

## CIVIL GOVERNOR FOR PHILIPPINES

President Advised He Can Appoint  
Such Official.

### TO FORM CIVIL GOVERNMENT

Affairs in California Administered in  
Similar Manner Before Taken  
Into the Union.

CHICAGO, Sept. 29.—A dispatch to the Record from Washington says: There is an accumulation of information to the effect that the president will soon appoint a civil governor in the Philippines.

The president is advised that he can appoint an official who, acting under military authority, can go ahead and form a government and give a civil administration. He can form this government to the extent of having it complete for adoption by this government if congress should so choose to act.

This advice to the president is based on the military administration of affairs in the territory of California just before it was taken into the union. The president had appointed a military governor for this territory. He created a government and it was so complete and satisfactory that when the territory was taken into the union by congress, the existing government was accepted.

If the president should appoint a civil governor and that officer should proceed to the formation of a government satisfactory, the party leaders might be impelled not to interfere in the next congress, letting the policy stand for itself in the presidential election.

### CLOTH TRUST UNCERTAIN.

Some of the Largest Concerns Have  
Pulled Out and It May Be  
Abandoned.

NEW YORK, Sept. 29.—The Tribune says:

Much uncertainty prevails as to the prospect for the combination of print cloth mills. Two of the three syndicates which within the last few months have been endeavoring to effect the consolidation of the New England mills have abandoned negotiations but the third, represented by Nelson C. Green, of this city, is still in the field.

The New England mill owners have within the last few days renewed the price agreement for the sale of their output, but this agreement, which is usually for six months, is this time to run on to January 1, on which date, it is said, Mr. Green's options become effective. It is understood that the plans of the Green syndicate contemplate the formation of a great corporation with a capital approaching \$200,000,000 to embrace all the print cloth mills both north and south.

### EXCITEMENT AT CARACAS.

President Andrade Reported to Have  
Fled to New York or Porto Rico.

NEW YORK, Sept. 29.—A dispatch to the Herald from Port of Spain, Trinidad, says:

A private dispatch from Caracas reports that President Andrade has left the Venezuelan capital and is believed to have gone to Porto Rico or New York. The report is credited here, but all attempts to secure confirmation have been futile.

General Domingo Monagas, who has great prestige in Barcelona, General Mendosa, commander of the government forces, has only 1,000 troops with which to defend the approaches from Castro's assaults.

Refugees in large numbers are arriving here by steamer. They report that consternation prevails in Caracas.

General General Domingo Monagas, who has great prestige in Barcelona province, promised President Andrade troops from Eastern Venezuela. He collected a considerable army at Cumana, but on landing at Cuanza, in Barcelona, the soldiers declared in favor of the revolution and are marching to form junction with Castro's forces.

Mr. Mariscal will arrive at Eagle Pass on the morning of October 2, where he will be met by General McGibben and civilian committees.

Peace Measures Have Failed.

NEW YORK, Sept. 29.—A dispatch to the Herald from Caracas says: Thursday Martin Sanabria, president of the executive court, General Fonceca, Ortega Martinez and others were banished by the government.

Apparently the hostile forces are on the eve of a great battle. Negotiations for peace have failed.

## CRUISER CHICAGO LAST IN PARADE

### SECOND PLACE OF HONOR

Admiral Howison Says the Position  
Was in Accordance With  
Naval Etiquette.

NEW YORK, Sept. 29.—The cruiser Chicago was the last of the big warships in the parade today.

This, Rear-Admiral Howison explained, was the second place of honor. "I see that quite a fuss is being made in some quarters over the position of the Chicago in the parade and the fact that my ship will not follow immediately after the Olympia and before the New York is thought to be significant of trouble of some kind," he said.

"This is altogether wrong and the supposition grew out of ignorance of naval etiquette and manner. There is not the slightest friction anywhere. Admiral Dewey, Rear-Admiral Sampson and myself are anxious to see everything to go off smoothly and happily and everybody have a good time. To this end, we will do all we can. 'No question of precedence has arisen and it would be impossible for such a question to arise in the navy. It is all foreseen and provided for by the rules which none may disobey. The position of each cruiser and battleship will be taken in accordance with these rules which is to say that they will proceed up the river in the order in which we are now anchored as each vessel actually occupies its proper place. I dropped into my proper place in the rear of the line as soon as I entered port."

