

THE RAILROAD THROUGH SIBERIA

Prospectus Just Issued Which Shows
the Resources of the Country.

PACIFIC COAST INTERESTED

Immense Cargoes of American Steel
Rails for the Line will be Shipped
out of Northwestern Ports.

The Transiberian railroad has just issued a neat prospectus, which is interesting to the Pacific coast, inasmuch as in the development of trade with the Orient from the ports of the Pacific much attention is to be given to Siberia. Already the Eastern iron manufacturers have on hand large orders for steel rails, which it is expected, will be brought west and shipped from this coast to the far Russian north via Japan.

The pamphlet shows that from the completed portions of the road the business already enjoyed far exceeds anything ever anticipated. In 1898 there were carried 948,000 passengers and 616,666 tons of freight. During the first two months of the present year the amount of freight transported amounted to 232,333 tons. In the month of May, on the Central Siberian road, a branch line running southward into the interior, 1,200 cars of freight were waiting two months for their turn to go over the road to the famine-stricken district of Transbaikalia.

During the first two months of the present year 150,000 settlers and workmen, other than those employed on the road, were carried along the line. On the western portion of the line, since its organization, new switches have been built, which will permit of the operating of ten trains a day. On this portion of the road the fifty wooden bridges have been replaced by iron structures of the modern American pattern. The longest iron bridge, over the Yenisei, 2,800 feet long, is now ready for use and will be the means of reducing the time to the Pacific coast ten hours.

On the Transbaikalia line nearly all the grading has been done, and 366 miles of rails have been laid from Stretensk and forty-six miles from Mulsok. The total length of this section of the railroad when completed will be 660 miles. With the American manufacturers delivering their rail contracts on time the completion of this branch, it is expected, will be celebrated about June next year, when a vast area of rich country, thickly populated, will be opened up to the commerce of the world.

The Chinese branch of the line is being pushed south with all the vigor possible. As yet no rails have been laid, but nearly 400 miles of roadbed have been completed. Ten thousand workmen, including a large number of convicts, are kept constantly at work, and with everything favorable, the line will be completed and ready for operation within three years.

This branch opens up to the south one of the most thickly populated districts in all Russia, where the better classes of Russian peasantry reside, and where a great opportunity is offered for American products.

In its inception the Transiberian road was started by the government as a war measure, but has become so popular that its use by the government as a war acquisition has practically been abandoned, and hereafter it will be a source of revenue.

PELVIC CATARRH

A New Name For An Old Ailment,
Known As Female Complaint.

man and Peruna. I thank God and Dr. Hartman for my recovery."

Pelvic catarrh is a new name for a very common disease known as female weakness. Most women have more or less what is called female complaint. This is in reality pelvic catarrh.

There are so many women, especially married women, who drag themselves wearily around from year to year, miserable beyond description. They ache and tremble and throb, growing more nervous, tired and debilitated every day. For this class of sufferers Peruna is the most perfect remedy in existence. It relieves, it soothes, it quiets, it strengthens, and no victim of pelvic catarrh in the land should be without Peruna.

Mrs. A. J. Hull, Leona, Kan., writes: "I feel as if I am entirely well and can do as much work as when I was young. I don't have any pains about me, and I thank you a thousand times for curing me. My trouble was female complaint. I had falling of the womb and great pain. I tell every woman I talk with that Peruna is the best for them and that it saved my life."

Endometritis is the medical term for catarrh of the womb. Catarrh of the womb is very common, producing what is generally called female disease. Dr. Hartman answers all letters free of charge. He treats over 20,000 women annually for some form of female disease. Write him at once.

Address Dr. Hartman, Columbus, O., for a free book.
