VANDERBILT HEIR STILL UNKNOWN

Arrival of Alfred C. is Awaited Before the Will of the Millionaire Will be Opened.

EXPECTED IN SAN FRANCISCO DAILY

Special Train Will Carry Him to New York in the Quickest Time Ever Made Across the Continent.

NEW YORK, Oct. 5.—Unless the ship San Francisco, is late, he will reach New York on Wednesday next. All plans and preparations for the speedy sending of the young millionaire from San Francisco to New York have been

arranged. In case he so desires, there will be no stops, no delays, and he will come through from the Pacific to the Atlantic in quicker time than any passenger ever made the run.

The private car of the Vanderbilt family has been sent west and is awaiting the arrival of the new head of the family. He is on the China mail steamer. It is possible that it may be sighted late today, but Friday certainly, unless an accident should occur.

The arrival of Mr. Vanderbilt will be awaited with a great amount of interest, because soon after his arrival all guess work as to the contents of his father's will will be ended. It may be that he will be met in San Francisco by some of the lawyers of the family with a copy of the will, and that before his arrival in this city it will be filed for probate.

President Sherman. He said he favored an American control through the medium of a commission or a civil government but great latitude should be allowed for local government of the sixty or more tribes so that the administration of affairs could be adjusted to meet their different habits and conditions.

President Sherman who was in the city and had a conference with the president, said in an interview that the commission would hold its first session in this city early in November. The adoption of Admiral Dewey's recommendation as to increasing the squadron gives some token of the strictness of the blockade it is intended to enforce. Reports received from Rear-Admiral Watson since Admiral Dewey's departure from Manila show that rice and hemp have appreciated in value 30 per cent and that in return for exports of these products munitions of war are being received by the insurgents.

The facts as to the long coast line of Luzon and the ease with which goods may be landed in one island and transported to another have been fully explained to officials, and this has made the president the more ready to follow the admiral's advice. It is apparently not intended to proclaim a formal blockade, but rather to enforce a local blockade which will prevent it from assuming international significance.

AMERICA AT THE EXPOSITION. This Country's Pavilion is Nearing Completion.

The United States National Pavilion at the Paris exposition is rapidly nearing completion, and when it is finished will be one of the finest buildings on the Quai d'Orsay.

It is 3500 feet and 160 feet high from the lower level, is classical in style and, although it differs in design from any of the buildings at the Chicago fair, its appearance recalls the notable structures of the White City. The main entrance is under a large portico in the center arch of which, facing the river, will be French's statue of Washington. A bust of President McKinley will occupy a niche over the door.

The appointment of the Pope of Archbishop Chappelle, of New Orleans, an Apostolic delegate to the Philippines is regarded in Paris and in Rome as a compliment to France, because of her services in the peace negotiations between Spain and the United States. The appointment is said to place Monsignor Chappelle in direct line of promotion to the Cardinalate, since it is the usage of the Roman church to reward a prelate to whom has been intrusted a difficult diplomatic mission with the red hat after successful accomplishment.

Oh, what a warm welcome the first little traveler whom Heaven guides to the door of a woman's heart receives from the happy mother. Every thought and care is given to the comfort and well-being of the new comer after it has entered into the portals of life and taken its place at the family fireside.

Yet during the time when baby is expected to do all the work, the mother's strength and vigor are sapped. No mother who is not satisfied with the results of her own efforts should not have a PIERCE'S Favorite Prescription.

Prospective mothers should send to the World's Dispensary Medical Association, Buffalo, N. Y., for a copy of Dr. Pierce's Common Sense Medical Adviser, which will be sent free on receipt of 21 one-cent stamps to pay the cost of mailing only, or 31 stamps for cloth-bound copy.

He will then have command of one battleship, one armored cruiser, two monitors, two protected cruisers and twenty-four gunboats, besides supply ships, etc.

During the interview he spoke of the great value of the islands from a commercial standpoint, emphasizing what the many officers had said about the immense resources of the islands. Concerning the future government of the islands, the admiral agreed fully with the views that had been expressed by
