227 Yamhill street sells at prices a great deal lower than those offered by drugstores either there or elsewhere. For example, a \$1 bottle of Bromo Seltzer may be procured of Mr. Clemenson for 79 cents. The same rates hold good on his entire stock. Why not patronize where money can be saved. Armstrong's

What is it, do you ask?

It is a new way to teach bookkeeping. Students learn to keep books exactly as they are kept in business. No text-book is used. A text-book teaches, in a theoretical way, how books may be kept. Armstrong's teaches, in a practical way, how books are kept. It is a bookkeepers method. Investigate. Call, or write.