"In the column ahead the leading ship has the place of honor. The second place of honor is the rear, thus if we were to go in line abreast, the Olympia would be on the right and the Chicago on the left of the line. My present position at the rear of the North Atlantic squadron would be the head of the second squadron if any more ships were here. You see, it is very easy to explain and to understand."

"The fact that Rear Admiral Sampson had to lower his blue flag with two stars when I arrived does not amount to a row of pins. It is a mere matter of etiquette and nothing more. Rear-Admiral Sampson, for instance, ranks Rear-Admiral Philip. If he were to go to the navy yard, he would fly the blue flag and Philip would lower his blue and hoist the red one. If I was also to go to the navy yard, Sampson would immediately change his blue for a red flag and Philip would change his red flag for a white one, as being junior to Sampson and me. That is all there is in it."

## GRANT'S PASS BURNED DOWN

Business Part of the City Wiped  
Out By Fire.

### CAUSED BY A DEFECTIVE FLUE

Burned District Presents Scene of  
Desolation and the Loss  
Will Be Heavy.

GRANT'S PASS, Sept. 29.—The most destructive fire in the history of Grant's Pass began at 12:30 today in the Palace hotel, a two-story frame building. Although an alarm was promptly given and the fire department was very soon on the ground, the inside of the building in five minutes was a mass of flames. A strong breeze from the west added greatly to the fury of the flames, which spread in three directions in an incredibly short time.

Front street was entirely wiped out for one block from Wade's grocery store to Dixon & McCroskey's two-story brick building. The fire also extended south and east of Fifth street, and completely destroyed every building on the west half of the block. The wind carried the embers across the railroad tracks as far as the Western hotel and started half a dozen fires, which were quickly put out.

Inside of an hour and a half, 16 business houses and eight warehouses and smaller buildings had gone up in smoke and flame.

The scene on Front street is one of desolation. Beginning at the eastern extremity of the burned district the buildings were as follows:

Dixon & McCroskey, dry goods and clothing; A. O. U. W. hall and lodge room; Davis & Brower, law office; W. E. Dean, Red Star store, dry goods; Herbert Smith, racket store and shoes; T. B. Cornell, groceries, hay and feed; A. Lempe, saloon; B. McArthur, furniture and second-hand goods; Will Mallory, barber shop; F. W. Blake, confectionary and restaurant; Palace hotel; Seiffert & Schmidt market and candies; Kessler's jewelry store; Scott Griffin, hay, grain and feed; J. L. Yokum, shoe shop; Mrs. Mallory, restaurant; W. A. Paddock, second-hand store; C. St. Louis, jeweler.

The majority of the buildings were of wood, but F. Petch, H. Smith, T. B. Cornell and W. E. Dean were in one-story brick buildings, which were leveled to the ground. The railroad park is covered with merchandise of all sorts, which is being guarded by a detachment of company H, O. N. G.

The fire was stopped on the west by Wade's two-story brick, and on the east by Dixon & McCroskey's two-story brick. The origin of the fire is not known, but it is supposed to have been caused by a defective flue.

The total loss is \$75,000; insurance, \$20,000.

### A PHYSIOLOGICAL SCHOOL.

Chicago to Have an Advanced Institution  
for Training Defective Children.

CHICAGO, Sept. 29.—The Chicago Physiological school has been incorporated under the laws of the state of Illinois by President Harper, Miss Mary R. Campbell and George H. Mead, and will open with the fall quarter of the university of Chicago next week.

The school is one for the study and training of children arrested in development.

"The school thus far is not affiliated with the University of Chicago," said President Harper. "It may in time become one of the affiliated institutions. Miss Campbell will have charge."

The school is to be an experimental one in child training. There will be the three departments, physiological, psychological and pedagogical. Those who are to be in charge of the school will keep the pupils under constant surveillance. A close study is to be made of the peculiarities of each one and records of every observation that may be made will be kept.

It is thought by this method to get at some logical conclusions of cause and effect and to determine what environment will do for the children who fail to develop normally.

### A GRAND CONCEPTION.

Movement on Foot to Make Permanent  
Dewey Arch in Marble.

NEW YORK, Sept. 29.—Following the suggestion that the Dewey arch be made permanent in marble and bronze, prominent citizens have joined in a cause to rear an arch that shall be in lasting commemoration not only of Dewey and Manila, but of the heroes and engagements of the American navy.

Among those who have given their assurance of support are ex-Vice President Levi P. Morton, ex-Secretary Cornelius H. Bliss, ex-Secretary Daniel S. Lamont, J. Pierpont Morgan,

Anson R. Flower and Jefferson Seligman.

Petitions will be circulated in the chamber of commerce and stock exchange and in other prominent business places. A meeting will be held next week for organization.

Such an arch as that suggested, it is estimated, will cost \$150,000. One of the promoters is said to have offered a check for \$150,000.

### A "BEAUTIFUL COUNTRY."

Letters From an Indiana Veteran to  
His Comrades Express Delight  
With the Philippines.

MUNCIE, Ind., Sept. 29.—At the annual meeting of the Delaware county veterans association, a letter recently received by a member of the organization from General Lawton, division commander in the Philippines was read. The letter in part says:

"This is a beautiful country and the people in my opinion are not half so bad as they are pictured. Centuries of bad government and bad treatment have made them suspicious and it will be some time before we can persuade them that we are not here for the purpose of robbing them and making them slaves."

"As soon as they are assured of our good will and intentions, and we are able to show them by example that we mean only for their good and welfare, I think we will find the Philippines as good Americans as any of our foreign element."

### NEW DEPARTURE IN BANKING.

The Chicago Banks All Agree to Pay  
2 Per Cent on Balances Hereafter.

CHICAGO, Sept. 29.—James R. Forgan, vice-president of the First National bank, states that an agreement has been reached by practically all the banks of Chicago, both national and state, to pay 2 per cent on bank balances from October first, until further action of the banks parties to the agreement.

## PANIC ON EXCHANGE OF NEW ORLEANS

### GIGANTIC SWINDLE EXPOSED

Cotton Made to Take an Unexpected  
Jump by Manipulators Who Got  
Control of the Wire.

NEW ORLEANS, Sept. 29.—Intense excitement prevails on the cotton exchange here, and the directors of the exchange have met and suspended business. The New York market closed today, and the only quotations this morning to guide the local investors were from Liverpool. The market had scarcely opened when the operators had become paralyzed by advices clicked from over the ocean. It showed futures jumping in leaps and bounds. In half an hour reports showed that the Liverpool market had jumped nearly a cent. The whole exchange went wild, and the excitement spreading to the streets, multitudes crowded around the doors of the building.

At 10 o'clock a meeting of the directors was called and prompt action was taken, suspending all business. Operators were unable to explain the tremendous jump, and it was the common belief on the floor that the wires had been tapped and that a gigantic swindling game was on foot somewhere.

Private cables were going to Liverpool by the dozens seeking information. While the telegraph wires were bringing news of the advances at Liverpool, private cables to prominent local cotton firms were bearing the news that there had been little or no change from yesterday in the Liverpool market. This at once aroused the suspicions of the operators, and caused a hasty meeting of the directors.

The action of the directors in ordering a suspension of business checked the panic, but only temporarily allayed the excitement, and there is suppressed anxiety to know the solution of the puzzle.

The directors officially announced later that today's suspension is due to fraud. Operators estimate that the loss suffered here on account of the swindle will amount to more than \$100,000.

### TURN IN NATIONAL FINANCES.

Chicago Times-Herald.

In their fight on the war policy of the administration it begins to look as if the pull-down-the-flag party would not be permitted to extract much campaign material from the condition of the national finances. There is little doubt
